Severci the people's commissioner in charge of social station of factories argue that communism is the only method by which central Europe can be saved from total ruin. Capitalism, they maintain, is unable to cope with the threat of bankruptcy, high wages and the unwillingness of laborers to work. They point out that under communism workmen cannot strike and are obliged to accept reasonable wages.

Protests against the formation of soviet government, voiced at political meeting in Bamberg, northern Bavaria, are reported in despatches from that city. This service is provided by the Medical Branch of the Department of Soldiers' Civil Re-Establishment.

An ex-soldier or ex-sailor who has a recurrence of a war disability should, if he is not too ill, go at once to the local medical officer of this Department.

If he is too ill he should have that medical officer notified at once.

Should he be taken ill in a place where there is no representative of the Department, he should call in a local physician to give him the necessary immediate treatment and ask him to communicate immediately all details of the case to the nearest medical officer of the Department.

The name of the authorized medical representative of this Department for each locality is given alongside.

Treatment at the expense of this Department can only be secured through these representatives. The Department cannot pay any bills for treatment which have not been authorized by the Department.

If the medical officers recommend it, pay is given to patients, and allowances are granted to their dependents by the Department, during the period of treatment.

The established scale of pay and allowances that may be granted depends upon the extent to which the treatment recommended by the medical officer of the Department prevents the patient from doing his regular work.

Arrangements for special care of patients of the Department have been made with hospitals in all the larger towns and cities from coast to coast.

Sanatoria for treating tuberculosis under most favorable conditions are operated in every Province under the direct supervision of the Department.
