Consul Benedict and wife, M. Bemister, S. Perlin, W. E. Ulwin, R. F. Harlaw, H. Dunn, J. L. Clarke, H. J. McAdam, R. Wright, H. Heffernan, H. Printer, A. Moulton, W. J. Redstone, A. C. Williams, A. C. Coleman, M. Mold, Mrs. Wringlow, W. A. Bell, C. E. Sage and 9 steerage.

Sidewalk Sketches.

By H. L. RANN.

THE COW.

We wish to append a few melancholy reflections upon that humble beast of burden, the lady cow. Why is it that people will throw an adult fit over some painting by old Mike Angelo, or a poem by Hank Longfellow, and yet stand utterly unmoved in the presence of the milch cow? What could be more romantic than the sight of a sweet-faced Jersey standing knee deep in June and blue grass carelessly spearing an itinerant gully with her tail and digesting her frugal meal on the installment plan? The cow springs from the calf, and a good many people spring from the cow when she heads their way. As a usual thing the cow is a peaceful and law-abiding animal, but there are times when she is wholly unlooked for in the region of the hip pocket. If persisted in, this practice becomes quite tiresome and leads to an exchange of good-natured banter, introduced with a section from a rail fence. There is a great difference in cows. Some give a pale blue milk that will sour on the way in from the barn and bring perspiration to the brow of the Babcock test, while others turn out an article with a rich yellow lid which you have to break into with a can opener. The factory capacity of the Jersey cow is smaller than that of the Holstein, but the Jersey manufactures all of her own product on the premises and does no assembling save when trying to follow the roots of the lowly alfalfa to their last resting place. The cow is a great producer in the summer time, but in the winter she doesn't bring in enough to pay the water rent. Tomorrow we propose to give a few practical suggestions as to the proper treatment of the cow.

LECTURE AT HOSPITAL. — Dr. Wakefield lectured Tuesday last to the patients at Signal Hill Hospital and last night at the Central Fire Hall to the Constabulary and firemen. The Inspector General being present. The lecturer made particular reference to the proposed law against spitting. The lecture was very interesting.

REWARD'S LINIMENT CURES GARDEN GET IN COWS.

Annual Report of Nfld. British Society.

To the Officers and Members.
Gentlemen.—Your Officers and Committee on retiring from office beg to report upon the work of the Society for the past year as follows:—

During the year 44 members have received the benefit of the Society in time of sickness, entailing an expenditure of \$742.85. Five members, two members' wives and four members' widows have died since the last Report, the mortality benefits paid amounting to \$480.00.

The Annual Soiree was held at Easter and proved to be one of the best social events of the season. It was not, however, a success financially owing to the many attractions of a similar character, but it was nevertheless a most enjoyable event. To the ladies who so bountifully provided the tables, and to the patrons who attended, we are deeply grateful and tender our hearty appreciation and thanks.

Through the kindness and courtesy of His Grace Archbishop Howley and H. P. Shortis, Esq., two lectures were delivered in the Hall during the winter. The well known ability of the Lecturers, and the fact that each had chosen subjects of special historic local interest brought goodly numbers on each occasion. It is needless to say that the lectures were both interesting and instructive, and the proceeds being for the benefit of our Building Fund the warmest thanks of the Society are due.

In the Coronation of their Majesties the King and Queen, the Society was foremost in the matter of fittingly celebrating this most interesting and important event. The congratulations of both branches of the Society, embodied in a neatly worded and handsomely illuminated address, breathing sentiments of Loyalty and affection to their Majesties were tendered by a deputation to His Excellency Sir Ralph C. Williams, at Government House, for transmission to the King. The deputation was graciously received by His Excellency who spoke in the highest terms of the great manifestations of Loyalty displayed, not only in St. John's but throughout all parts of the Colony.

On the eve of the Coronation a Soiree was held in the Hall which was very largely attended; the Hall being beautifully decorated for the occasion. The Hall was also illuminated on Coronation night and proved to be one of the best attractions on the occasion. And lastly the Officers of the Society and Representatives of the Juvenile Branch were invited and attended the State Service which was held in the Cathedral Church of St. John the Baptist.

