

CHECKS ON TUBERCULOSIS

Ways to Prevent a Spread of the Dread Disease.

Proof That It Is Not Incurable—Public Not Concerned So Much in Dr. Koch's Theory as How to Prevent and Cure.

New York, July 30.—The Sun has a special cable from London, bearing on the tuberculosis congress and Dr. Koch's remarkable statement that consumption cannot be communicated from cattle to human beings. The correspondent thinks too much attention is being given to Dr. Koch's theory, since the world is mostly concerned in the main problem of how to cure and prevent phthisis. The conference swept away the still lingering belief that consumption is incurable, physicians certifying to many authenticated cases of cures of well-developed tuberculosis. This alone constitutes tidings of great joy to mankind. The congress has also demonstrated the infectious nature of the disease, and experiments have proved that dust floating in the air, in houses where consumptives live, contained infectious material derived from a patient. Given the cause of consumption, the congress has furnished many ways to prevent its spread. One most important precaution suggested is the necessity of ventilation, experiments having been made to show that deaths from phthisis correspond exactly with the degree of overcrowding.

From these and similar studies it appears that consumption may be diminished by general measures without dealing with the victims themselves, and that the removal of the source of mischief is the most direct and efficacious means. The first practical step toward this is the system of notification introduced in America, and since adopted by a few towns in England. The discovery of a case in the premises of the effective use in hospitals and dispensaries of sanitary measures and even of popular instruction. When cases are disclosed they are visited, and steps are taken according to the circumstances. Persons are instructed how to minimize the infection, and the premises are disinfected when necessary. Bad cases are removed to a hospital or sanatorium. In English towns only voluntary notification has been adopted, and probably is sufficient to effect a great improvement. Notification is one of the measures recommended by the congress.

Then follows the treatment of the sanatorium. This occupied a great deal of attention, and some instructive details were given of the system in Germany by which sanatoriums are provided and maintained for working men by sick insurance societies. The discovery of a case in the premises of the effective use in hospitals and dispensaries of sanitary measures and even of popular instruction. When cases are disclosed they are visited, and steps are taken according to the circumstances. Persons are instructed how to minimize the infection, and the premises are disinfected when necessary. Bad cases are removed to a hospital or sanatorium. In English towns only voluntary notification has been adopted, and probably is sufficient to effect a great improvement. Notification is one of the measures recommended by the congress.

Finally, and this was the most important feature of the congress, every speaker denounced in uncompromising language the dangerous and disgusting habit of spitting in public places. There is good reason to believe that it is only owing to the cleanliness of the English as a nation in this respect that the mortality from phthisis is lower in this country than in any other.

RESULTS OF THE CONGRESS.
The New York Journal, in a London dispatch, says: The final results of the great tuberculosis congress can be summed up as follows:
1. Tuberculosis sputum is the main agent in the conveyance of the virus of tuberculosis from man to man. Indiscriminate spitting should therefore be suppressed.
2. It is the opinion of the congress in London that all public hospitals and dispensaries should present every outdoor patient suffering from phthisis with a leaflet containing instructions in regard to the prevention of consumption, and should supply and insist upon the proper use of a pocket spittoon.
3. The extension of the system of notification of phthisis cases should be encouraged in all districts where efficient sanitary supervision can be exercised.
4. The provision of sanatoria is an

Why Beauty Fades and Sufferings Come

Real beauty is rare. It belongs to perfect health. Just as soon as the blood gets thin and watery and the nerves become exhausted beauty fades, wrinkles show themselves, the beautiful curves give way to leanness and angles. Nervousness quickly destroys beauty of face and form. The female organism becomes deranged and there are sufferings almost unbearable at the monthly periods. Too often women come to believe these mysterious pains and aches a part of their existence. They fail to realize that by keeping the blood and nerves in perfect health they can preserve youth and beauty and avoid an endless amount of suffering.

