NEWS ABOUT HOME.

A squirrel hunt on the Square was the diversion of the school children on Thursday afternoon.

Mr. George Cox, the bicyclist, has sold his machine and has ordered a larger wheel—a fifty-six inch.

We see by the *Bermuda Royal Gazette* that Mr. and Mrs. J. T. Garrow arrived in the island on Monday the 7th, on the steamer Orinoco.

The North-st. Methodist S. S. temperance meeting on Monday night was a great success, and the young folks had a pleasant time of it.

Mr. W. Napier, formerly of the registry office, but now of the G. T. R., Chicago, spent a few days in town during the week. He took in Montreal on his Canadian trip.

We see by the *Chatham daily Tribune* that J. R. Miller, G. M. W. of Ontario, delivered an address at the recent A. O. U. W. concert in that town, showing the advantages of that order. The concert was a great success.

Mr. Fote, of Beausville has been engaged as organist for St. George's church. He played at morning and evening service on Sunday last, and gave complete satisfaction. His engagement will date from the first of June.

SHORTBURNS.—Mr. R. Hawley on Friday last sold his "Beaconsfield III" to Mr. W. E. Reid, of Goderich township. The remaining animals of the herd will be shipped to Lansing, Mich., in the latter part of the month.

BIKYLETS.—A number of bicyclists from London and Clinton are expected in Goderich on the afternoon of Queen's Birthday. A ride around Goderich Square is said to be one of the finest runs a wheelman can find in America.

Henning's flour and grist mill is again in running order after the fire. Owing to the destruction of Hart & Co's mill, the shutting down of Henning's, was a busy time in town. There ought to be a much time ahead of Mr. Hennings.

Mr. John Robinson returned from Winnipeg on Tuesday last, after a sojourn of seven weeks. He doesn't "boom" Winnipeg, to any alarming extent, and says that business in almost every branch is overcrowded.

Mr. S. Shano on Monday last purchased from Mr. Jas. Thorington of Denver, Colorado, the premises occupied by Messrs Mitchell, Ferguson and Woodcock, and now owns the entire block on the east side of Hamilton street up to McNair's grain store.

Mr. James McIntosh left on the Quebec on Sunday morning for Prince Arthur Landing, where he will open out the business of his firm, McGregor & Co. Mr. McIntosh is a good citizen, and will prove an acquisition to the Landing. He was accompanied by E. O'Rourke, who acts as his assistant.

Mr. Geo. Robinson, formerly of Goderich, was married at G. a. m. on Tuesday at Clinton to Miss Shap, a resident of that town. The happy couple left by the eight o'clock train for an extended honeymoon trip ending at the bridegroom's fraternal resort in the neighborhood of the Turtle Mountains, Manitoba.

QUEEN'S BIRTHDAY.—The anniversary of the Queen's birthday will not be publicly celebrated in Goderich this year, but those of our residents who want to give a loud manifestation of loyalty can take in the horse races at Clinton, the band picnic at Benmiller, or the boat-racing, dancing and tug of war at Kitch.

AN INTERESTING TRIP.—Mr. S. Hick, the well-known assistant in Jordan's drug store, left yesterday for Manitoba. He expects to be absent about six weeks, and will not return alone. A maiden of the Prairie Province, well known and esteemed in Goderich, has agreed to share his fortunes. We wish the young couple much joy.

Mrs. R. Hawley, and her daughter, Mrs. Stevenson, arrived in Goderich, from Detroit, on Saturday last. Mrs. Hawley, we regret to state, has been suffering from severe indisposition. They will remain here for a short time, and will then proceed to New York, where they will take passage for Europe on the Anchor line steamer, City of Rome.

It gives us pleasure to learn that Master John Williams, son of our townsman Mr. Joseph Williams, lumberman, has passed his first year examination very successfully in the School of Practical Science, Toronto. He is the youngest student at the school, but stood high in his class. He is studying the science of engineering as a profession, and gives promise of success in that difficult line, where they are being shipped to London, where they find a ready sale.

HORTICULTURAL SHOW.—Prepare your plants for the Horticultural show, to be held in Goderich on the 2nd and 3rd of July. Prizes offered for fruits, flowers, vegetables, etc. See secretary for prize lists.

Sarmia Observer.—"Mr Shaw, of Goderich, purchased a handsome span of matched ponies from Mr. Robert Whitman yesterday. The price paid was \$150. Mr. Shaw intends them for his private use."

Mr. R. W. McKenzie left last week for his Manitoba farm, taking with him a quantity of stock. He is going into agriculture extensively. Mr. James Yates will manage the hardware business in his absence.

Mr. John Beacom's "Tontine" and Mr. Jos. P. Fisher's "Archie Bourbon" are registered for a race to take place about the middle of August. The match grew out of the double-barrelled challenge, the particulars of which we published last week.

