A RECIPROCITY ECHO HEARD ABOVE WAR DIN

Canadian Correspondent of Boston Paper Returns to Old Theme—Speaks of "Protected Grifters"

The Boston "Transcript" recently contained an article by Mr. E. W. Thomson, their Canadian correspondent, which revived the arguments in favor of reciprocity between Canada and United States, and stated that the reasons for the adoption of a trade agreement would be more compelling after the war than before.

The Toronto "News" the other day dealt with Mr. Thomson's arguments as follows:—

During the discussion in 1911 Mr. Thomson filed The Transcript with extravagant laudation of the reciprocal trade proposals. He became violent whenever Protection was mentioned. The determination of Canada to make other arrangements than those approved by Mr. Thomson, who regarded himself as a sort of Consulting Physician, appointed to watch over the body politic, stirred him to vituperation.

He began by declaring that a higher tariff was expected by the "grafting manufacturers here" and that they would be disappointed. The need for cheap manufactured goods would arise after the war and these would not be secured "from our protected grifters." Mr. Thomson in the course of his argument (which is a poor thing, but his own), intimated that the tariff increases compelled by the war were demanded by the manufacturers.

He said, in his polished manner: "These men impudently clamored for and obtained from the Borden Government 7 1/2 per cent. more graft last winter. They persist in maintaining prices as high as the tariff permits. They have disgusted the general public by so evincing new selfishness in wartime; by howling that patriotism requires Canadians to buy 'Made-in-Canada' junk, etc., etc."

Thirty years ago, perhaps, some "Made-in-Canada" goods were junk. No man of experience says that today. Mr. Thomson will not get far in his demand for Continentalism by reviling Canadian factories and Canadian workmen and by undertaking a campaign of studied falsification. Our relations with the United States have always been complicated by the activities of foolish individuals. The anti-imperialist argument was placed before the American people incessantly during the campaign of 1911 by a corps of correspondents, attached more or less loosely to the Liberal party. Of these few remain to give tongue. But Mr. Thomson continues to misrepresent the people of Canada.

He assumes that our electors are the private property of the manufacturers, retainers of a band of robber-barons.

LOST AND STRAYED

During the fiscal year 1914 some thing like \$2,000,000 worth of rubber goods, including tires of all kinds, belting, fire hose and other rubber products were imported into Canada. The buying abroad of this great amount of rubber goods is nothing but self deception. The rubber goods industry in Canada has reached a state of excellence that no other country can surpass. There is no more need for a Canadian to purchase rubber goods of the kind indicated above in a foreign country than there is to buy foreign wheat. Both commodities are produced in Canada, equal in quality to anything produced elsewhere. Next time you are in market for something in rubber goods see to it that you buy the products of any one of Canada's dozen first-class Canadian factories. The great part of the money you spend will be turned over by the manufacturer to his employees in the form of wages that will be spent by them, and through various channels find its way back to you. Keep wheel of prosperity turning on rubber tires "Made-in-Canada."

FRIENDSHIP, NOT HATRED

One of the most important events of the past year was the sympathetic understanding which was reached between farmers and manufacturers. In discussing this, Canadian Farm, a weekly agricultural journal published in Toronto, says:—

"The farmer is not inherently antagonistic to the manufacturing interests. While the basic industry in Canada is agriculture, the one is largely the complement of the other. The farmer is dependent upon the manufacturer for a large share of the equipment necessary to successfully carry on his farming operation. On the other hand, the business of the manufacturer could make little progress without a prosperous farming community and increased production from the land.

"The relations between the farmer and the manufacturer, instead of being antagonistic, should be of the most friendly character. To bring about more friendly relations and greater co-operative effort there must be give and take on both sides."

Ald. Creaghan Replies Address of Welcome

Is One of Youngest Men in Civic Politics in New Brunswick—Made Good Impression

The many friends of Ald. D. S. Creaghan read with pleasure in Thursday's Fredericton Gleaner, his reply to the address of welcome by Mayor Mitchell, to the meeting of the Union of New Brunswick Municipalities then in session at Fredericton, and which the Advocate is pleased to give space to here. Following was Ald. Creaghan's address:—

"On behalf of the delegates to the convention I wish to express my appreciation of the kind welcome that has been extended to us by His Worship Mayor Mitchell and the Wardens of York County. Fredericton has always been noted for its hospitality and I am sure that every visitor will lock back with pleasant memories to his short visit here. We were all very much impressed with the cleanliness, beauty and industry of the capital city. Over in Newcastle we thought we had the most beautiful and industrious little town in the province, but after this we will have to take of our hats to the city of Fredericton.

"I wish to thank you also for the honor you conferred in having me address such a notable gathering at the convention. After listening to such eloquent words from the past speakers it makes me feel a bit timid as my experience in public speaking has been very limited indeed. As a matter of fact, I came here to listen and learn, not to talk.

"Almost every province—in fact almost every country in the world—has felt the great trade depression that the European war has brought about. But here in New Brunswick, from the City of St. John to the Town of Campbellton, 'business is as usual,' and in many cases better than usual. Our industries are all thriving; mills are running overtime, and never did the future of New Brunswick look better than at the present time and we must all do our share to keep it so.

"These municipal meetings have accomplished much good. Many lessons have been learned which have helped materially in the better government of our towns and cities and we all look forward with pleasure to hear the different subjects that are to be dealt with this year which will prove both interesting and instructive.

"The Great War has brought home to us the need for strict economy and it is no place in this practise to better advantage than at the different council boards of the province. We should all do our utmost to have our towns and counties run as economically as possible.

"There are many excellent speakers to follow whom I know you are all waiting anxiously to hear, so I will not take up any more of your valuable time. I sincerely trust that every delegate will put in practice the many valuable lessons that are to be learned at this convention."

Ald. Creaghan is one of the youngest men in civic politics in New Brunswick, and his address, while brief, was to the point and made a great impression on the convention. He is now serving his first term as Alderman for the Town of Newcastle, and at the time of his election a few months ago, he received the hearty support, not only of his numerous immediate friends, but that also of his older acquaintances among the business fraternity. Ald. Creaghan is giving promise of some day becoming one of Newcastle's leading politicians and business men.

BEAVER BLENDED FLOUR If the Minister is coming to dinner on Sunday you'll want everything you bake to be particularly good. This is your opportunity to prove the quality of "Beaver" Flour. This famous blended flour never varies in strength, quality and flavor—it is the same today, next week, next month, next year—because the wheat, from which it is ground, are always blended in exactly the same proportions. Try it—your grocer should have it. DEALERS—Write us for prices on Feed, Coarse Grains and Cereals. 178 The T. H. Taylor Co. Limited, Chatham, Ont.

SHOP IN YOUR OWN CITY FIRST

This "Made in Canada" movement can be brought a little nearer home to each individual by emphasizing this suggestion: "Patronize the stores of your home town." Each man is entitled to spend his own money where it will buy the most—whether it be in Rome or Awa. But in fairness—Is it not wisdom before purchasing elsewhere to see what the stores of our own town have to offer? The prosperity of each of us is tied up with the prosperity of his neighbor. Acquaint yourself with what the stores of your own town are offering by reading the advertisements in The Union Advocate.
