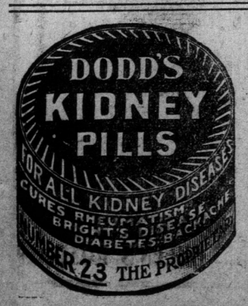
MARSHALL BROS.

ANOTHER OPERATION. — Doctor Keegan underwent another operation on Thursday and is since greatly improved. It is now only a question of time when he will be all right again.



Old Memories Renewed

Mr. Thos. Pamphret, second officer of the s.s. Southfield, is a native of Younghal, Ireland, and yesterday after making the acquaintance of a gentleman of St. John's, he was shown all the public buildings and churches. He remarked that he was a former pupil of the Christian Brothers Schools of Younghal and studied under a Bro. Kennedy, whom he had not seen for over 20 years. He was taken to the Monastery of Mount St. Francis where he met Rev. Bro. Kennedy, who recognized him as a former scholar whom he liked well, and warmest greetings were extended by each to the other. Mr. Pamphret is married and resides in Younghal, and before leaving had seen Bro. Kennedy's relatives, including his aged mother, who is yet alive and enjoying good health.

Liners Delayed.

Letters received by the Bruce mail by business people in the city state that everything is in chaos in the Old Country Steamers are held up on all sides owing to the coal strike, and the writers say that after the Almeriana sails for here, goodness knows when another ship will leave. The Carthaginian, which was to have sailed on the 19th inst., has not yet left Liverpool for this port.

COUN. MULLALY RETURNS. — Councillor Mullaly and his wife returned here by the Bruce yesterday. Councillor Mullaly went to Omaha, Neb., where he visited his brother, Mr. Wm. Mullaly, and on returning yesterday was welcomed back by a large number of friends. Mr. Mullaly met many Newfoundlanders in Omaha. Mrs. Mullaly, whose health is not of the best, is much improved.

Beothic Has 37,000 Seals.

Shortly after we went to press yesterday Messrs. Job Bros. had the following message from Capt. W. Winsor, of the Beothic:—

"Struck small patch on 27th March; killed and panned on 27th and 28th; 15,000 still on pans; on board total count 22,000. No other ships in sight; average weight last patch 60 lbs."

A message to the Postal Telegraphs read:—

"Steamer off Red Island in seals. One supposed to be Labrador off Port au Port, supposed to be loaded or near. Seals plentiful all around Peninsula."

From the Gulf.

"Steamers off Red Island, 10 miles, in seals. One supposed to be Labrador off Port au Port. From shoremen's report must have load secured. Carcesses and seals reported plentiful in that direction, and also in mouth of Bay St. George, where other steamers are likely in them."

The Chinese Famine Fund.

At Cochrane Street Church to-morrow evening the offering will be in aid of the Chinese Famine Fund. Particulars to hand by mail give awful accounts of these famine stricken people. The amount received will be sent to the Missionary Secretary at Toronto to be forwarded by him to the Relief Committee, which consists of a number of prominent people, including the missionaries at Shanghai.

Curliana.

The Montreal Standard just to hand contains illustrated cuts of the President, C. R. Duder. A. H. Salter, Secretary, the last year's dinner, and the Curling Rink. The pictures are excellent and the write up of our curling in Newfoundland by the Editor is most interesting. The Secretary informs us that 200 copies of the Standard have been sent to Newfoundland, one copy going to each member of the Curling Association. Newfoundlanders abroad can certainly feel proud of their country when they look into the short, but splendid description given in the Standard. The pictures were taken by Mr. Chas. Parsons and are excellent.

McMurdo's Store News.

SATURDAY, March 30, '12.

As a general cooling medicine McMurdo's Citrate of Magnesia is simply invaluable. Many people suffer from slight rashes and blotches in spring, which are very annoying. These unpleasantnesses are promptly relieved and eventually cured by the use of this elegant medicine for a few days. Price 25c. a bottle.

Cream of Lilies is still getting in its good work as an unrivalled soothing application for the skin. During the coming month of April, the face and hands will still need some attention to keep them right, and you need only bear in mind that Cream of Lilies and Cream of Lilies Soap will enable you to do that. Price 25c. a pot.

Personal.

Mr. William Ashbourne, J.P., of Twilingate, has been elected a Fellow of the Royal Colonial Institute.