Dr. Chase's Nerve Food, the great blood builder and nerve restorative, is women's great blessing from youth to old age. It helps her over the trying periods of her life and prepares the system in every way to perform naturally the duties of womanhood. It enriches the blood supply, keeps the nerves calm and steady, and assists in the development of glowing, healthful beauty. A few weeks' treatment with this great food cure will do wonders for every woman who is pale, thin, weak and nervous.

Dr. Chase's Nerve Food.

50 cents a box; at all dealers or Edmondson, Bates & Co., Toronto. Agents wanted for Dr. Chase's Last and Complete Receipt Book.

DYSPEPSIA

My DYSPEPSIA CURE positively cures all forms of indigestion or stomach trouble. It rejuvenates worn-out stomachs. It builds up stomachs that have been weakened by powerful cathartics and old-fashioned nostrums.
Munyon's Dyspepsia Cure corrects bloating of the stomach, palpitation of the heart, shortness of breath, and all affections of the stomach, belching wind, sour food, bad taste, offensive breath, loss of appetite, flatulency or weakness of the stomach, improper circulation, coated tongue, heartburn or water-brash. His Headache Cure stops headache in 3 minutes. Munyon's Eile Ointment cures all forms of piles. Munyon's Blood Cure corrects all blood impurities. Munyon's Liver Cure corrects headache, biliousness, jaundice, constipation and all liver diseases. Munyon's Female Remedies are a boon to women. Munyon's Asthma Cure and Herbs are guaranteed to relieve asthma in three minutes and cure in five days. Munyon's Catarrh Remedies never fail. Munyon's Vitalizer restores lost powers to weak men. Price, \$1.
Munyon has a cure for every disease. The Guide to Health (free) tells of them. Cures, mostly 25 cts. Munyon, New York and Philadelphia.
MUNYON'S INHALER CURES CATARRH.

Indispensable part of the measures necessary for the diminution of tuberculosis.

5. In the opinion of this congress medical health officers should use the powers at their disposal and relax no effort to prevent the spread of tuberculosis by milk and meat.

6. In view of the doubts thrown on the identity of human and bovine tuberculosis it is expedient that the government be requested to institute immediate inquiry into this question, which is of vital importance to public health and of great consequence to agricultural interest.

7. The overcrowding of the working classes helps to propagate consumption and retard its cure.

8. It is extremely desirable that an adequate and thorough investigation be made to thoroughly determine the minimum, per capita, air space necessary to healthful life in living rooms, halls, schools and workshops for various classes of human beings, thus laying the groundwork for legislation which, in so far as ventilation and sunlight can, shall help to prevent tuberculosis.

THREE DAYS A WEEK

Lost to Joseph Hamel for Years Through Sickness—Dodd's Kidney Pills Have Made a New Man of Him.

Nicolet, Que., July 29.—(Special).—Joseph Hamel explains the reason of his wonderfully improved health as follows:

"I suffered with kidney disease for three or four years. For two years I had to take two or three days a week of complete rest. I was continually sick and forced to walk like an old man. I had lost all my energy and became discouraged."

"After taking a lot of medicines that would only give me relief for a while, I had the pleasure to happen on Dodd's Kidney Pills, having read of a case that resembled mine cured by them."

"I bought a box which made me so much better I persevered. After taking three boxes I was fully cured. That was six months ago. I can recommend Dodd's Kidney Pills to all who suffer with kidney disease."

BRIGHTEST PROSPECTS.

[Mail Order Journal, Chicago.]
Never before in the history of this nation has the country enjoyed such general prosperity. An enormous export trade unifies all classes, especially the farmer. The carrying trade of Alaska and other gold-producing parts of the country fill the coffers of our people with gold. Every business man of average intelligence and industry is making money and is happy and prosperous. No trade is suffering. Every mechanic and laborer, willing to work, can have work at good wages.

