Leslie, who have just returned on a vacation from a missionary post, explained to-day that when he was born, the chief of the Dayakas, who had forty wives of his own, sent him a spare granddaughter for a wife as a token of regard. As Theodore was badly in need of a nurse, the present was accepted and the Royal African proprietors satisfied at the same time. The wife accompanied her husband. It was only humanity to bring her, for she explained to her mother-in-law that she surely would be killed if left behind. STOMACH COMFORT

When the Stomach Rebels, Headache, Indigestion and Nerve Pain Follow—Mi-o-na Brings Relief

Just as soon as you are done eating the healthy stomach commences to churn the food around and mixes it thoroughly with the juices of the stomach.

If the food is not churned, it lays heavily on your stomach, turns sour and causes all kinds of distressing symptoms, such as headache, indigestion, stomach pain and dyspepsia. Mi-o-na helps the stomach to properly mix the food.

John S. May, of Isabella Street, Belleville, Ont., says: "For over seven months I was in constant agony with a case of nervous dyspepsia and indigestion that medical skill could not relieve. I was weak and had lost much weight through loss of appetite and suffering. My meals would fill me with gas and a feeling of oppression across the stomach and all up the back, but no in a mischievous condition. I was restless at night and as tired and impoverished by the morning as on going to bed. A choking sensation in my throat was always present, as if by being choked and my heart seemed to flutter and bound as if it were suspended through my chest. I was unable to eat for the first two days of my illness. I began to feel better when I used Mi-o-na and after three days I was able to eat and feel better. I had a great deal of relief and after using a few more boxes I was able to get a good night's sleep and get my money back if Mi-o-na does not cure me."

THE CORONER'S JURY CHARGES ARCHIE McLAUGHLIN WITH WIFE MURDER

Jury Find That McLaughlin Poisoned His Wife and Then Set Fire to the Building.

TWO CHILDREN WERE SUFFOCATED IN HOUSE

Uxbridge, Ont., Nov. 25.—The coroner's jury in the case of Mrs. Archie McLaughlin and two children, supposed to be burned to death in a fire which destroyed their home on Oct. 28th, returned a verdict last evening, after being out nearly two hours, to the effect that Mrs. McLaughlin came to her death by strychnine poisoning and the children by suffocation and charging the husband and father with murdering his wife and setting fire to the house. The verdict caused no surprise as the evidence from the start had been strongly against McLaughlin. Miss Alma Nix, whose name has been frequently connected with McLaughlin's in the evidence, was among the witnesses heard yesterday. She gave an unqualified denial to the stories that she had been intimate with McLaughlin. She treated him merely as a friend, she said, and when she found people talking about them she wrote telling him to cease his attentions. McLaughlin spoke no word when the verdict was announced. His manner seemed to show that he expected such a decision.
