### NEWFOUNDLAND.

Improvement in the Colony's Financial Position.

St. Johns, Nfld., April 5.-The budget presented to the Colonial Legislature on Friday night reviewed the colony's financial history for the past three years. For the year ending June, 1896, the surplus was \$235,000, and was obtained by reducing the appropriations for all public services under the general retrenchment scheme. For the year ending June, 1897, the figures have not been finalized, the Receiver General being only able to state that the revenue is exceeding expectations while he is not in a position to deal with the expenditures until the close of the fiscal period. For the year ending June, 1898, it is estimated that the revenue will reach nearly the same figure. The public debt will then amount to over \$18,000,000, involving an annual interest of \$661,000. The imports during the last fiscal year amounted to \$5,986,000, and exports to \$6,622,000. The Government announces its intention to appoint a commission representing the different interests involved to revise the colonial tariff during the coming summer, so that the new schedule of duties can be put in operation next year.

Having conducted for a number of years in this city business on the Cash and Credit system, we have resolved as a result of our experience in giving credit, that the cash system or doing business is the only satisfactory way, both to ourselves and patrons, and we take this means of notifying our customers, and the public generally, that in future we intend to conduct our business on a

#### a strictly CASH BASIS,

which will enable us to sell our goods 15 Per Cent. Cheaper than we could under the old method. When we consider the close margin on which we have always done business, with an assured further reduction of 15 Per Cent. in price, we not only feel assured of the continued patronage of our ld customers, but also of a considerable extension of our trade. There is nothing in the world like the omnipotent spot cash to bring prices to the lowest level, and the lowest level in prices in future will be found with us.