Especially blessed with good incomes and a constantly growing surplus are the people living in the small cities and on the farms, the real mail order people. They will have to spend millions of dollars in fall and winter, and mail order firms should begin to look out for their full share of business unusually early this fall, so as not to lose this trade.

THEIR PICTURES IN THE PAPER

Chicago Tribune Beautified With Old Boy Faces.

Big Western Daily Says Over Five Hundred Ex-Londoners Will Attend Reunion.

The Chicago Sunday Tribune, July 28, has a splendid reproduction of a photograph of the officers of the London Old Boys of that city, similar to the one which hangs in the city hall. The London Old Boys' Association, says the Tribune, met at the Grand Pacific Hotel last night and completed arrangements for the third annual excursion and reunion at London, Canada. The reunion will be held on Aug. 5, 6 and 7. Members of Old Boys' associations from various cities in the United States will be present.

The Chicago association was late in deciding to attend, owing to being unsuccessful in procuring satisfactory railway rates, but a party of 500 is expected to go from here. The association has chartered a special train, which will leave over the Michigan Central railroad on Aug. 4, at 6 o'clock p.m. and run to London without change. A rate for a four-day side trip to Buffalo has been arranged.

Thomas Weston, president of the Chicago association, has been a resident of Chicago for twenty years. C. D. MacPherson, first vice-president, came to Chicago sixteen years ago. Henry J. Strong, second vice-president, left London for the west over 30 years ago, and has resided in Chicago for 25 years. William A. Small, secretary-treasurer, has resided in Chicago for 22 years, and for six years has been record writer in the probate court.

THIRTY-THREE YEARS AGO TODAY.

What Was Happening in Local, Dominion and Foreign Circles.

[From The Advertiser Files of July 30, 1895.]

The civic picnic day was largely celebrated. Eleven hundred people went to Detroit, five hundred to Goderich, and a large crowd to Port Stanley. On the return trip from Detroit, two young drug clerks, who had climbed to the top of an excursion car, were struck by an overhead bridge at Thamesville and died from their injuries. One, W. H. Boudell, worked in Mitchell's store, and the other, Donald McIntosh, in Saunders'.

A cricket match between the London and Chatham clubs resulted in a victory for the former by 43 runs. London's score was 54 and 88, Chatham's 27 and 62.

In a lively game of baseball between the Woodstock Young Canadians and the London Tecumsehs the latter were defeated by a score of 8 to 16.

The American and Canadian baseball teams will hold a convention in October, either in Pittsburgh or Cleveland.

Immense forest fires are raging on the shores of the Georgian Bay and up the Ottawa River district.

A rumor that Mr. Eyre will succeed Lord Monck as governor-general of Canada is discounted.

The wife of Hon. George Brown is in a precarious state of health. While having a tooth extracted her jaw was broken.

An English vessel has landed a force on the coast of Southern Guinea, in possession of some of the Portuguese territory, hauled down the flag of the King of Portugal, and hoisted the British ensign in its stead. Lisbon is vastly excited, and Portugal, in consequence of war have been dispatched to the scene of the "outrage."

LOSS \$200,000!

The Canada Paper Company's Mill at Windsor Burned—Other Fires.

Montreal, July 29.—The Canada Paper Company's St. Francis mill at Windsor Mills was destroyed by fire tonight. The loss will probably reach \$200,000, but the company's operations will not be interfered with, as they have other mills.

Troubadour, July 29.—During the thunderstorm which raged here last day yesterday the barn of Noble L. Stevenson, immediately behind the village, was struck by lightning and burned to the ground.

Halifax, July 29.—Heavy forest fires are raging at River Herbert. Firemen from Annapolis are going to render assistance. The large lumber mills are in danger.

Bellevue, July 29.—Robert Elliott's barn near Foxboro was struck by lightning and burned yesterday morning.

