### Ends One-Half the Corns

Do you know that nearly half the corns in the country are now ended in one way?

Blue-jay takes out a million corns a month. It frees from corns legions of people daily. Since its invention it has ended sixty million corns.

The way is quick and easy, painless and efficient. Apply Blue-jay at night. From that time on you will forget the corn.

Then Blue-jay gently undermines the corn. In 48 hours the loosened corn comes out. There is no pain, no sorgness.

Don't pare your corns. There is danger in it, and it brings only brief relief. Don't use old-time treatments.

They have never been efficient.

Do what millions do—use Bluejay. It is modern, scientific. And
it ends the corn completely in an
easy pleasant way.