Mr. James Cuddihy, operator with the Reid Nfld. Co. at Whitbourne, returned to the city yesterday to visit his father, Mr. Thomas Cuddihy, who Twillingate, has been elected a Feldied this morning.

Of all he had to bear before,
They've added now Two Millions more.

Splendid Poultry

Without doubt the finest bird ever seen in this country was landed from the last Bruce, of which Mr. Percie Johnson is the proud possessor. This magnificent specimen of the poultry world is a Black Orpington Cock that has won first prize wherever exhibited, and has passed under the hands of many expert judges. The shipment also contained four pullets, equally perfect specimens of this well known breed. This valuable pen was presented to our friend Mr. Johnson while at the Winter Fair of the Maritime Provines, held at Amherst, in the first week of December of every year, and was given him by some of the Committee and prominent exhibitors. Mr. Johnson expects that some of the principals of the Fair management, all "jolly good fellows," will come here as an excursion party this autumn, if we repeat the Exhibition of 1910.

A Woman's Sympathy

Are you discouraged? Is your doctor's bill a heavy financial load? Is your pain a heavy physical burden? I know what these mean to delicate women—I have been discouraged, too; but learned how to cure myself. I want to relieve your burdens. Why not end the pain and stop the doctor's bill? I can do this for you and will if you will assist me.

All you need do is to write for a free box of the remedy which has been placed in my hands to be given away. Perhaps this one box will cure you—it has done so for others. If so, I shall be happy and you will be cured for 25 (the cost of a postage stamp). Your letters held confidentially. Write to-day for my free treatment. MRS. F. E CURRAH, Windsor, Ont.

Here and There.

A Sale of Work will be held in St. Mary's Parish Hall on Easter Wednesday, April 10th. Contributions thankfully received.—mar30,1i

PRICE OF FLIPPERS.—The flippers that came out of the Fogota were sold for $1 and $1.20 a dozen yesterday and were disposed off quickly.

Why persist in being imposed upon by buying poor trashy alum baking powder when you can just as well buy Magic Baking Powder, the health giving "No Alum" brand at the same price? At all Grocers.

DISCHARGED THREE THOUSAND EIGHT HUNDRED. — Up to 8 p.m. yesterday the S. S. Fogota discharged 3,800seals at Job's South Side premises. They are fine pelts and average 50½ lbs.. The ship will finish discharging on Monday and her crew will be paid off at Crosbie & Co.'s.

HEALTH REPORT.—Eight cases of scarlet fever and one of diphtheria were reported during the week, and eight houses were released from quarantine. There are now in hospital 36 cases of scarlet fever, one of smallpox and one of diphtheria. Under treatment at home, 16 of scarlet and two of diphtheria.

There's SOLID Comfort IN A CUP OF TEA.

Well, that depends.

And it all depends upon the quality of the tea If the Tea is flat and flavorless—no comfort.

But—if it has a deep golden brown color in the cup,

And—a fine, rich, satisfying flavor,

Then, you are sure of your solid comfort.

OLD HOME TEA combines a deep, golden brown color with a fine, rich, satisfying flavor, and full body in the liquor.

If you steep Old Home Tea carefully and according to directions enclosed in each packet you will surely get solid comfort and rare enjoyment.

One Cup Means Many More.

For sale at all Grocers.

The Miners' Wages' Act.

Special to Evening Telegram.

LONDON, To-day.

The Government Minimum Wage Bill became law yesterday and received the Royal Assent, simultaneously. Balloting by coal miners throughout British Isles is proceeding to settle the question whether strikers should return to work or let the mines lie idle, pending the decision by the District Boards provided for in the Bill, as to what the rate of wages shall be in various coal mine districts. While the result of the balloting will not be known officially until next Thursday, there was prevalent everywhere, a feeling of optimism that the vote would favor a resumption of work and that in the meantime thousands of miners would return to work in anticipation of such a decision. The only stumbling block in the way of a speedy termination of the strike seems to be the attitude of the surface men who still have some grievances unsatisfied. Their National Federation has issued a manifesto in all its branches to the effect that there must be no resumption of work by any section of the Federation, until the owners have conceded their demands. It is believed, however, that this dispute will be settled before the result of the general balloting is announced.

Anthracite Miners Strike.

Special to Evening Telegram.

CLEVELAND, To-day.

Formal orders for suspension of all operations in the Anthracite Mines, beginning April 1st, were issued by the United Mine Workers yesterday. President White said the suspension would be equal to a strike except that men at the pumps and others necessary for the protection of mine property would be kept at work.

