British Grain Trade.

London, Aug. 1.—The Mark Lane Express, in its weekly review of the British grain trade, says; Where the wheat crop is bad it is very bad. Where it is good it is barely good. The average yield is not expected to exceed 27 bushels to the acre, which will make a total of 7,087,600 quarters, against 8,00,000 quarters in 1892. The growth of root crops, including potatoes, has been highly favorable lately. The cool, showery weather has been advantageous only to osts and barley in backward districts, There will protably be a very fair second hay crop and an improvement in the pastures. There is a reduced demand in the market for all sorts of feeding suffs. The sales of English wheat included new samples. The first sales were made at 30s per qr, but later there were transactions at prices ranging from 28s to 32s. The opining means all means were dull: Indian and American declined 24. The stocks of foreign wheat and flour emount to 2,785,000 quarters. At to-day's market English wheat foreign wheat and flour emount to 2,785,000 quarters. At to-day's market English wheat foreign wheat and flour emount to 2,785,000 quarters. At to-day's market English wheat foreign wheat and flour emount to 2,785,000 quarters. At to-day's market English wheat was unchanged; foreign was 6d lower. Oats were irregular and cheaper. Corn was from 3d to 5d to 5d to KNANED.

ENTICING LITTLE GIRLS!

Such Is the Charge Against John

Arrested in the East End by Caretaker Burdick.

Stories Told by Girls to Their Parents-Attracted by Candy-The Police Working Up Evidence.

For several days past there have been rumors about the East End regarding a man who has been making the Queen's Park and the adjoining cometery grove the scene of his operations, and who is alleged to have made a practice of enticing young girls with candy and small sums of money.

The matter was brought to Caretaker

The matter was brought to Caretaker Burdick's notice on Friday last, when John Tuke, a street car driver, residing at 389 Lyle street, called at Mr. Burdick's cottage and warned him of what was going on.
Mr. Tuke was made aware of the affair what was related to him by his

through what was related to min by ittle girl.

Mr. Burdick had noticed the man sitting around the park one day with several little girls about him, but had never seen any questionable action. After listening to Mr. Tuke's story Mr. Burdick decided to watch him more closely. Monday afternoon the man made offers of candy to tile 12-year-old daughter of Mr. Francis, a painter and well-known local preacher, residing just at the King street entrance to the park. His the King street entrance to the park. His words, the little girl says, were accom-panied by an indecent suggestion, and this o terrified her that she ran and told her arents. When Mr. Francis returned ome he informed Mr. Burdick of the ochome he informed Mr. Burdick of the oc-currence. During the evening the latter found the man described by both little girls sitting under a tree in the park. He immediately placed him under arrest and took him over to No. 2 firestation. While on the way there the man, in a rambling kind of a way, told Mr. Burdick that he had not intended injuring any of the girls and that any action on his part was probably carelessness in dress, and had been misconstrued. The man gave his name as John Gibbs and looks anywhere from 40 to 50 years old. He is stout, and his ruddy com-plexion and fair hair make him look younger than he really is. He has the appearance of having drank heavily and his nerves are in a very shaky condition.

TAPPED THE WIRES.

A Queer Game Checked Near Windsor-

Windson, Aug. 1.—Yesterday afternoon is against industrial tyrranies in a European Pike Creek and informed the police that two men had tapped the telegraph wires about two miles west of Pike Creek and run wires into an old building, where they had a telegraph instrument. It was thought it was their intention to work the pool-room in intention to work the pool-room in this city, and Detective Campau and Officers Mahoney, Gates and Lister were dispatched to the place. The officers returned late last night and report having seized 40 batteries and eight sets of instruments. The men were also well provisioned for a long stay in the woods.

THE ALERTS SIGN SHEPPARD.

The Alerts have strengthened their only weak spot by signing "Doe." Sheppard, the erstwhile crack pitcher of the Toronto League team, and latterly of Chatham. Sheppard is a first-class man, and, with a good team like the Alerts behind him, will prove a tower of strength in the box. His experience will be of great value to the team.

EMANCIPATION DAY!