The Report of the Guardians of the Juvenile Branch will be laid before you, showing some improvement. There has been very little sickness among the members since our last Report, and no death has occurred in the ranks for a number of years. The finances are building up, the Branch having a handsome fund to its credit. May we hope for a deeper interest on the part of the adult members in the future, for the welfare of this useful auxiliary, not only because of the immediate benefit to the Branch, as has been so often urged in previous Reports, but for the incalculable benefit which must surely come to the Parent Society if the affairs of the Branch be properly fostered and encouraged.

The reading and recreation rooms still afford a means of pleasurable entertainment for the members who patronize them. The Committee desire to urge upon the younger members the necessity for the infusion of "new blood" in our membership. We think it is a good inducement to offer any friend or companion, viz., that this Society, by sickness and death, also provides a place where they can spend a few hours relaxation after the day's work is done, free of charge. Taking this year, which is the highest the assessments has reached for a number of years, it cost the members only 14c.

"Only a Cold"

SNEEZING and running at the nose, stuffed up feelings in the head, sore throat, tickling in the throat and coughing.

This is the natural development of what is in the beginning "only a cold." It is the way in which scores and thousands are allowing colds to develop into bronchitis, pneumonia, or consumption.

If colds were promptly cured there would be no need for sanatoriums and hospitals for consumptives. Because people have weak lungs they need not become consumptives if they will but guard against colds and cure them promptly by using Dr. Chase's Syrup of Linseed and Turpentine.

This great medicine has proven its right to a place in every home by curing croup, bronchitis, whooping cough, asthma and all sorts of coughs and colds. 25c. a bottle, at all dealers or Edmanston, Bates & Co., Limited, Toronto.

per week, which entitles them to 18 weeks sick benefit amounting to \$36; in case of death to a mortality benefit of \$60, and in the case of the death of a member's wife or widow to \$30. We hope this suggestion will commend itself to any one who are not members, and that they will cast in their lot with a Society which affords such excellent advantages. We desire to record our hearty appreciation and satisfaction for the services rendered by Mr. S. Bursell during the year for the great energy which he has put into the Club life.

We are pleased to report as a result of the election with reference to finances which was adopted last year, that the position of our beneficiary department has been very greatly strengthened since our last Annual Meeting, and that notwithstanding an abnormally heavy year of sickness, several hundred dollars have been added to our funds.

The efforts of the Committee, too, have been attended with very beneficial results, over \$400.00 having been realized during the year. The object of these efforts was to relieve the Building Committee of the annual liability incurred by reason of the Life Insurance scheme which was adopted in 1909 to form the basis of a sinking fund to pay off the indebtedness existing on the Hall. The Committee are under a very deep debt of gratitude to those members and their families who so willingly entered into the spirit of the undertaking; but a special word of thanks and appreciation is due to the several kind friends—outside our ranks—who, during the preparation period of the small sale which was held in September, sent very generous contributions to the President.

The Officers and Committee, therefore desire to place upon record its very sincere and hearty appreciation of the services of all who in any way assisted us during the year. The Committee expresses the hope that succeeding executives will make the payment of the liability referred to in the foregoing paragraph their special business, as the revenue derived from the building is barely equal to the strain upon it. Indeed we should like to believe that the Seventy-fifth Anniversary of the Society, occurring this year, may awaken interest on the part of our members with a view to some determined effort to give the Society a push along and thus make their appreciation of the good work which has been accomplished during its long and useful career in this community.

No Annual Report of this Society is complete without its list of "honorary dead," and since our last Report the Reaper has gathered from our ranks live brethren beloved who were once active and energetic members, viz., Edwin Clark, Richard Ford, William Cook, William Hingston and Elias Reid. A saddest always attaches to the death of those with whom we are closely associated, but it is more especially so in the case of the last named member by reason of the sad circumstances surrounding his death. Two members' wives and four deceased members' widows have also died, and to the bereaved families of all we tender our most sincere and heartfelt sympathy in the losses which they have severely sustained.