The following, from the Hamilton *Spectator*, refers to a niece of Mrs. Looney of this town:—"Mrs. Alice McGillivray, wife of T. Shannon McGillivray, attorney-at-law, Grand Forks, the lady medical student who carried off the medal of her years at Queen's university, Kingston, has just arrived in Hamilton, where she also intends to spend some time at the home of her father, Mr. James Skimin, foundryman."

The proprietor of the Albion Hotel can now boast of one of the handsomest offices and waiting rooms in Ontario. The walls of the room have been handsomely papered, the painter has been at work upon the panellings, and a beautiful combination ceiling surmounts the whole. The work was done by E. R. Watson, and reflects credit on his skill as a decorator. We congratulate Mr. McBride on the appearance of his high-toned room.

INTERMEDIATE AND NON-PROFESSIONAL EXAMINATIONS.—By circular from the Education Department we learn that the English Literature for 1884 will be as follows: Intermediate and Second Class, Gray's "Elegy"; Goldsmith's "Traveler." First Class C, the same as the foregoing, together with Shakespeare's "Coriolanus." The English for 1885, and the Latin, French and German for 1884 and 1885 have also been fixed, and can be ascertained on application to the Head Master of the High School.

NIP AND TUCK.—The play, as all who have seen it know, is full of side splitting scenes and witty dialogues. Its characteristic is fun of the most staying kind, just close enough to face to take well, and at the same time not to fall the listless. The plot is sufficiently heavy to give backbone to the piece and is filled out with ever changing comic scenes which form the most prominent and interesting parts.—*News Montreal*, October 23. They appear here on Wednesday & Thursday next. Reserve seats can be secured at Imrie's.

AGRIDERS.—On Wednesday morning as Mr. George Morris, of Colborne, was driving a wagon load of sheep through town which he had disposed of to R. McLean, one of the animals attempted to jump out of the vehicle on Kingston street, and in endeavoring to attend to the sheep, he lost control of the horses, which dashed off, flinging the driver violently to the earth. Mr. Morris struck the ground with the side of his head and was stunned. He was carried into Whitley's Hotel, and Dr. McDonough called. He soon regained consciousness, and with the exception of some contusions about the ear and head, and a sore shaking up, did not appear to be much the worse for his fall.

HIGH SCHOOL LITERARY SOCIETY.—The society held its regular meeting in the High School on Friday evening last. Among other business, the following motion was passed. That the society, at its earliest opportunity, desires to thank the friends of the society, outside the school, for the valuable assistance rendered at its public entertainment both in preparing the programme, and in adorning the stage, and thus tending to the success of the entertainment. And owing to the next regular meeting falling on the day after the 21st of May, thinking that a large number of the pupils would be absent, it is thought advisable to postpone it until the first of June. The literary part of the programme which consisted of readings, recitations, music, etc., was then proceeded with.

LAGGERS OF THE NEW TUG.—A large number of spectators, among whom were many ladies, witnessed the launch of the tug *James Clark* on Tuesday afternoon. The tug was built on the dock near the Harbour Mill, and was launched sideways. Considerable difficulty was experienced in starting her off, and the patience of the onlookers was severely tried. After waiting for about two hours, the vessel was started, but owing to the line holding her back by the bow not being cut away soon enough, she swung around in a skidding down, and coming in contact with the pier in her descent, a plank in her bow was sprung. Striking the water after a fall of about ten feet, she quickly righted. There was a scramble on board, when she found her way to the leading, owing to the accident. The injury is not serious. The tug *Clara* came alongside, and towed her to the island for repairs. E. F. Lawrence had the honor of naming the new vessel, and broke a bottle of wine over her bow as she slid down the ways. The *James Clark* is 20 feet long, 10 feet beam, and 7 feet hold. She was nicely in the water, and when started will be a handsome and efficient tug. Crystal & Black are making her steel boilers, and Seagmiller & Co. are putting in the other machinery. She was built by H. Marlow, and named by Clara Bra.

Mechanic's Institute Meeting.—A meeting of the directors of the Mechanics Institute was held on the evening of Wednesday last.

Present.—The president, Mr. Colborne and Messrs. Mitchell, Mitchell, D. McGillivray, Morton, J. Sheppard, Proudfoot, Moore and G. Shappard.

The minutes of last meetings were read and approved.

The report of evening classes was received and adopted.

On motion the *News and Millinery Gazette* was added to the reading room periodicals.

Moved by Mr. Mitchell, seconded by Mr. Jas. Sheppard, that the annual meeting be held on the 22nd inst.

The meeting then adjourned.

KNOX CHURCH ORGAN.

The First Recital a Pronounced Success.