An Important Petition.

An important petition forwarded to Mr. Clapp, M. H. A., for St. Barbe, by the Rev. J. S. Richards representing some 1,500 constituents from Pistolett Bay to St. John's Bay. Mr. Clapp asked that the petition be read by the Clerk of the Assembly. The petition sets forth that the law respecting the netting of herring be altered and that they be allowed the use of seines on that part of the coast, giving for their reason that the swiftness of the currents in the Straits and the shallow water makes the sea so rough that it is impossible to set out the nets without running the risk of their being destroyed.

The second prayer of the petition asked for the right to take seals after the 31st of May. There is no law preventing the taking of seals except in steamers or vessels; and the 3rd, to extend the law for killing deer from the 31st January to the 10th March. The introducer of the petition dwelt very strongly upon the request of the petitioners re shooting of caribou and pointed out that that of the District of St. Barbe was differently situated from any other parts of the Island for the reason that the main herd of caribou begins to move south about the early part of October, therefore there could be no wholesale destruction of the animals even if the people desired it, but there need be no fear of that as the fishermen merely kill for their own consumption. It isn't the fishermen who destroy the deer but the sportsmen who come here from abroad; we have seen it in the past. The hon. member then referred to some cases tried before Magistrate Duder at Port Saunders in 1907 where these men had hunted deer on several occasions in the open season and failed to find them, and from dire necessity and from want of fresh meat for themselves and their families went out during the close season and shot several deer and divided them up amongst themselves. They were tried by Magistrate Duder and although the strongest testimony was adduced at the trial and with the law giving the Magistrate discretionary power in the case of settlers shooting for their own consumption, yet they were each fined $10 and costs. Mr. Clapp here read affidavits from these fishermen in proof of their condition at the time of the trial. He said you must consider that these fishermen are cut off from any other civilized place during the long winter months. He referred to the discussion which took place in this House over the establishment of sanatoria, but now the Government were afforded an opportunity of taking a step in the way of helpng to stamp out tuberculosis by granting the people an extension of the law and allowing them to secure fresh meat for themselves and their families in an almost Arctic climate where fresh meat is a primary essential to that good vigorous blood which is the life and stability of the race.

Angling in Nfld.

Abstract of Official Returns Published in Forest and Stream, N.Y., by W. J. Carroll.

The reports from the salmon rivers last season show that the fishing has been the best on record; and further, that with due and proper protection in the near future, Newfoundland will furnish the very best angling in the world.

There were over **ninety** rivers wardened last year, and the breeding salmon were protected. The mouths of the rivers were cleared of nets, and so the larger fish got up the rivers unimpeded, with the result that the number of fish caught weighing 20 lbs. was away beyond anything ever before known.

A large number of fish taken with the rod and fly weighed from 20 to 33 lbs.

Of course these were not nearly so plentiful as those caught under 20 lbs., but were sufficient to show that in all the rivers larger fish are being caught in greater numbers each year; and it is not too much to hope that the record as it stands now, namely 33½ lbs., will be easily and often beaten during the next season or two.

The number reported under twenty pounds was much larger than usual—5,944 fish, weighing 31,591 pounds. These figures are the official ones furnished by the wardens and guides, and do not include many other fish caught and not reported. Still the figures show an enormous increase in the total catch, and all the facts go to show that this grand result may in a few years be multiplied tenfold, and still our rivers would not unduly suffer.

While some good streams show magnificent fishing, other equally good ones show comparatively poor results, for the reason that the former class were visited by a larger number of anglers.

The figures from some of the principal streams are as follows: Hawke's Bay, 473 fish; weight, 2,710 lbs. Robinson's and Barachoix Rivers, 446 fish; weight, 2,530 lbs. Salmonier River, 818 fish; weight, 3,582 lbs. Grand River, Codroy, 256 fish; weight, 1,835 lbs. S. E. River, Placentia, 354 fish; weight, 1,785 lbs. Humber River and tributaries, 335 fish; weight, 689 lbs. Harry's River, 387 fish; weight, 1,714 lbs. There are many other rivers that show smaller results, such as Gander, Gambo, Terra Nova, Indian Brook, La Poile, Flat Bay Brook, principally because they were not visited by many anglers; any half dozen of the last rivers named, and many of the other rivers not named, could have supplied the whole total fish reported if they were fished fairly and with a suffi-cient