Our Annual Parade and attendance at Divine Service on New Year's Day was most successful, bright weather and a good attendance assisting materially in making it so. Leaving the Hall at a quarter to ten a.m., headed by the C. L. B. Band, we paid our annual visit to Government House where the Society was graciously welcomed and entertained by His Excellency Sir Ralph C. Williams, Lady Williams and suite. The Society gave expression to its feelings of Loyalty and devotion to the Throne and person of His Majesty the King, and tendered to His Excellency hearty good wishes for a Bright and Happy New Year. In response His Excellency gave a very pleasing and interesting address, congratulating the members on their successful parade and wishing them every happiness and prosperity. Cheers were then called for their Majesties the King and Queen, the Prince of Wales and Royal Family and also for His Excellency and Lady Williams. The Society then reformed, and on leaving Government House were met

at Ordnance Street by the members of the L. O. A. who opened ranks and allowed us to pass through. New Year Greetings and cordial good wishes were exchanged, adding a good deal to the pleasure of the parade. Returning from our march through the city, a halt was made opposite the hall of the St. John's T. A. & B. Society whose members crowded the windows of their hall and cheered our Society, who in turn cordially and lustily reciprocated, adding another pleasure to our day. Greetings were exchanged at an earlier hour officially between the several Societies, including our Sister Society at Harbor Grace. These Greetings are on record and mark the good feeling and unity which exist between us.

The service at Cochrane Street Methodist Church was both hearty and inspiring. The Pastor, Rev. W. H. Webber (who was also the preacher) from the words: "I have called you friends," preached a sermon which was full of good advice and instruction. We wish to acknowledge our hearty appreciation of the service, and to thank the Pastor, Choir, Organist and church officials for the kindness which was shown us on the occasion. After the return to the Hall the usual votes of thanks were passed, the National Anthem was sung and the members dispersed, fully satisfied that the parade was a success in every particular.

We beg to thank the members for their kind interest in the affairs of the Society during the year. We have been very greatly cheered and encouraged by it. Our work for the advancement and welfare of the Society has been of a pleasant character, and the year has been marked by a spirit of harmony and good will.

In conclusion, we earnestly pray that Almighty God may continue to bless and prosper this venerable Institution, and to watch over and protect the members of it, whether in this city or scattered abroad; that they may be enabled to live earnest Christian lives and to promote Peace and Harmony both in this Society, in this City, and with all men.

Hoping that our successors in office may reap a full measure of success. We are, yours fraternally,
W. H. GOODLAND, President.
J. M. CARBERRY, Secretary.

McMurdo's Store News.

THURSDAY, Feb. 1, '12.
We have just placed in our show case a carefully selected lot of Hudson's Perfumes. Hudson's, as is now well known, have of late years rapidly come to the front among American Perfumes, partly because of their extensive and original advertising, but chiefly because they have always "delivered the goods"—prepared and marketed wares of fine quality. This line of Perfumes, put up in neat boxes and daintily bottled and labeled, include such fine perfumes as Gardenia, Sweet Orchid, Cardinal Lily, White Heliotrope, Wood Violet, etc., all of which are of "Hudson's" quality. These perfumes sell at the moderate price of 75c. a bottle, and are of remarkable value for that. We think connoisseurs, as well as the general public, will take on to these perfumes.

T.A. Theatre.

The Total Abstinence Hall was filled last night when Mr. T. M. White and his talented local company produced the "Lights of London." The audience was well pleased with the performance and applauded the clever hits that were made by the performers throughout the play. Mr. T. M. White, as Seth Preece, the North County Poacher, gave a splendid presentation of the character. Mr. Leo C. Murphy, who is always good, excelled himself last night in the role of Harold Armistage. Miss L. Carroll and Mr. T. J. Rolls created great fun in the presentation of the comedy of the piece. The other characters were ably sustained by Messrs. G. White, J. J. Prowse, J. B. Butler, C. Phlipard, Miss P. Carroll and Miss K. Murphy.

NO CASCARET USER EVER HAS HEADACHE.

A 10 cent box will keep your liver, stomach and bowels clean, pure and fresh for months.

Sick headache, biliousness, dizziness, coated tongue, foul taste and foul breath—always trace them to torpid liver, delayed fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Salts, cathartic pills, oil and purgative waters force a passage way for a day or two—but they don't take the poisons out and have no effect upon the liver or stomach.

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the decomposed waste matter and poisons in the intestines and bowels.

A Cascaret to-night will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means inside cleanliness and a clear head for months. Ask any of the millions of Cascaret users if they ever have headache.