The managers of the church, and all concerned in the work of introducing to the public the beautiful new pipe organ recently placed in Knox church, are to be congratulated on the success of the formal "opening" of the instrument held in the church on Friday last. The evening was favorable, and a large audience poured into the church during the half hour proceeding the commencement of the programme, keeping the usher actively engaged in seating them. A large proportion of the audience were ladies, and every congregation in town was well represented. We have seen few finer audiences in Goderich. The programme was begun by the entire audience, assisted by the choir, singing "Before Jehovah's Awful Throne," and it was given in grand style by both voice and instrument. Dr. Verrinder, the talented London organist, was the attraction of the evening. His superb handling of the instrument drew forth high encomiums from the audience. He has a fine touch, and has a masterly manner of bringing out the effects of the various combinations of the organ. His rendition of the "Vesper Hymn," was to our mind the treat of the evening. His second solo, Liszt's "Ave Maria," an impromptu by himself and a fugue by Bach, showed high cultivation, and his closing piece, Merkel's "Meditation" and the "Hallelujah Chorus" of Handel, was capital. Miss Nettie Stegmiller was well received in her solos, and gave evidence of talent and conscientious study. She is a favorite pupil of Dr. Verrinder, who predicts a successful career for her as church organist. She played a spirited march by Clarke, and an andante of Best's. We congratulate the church on having so talented an *artiste* in the congregation. During the evening appropriate solos were sung by Miss Kay, Mrs. Ducham and Miss Smeath, "Far Away Where Angels Dwell," by the last named lady, being particularly well received. The anthem "Guide Me," was well rendered by the choir. We hope the managers of the church will see their way clear toward giving sacred concert services at such times, as they have so excellent an instrument to aid such an enterprise.

THE ORGAN.

Dr. Verrinder speaks highly of the instrument. It is well built, is of remarkably pure, rich tone, and is a credit to the builders, S. Warren & Son, Toronto. The organ has a case of chestnut wood of open pattern, above the belt being composed of pipes with crimson flock, olive green paint, and gold bands and ornaments. The following are the stops:

GREAT ORGAN.

1. Open Diapason, metal.	58	Notes, 8 feet.
2. Dulciana.	46	3 feet.
3. Melodia.	38	8 "
4. Stopped Diapason, Bass.	38	4 "
5. Harmonic Flute, metal.	34	4 "
6. Principal.	28	4 "
7. Fifteenth.	28	3 "

SMALL ORGAN.

8. Horn Diapason, metal.	38	8 "
9. Solina.	38	8 "
10. Stopped Diapason, treble.	38	8 "
11. Horn.	38	8 "
12. Octave.	38	4 "
13. Oboe and Basson.	38	3 "

PEDAL ORGAN.

14. Bourdon, wood, 27 Notes, 15 feet.	15 feet.
15. Coppel-Swell to Great.	15 feet.
16. Great to Pedal.	15 feet.
17. Pedal Signal.	15 feet.
18. Tremolo to Swell Organ.	15 feet.
19. Forte and Piano—Composition Pedals to Great Organ.	15 feet.

SPECIAL COLLECTION.

The services on Sunday in Knox church were largely attended. In the morning Rev. Dr. Ure preached from the 11th Psalm, 1st verse, and in the evening Rev. J. A. Turnbull, B.A., took for his text Eph. 5:19. Both preachers referred to church music and singing during their sermons. The amount taken up over the ordinary collection, some \$50, was given to the organ fund. The Sunday school and Bible class increased this collection by \$14.52. By the concert and collections about \$150 were realized.

THE UNITED EMPIRE.—This is what the *Sarmia Observer* says about this handsome steamer:—"Captain Robinson will sail the first passenger boat on the lakes this season. The United Empire will be completed in a week and will then make a trial trip to Detroit before navigating the northern waters. The interior of the cabin is inexpressibly beautiful and artistic in decorative design and finish. It is lighted by colored glass, the painting introducing marine characters of odd and inconceivable shapes. The cylinder is covered by a casing painted and grained to imitate the work of the cabinet maker, and resting against this casing is the best upright piano that could be purchased. The decoration of the cabin has been performed by Mr. Henry Clucas, and the handiwork of this celebrated artist is always a thing of beauty and a joy for ever. Mr. Clucas is also a craftsman of no mean talent. In fact his efforts in this line are sometimes found in *trips*, and Mr. Brougham cherishes a high appreciation of all he receives. The United Empire will have a crew of fifty persons all told."

It now appears that Rev. Dr. Darnell, principal of the late Dufferin College, London, has shipped, leaving liabilities amounting to \$50,000 or \$70,000. The estate will pay perhaps five per cent on the dollar.

Two coloured baseball clubs from Richmond and Petersburg, Va., while playing a match in the latter city, quarrelled. Knives and pistols were used, several men are dying of their wounds.