Kingston, July 29.—The electric storm which has visited Kingston during the past 24 hours has caused some serious damage. The barn and stables of George McCready, Wolfe Island, were struck by lightning and completely destroyed. The pinnacle was knocked off the House of Providence, and the gas and electric light system rendered temporarily useless. Many dwellings were struck, but only slightly injured.

Fort Erie, Ont., July 29.—Another big electric storm passed over this section last night, and did considerable damage, although fortunately there was no loss of life. The barn of H. Curtis, who lives a short distance from the railway track, was struck and burned, together with three horses and the entire season's crop.

TWO SUICIDES.

Winnipeg, July 29.—N. J. Peterson, rancher, near Medicine Hat, committed suicide by shooting himself, cutting his throat with pen knife.

Montreal, July 29.—Mrs. Townner, the wife of a baker, while temporarily insane, took poison tonight and died in the Hotel Dieu Hospital.

SIR LOUIS DAVIES' APPOINTMENT.
Ottawa, July 30.—Sir Louis Davies' appointment to the supreme court bench, which will take place before many weeks are over, would, in the ordinary course of events, create a vacancy on the joint high commission. But it does not follow that there will be any vacancy in the present case.

Sir Louis is so thoroughly conversant with the matters before the commission that his disappearance from the court would be a serious loss to the Canadian section. His appointment to the bench would not interfere with his acting as a commissioner, and the government, in its wisdom, may see fit to continue him in the latter capacity in order to retain the benefit of his knowledge and his counsel.

A GREAT LOTTERY!

The United States Government Disposes of 13,000 Homesteads—Some 167,000 Persons Interested in the Drawing.

El Reno, O. T., July 29.—One of the greatest lotteries in history was begun here this morning. It was conducted by the Federal Government in disposing of 13,000 quarter-section claims thrown open to settlement on the Klowa-Comanch reservations. No public event in years in the southwest has attracted so much attention as this one—the initiation of a new method of disposing of government lands. One hundred and sixty-seven thousand persons, each with one chance in thirteen of winning a homestead, watched the event here or at a distance, for the applicants came from every state in the union.

The drawing took place on a platform built for the purpose in the open air a few blocks from the center of El Reno. Situated at the foot of several small hills, which formed a perfect amphitheater, the platform was the cynosure of thousands of eyes. People occupied almost every inch of the space around about, and every movement of the government officials on the small stage below was watched with the most intense interest. El Reno yesterday cared for fully 15,000 people, and the trains that came in during the night and morning, doubled the number. Hundreds of others were still bound this way.

For Quick Perusal.

Mr. Alfred Kitchen, Brant county, jailer, is dead.

Hon. W. S. Fielding sails for Canada on Aug. 1.

The extension of the Hamilton Radial Railway to Oakville will be commenced at once.

It is reported at Kingston that the C. P. R. is about to assume control of the K. and P. Railway.

N. J. Peterson, rancher, near Medicine Hat, committed suicide by cutting his throat with a penknife.

Rev. H. T. F. Duckworth, M. A., Oxford, has been appointed divinity professor at Trinity University.

A herd of Nova Scotia cattle will be shown at the Industrial Exhibition at Toronto this year for the first time.

Mr. A. E. Day, M. A., a Queen's graduate, has been appointed science master in the Walkerton high school.

The Hamilton police magistrate decided in a dog poisoning case that a man had a right to place poison on his own property.

Lord Mountstephen has given £40,000 to augment the stipends of the Church of Scotland ministers in Aberdeenshire and Banffshire.

Winnipeg's eleventh industrial summer fair was opened by Lieut.-Gov. McMillan Monday afternoon in the presence of a large crowd.

Captain Walter Johnston, of New York announces that he proposes to navigate the Niagara rapids and whirlpool in a boat of fire.

Earl Jenkins, of Seattle, and Florence Nevens and Miss Amelia Cole of Puyallup, were drowned by the capsizing of a rowboat on Spawley Lake.

Mr. John Bonville, of Williams-town, Que., while digging a well, came across the remains of a prehistoric animal imbedded in thirty feet of clay. The animal is shaped like an elephant.