The First of August Enthusiastically Celebrated by Colored Cit.zens.

Celebrated by Golored Citzens.
Chatham, Ang. 1.—Emancipation Day
was celebrated with great enthusiasm. A
large number of visitors came from Detroit
and other points. The reception committee
met visitors at the station, where a procession headed by the Detroit City Band
and Eureka Commandery, No. 1, Uniformed
Knights Templar, of Detroit, was formed
and proceeded through the principal streets
to Tecumseh Park. In the afternoon
Mayor Martin welcomed the visitors, and
speeches suitable to the occasion were delivered by Col. Webster, U. S. consul; Mr.
Goo. R. Neville, Detroit; the Rev. Mr.
King, of Chatham, and others. Sports in
the park followed, and in the evening a
grand concert and ball was held in the drill
halt.

HAMILTON, Aug. 1.- Mount Brydges

Hamilton, Aug. 1.—Mount Brydges lodge of Oddfellows (colored) celebrated Emancipation Day at Dundurn Park this afternoon, where a good programme of sports was given, followed by a big dance in the palace rink at night.

WINDSOR, Aug. 1.—A demonstration was held by the colored people at Walker's grove to-day in honor of Emancipation Day. A large procession, headed by the Twenty-first Fusilier Band, marched there at noon, and a number of speeches were delivered by prominent men. A concert was given at the Opera House to-night.

THEY WORK TOGETHER.

An apparatus has been constructed for An apparatus has been constructed for telephoning simultaneously over telegraph wires. The system has been in operation for some time on the telephone line from Buda-Pesth to Szegedin, a distance of 121 miles. The results were satisfactory. The apparatus can easily be inserted in a telegraph circuit and used at once. It is said that simultaneous telegraphy along the wire does not in the least interfere with telephoning, and that the effects of induction and all disturbing noises are completely removed.

removed.

This discovery will give strength to the demand of those who believe that the telegraph and telephone systems should be owned and operated by governments in conjunction with the postoffice. Their proposition is that everything should be one at the least possible expense, and that

done at the least possible expense, and that millions may be saved by using the same poles for telegraph and telephone wires, and the same deliveries in towns and cities for letters by mail and messages by telegraph and telephone.

Postoffices are operated by governments overywhers. England operates the telegraph system and France her telephone system successfully. Can any reasonable objection be made to the proposition that the three systems should be operated jointly by the governments of all countries?

DR. CLIFFORD ON SOCIALISM.

Dr. Clifford wisely said in a recent sermon: "Fifty-nine years age the great prophet, Thomas Carlisle, came into London preaching upon the condition of the people. Soon afterwards Charles Dickens began to pour the vials of his scorn upon the super-ficial folk who toiled noiselessly and with incontinent fussiness to send missionaries to is nerves are in a very shaky condition.

From the fire hall he was removed to the ends of the earth while they left their own children in wretchedness; and John Ruskin taught with more revolutionary effect that the real wealth of the world is not money but human life, and that the value of life depends upon its ethical and spiritual qualities. These teachings have gone far to create the modern social spirit; the old doctrine of lais-sec-faire is dead and buried. Forty years ago everybody believed in the individual and not in the mass; now everybody believes in the mass and nobody in the individual. Now all our talk is of men federated and organized, of socialism and collected. There is a natural aversion on the part of parents to have their children's names appear in such a position, and that the value of life depends upon its tamkes it a difficult matter to find out the full extent of the man's conduct. It is understood that the daughter of an Adeliaide street letter carrier had also been approached by the man. This makes three apparent cases against him, and, as the police are working on the matter, others may be brought to light.

We were all scientists, we are now all socialists. We have lost the individual in the commune—city, nation—humanity with its cutstanding reaction against individualism. There has come a corresponding change of feeling that leads to attempts to benefit humanity in general; but while we rejoice in this newest incarnation of the Christ, we must not forget that this very solidarity of men binds us to missions, foreign as well as near. The recurrence of the term 'international' is the sign of a new life, federating the warriors against industrial tyrranies in a European labor demonstration. Foreign missions mark the increasing sense of human unity.