Customs officers will make a meat investigation at Thousand Island Park, N. Y. It is suspected that meat is smuggled from Canada and sold at lower prices than United States meat.

DROWNED.

Smith's Falls, Ont., July 29.—Robert Leaver, an employee of Frost & Wood, was drowned in the river at Stonehouse point yesterday forenoon by the capsizing of the boat Monitor, in which he and a boy were crossing the river.

RADCLIFFE'S LATEST TASK.

Ottawa, July 30.—Radcliffe, of Toronto, is to execute O'Brien, the Dawson murderer. As soon as information reaches Ottawa that Lord Minto has signed the order in council for the hanging of O'Brien, Radcliffe will be instructed to set out for the capital of the gold territory.

Radcliffe will need to make fast time in order to reach Dawson in time.

MIDWAY SHOWS SQUELCHED.
Buffalo, N. Y., July 30.—The attempt of the Midway shows to open for business on Sunday was a failure. The first show to offend was the Indian congress, but Capt. Damar, of the exposition police, promptly suppressed it. Iron pipes were driven into the asphalt pavement by the police, and from the pipes a rope was stretched in the form of a square, which blocked the entrance to the congress. Several other shows opened their doors for a few minutes.

SHE WAS A CANADIAN.
New York, July 29.—Elizabeth McCormick, 25 years of age, is dead at the German hospital in this city. She is known to be a member of a Canadian family. Her sister is believed to be in a convent in Boston and she left letters addressed to a man in St. Dunston's College, Charlottetown, P. E. I.

At the hospital she said that she had taken a drug and traces of arsenical poisoning were found on the body. Miss McCormick came to this city about three months ago, but recently was out of employment and in low spirits. She was taken to the hospital from a boarding house, where she had a room.

Nearly 10 per cent of the recipients of the Victoria Cross are military doctors.

About five miles of fishing nets were seized by Dominion officers in Lake Huron on Thursday.

A Michigan man is trying to form a joint stock company to start a shoe factory in St. Thomas.

The school inspector of East Huron says there has been a decrease in school attendance in the inspectorate of 20 per cent in ten years.

Boring on the Dunwich oil belt is shortly to be renewed. The present wells have yielded an average of 13 cars for the last month.

James McCartney, the well-known horse buyer, of Thamesford, says this has been the best year he ever experienced in the horse business. So far this season he has bought six hundred horses.

The third annual picnic and reunion of the Pioneer Association was held in Lakeview Park, Port Elgin, on Friday, and was attended by crowds of people from all parts of the country. The Bruce Old Boys' Association of Toronto also ran an excursion, and brought in a large number of visitors. After partaking of refreshments, addresses of welcome were read to the Toronto Old Boys by the reeve of Port Elgin and the Pioneer Association. Speeches were made by William Houston, M.A.; Hon. D. H. McEwen, provincial secretary of Manitoba; W. S. Johnston, M. A.; C. M. Bowman, M. P. P.; Col. J. B. Rankin, of Chatham; J. P. Johnson, John McPhee, D. M. Jernyn, of Wainor, and others. A series of games was gone through, and a baseball match was played between the Toronto Old Boys and the Bruce Pioneers, resulting in favor of the latter. Music was supplied by the North Bruce Band. A day of pleasant reunion and fellowship was enjoyed by all present.

Hood's Sarsaparilla builds up a broken-down system. It begins its work right, that is, on the blood.

While the United States is spending \$174,965,825 a year for literature of all kinds it is drinking \$1,249,191,553 worth of alcoholic liquors.

GOOD DIGESTION SHOULD WAIT ON APPETITE.—To have the stomach well is to have the nervous system well. Very delicate are the digestive organs. In some so sensitive are they that atmospheric changes affect them. When they become deranged no better regulator is procurable than Parmelee's Vegetable Pills. They will assist the digestion so that the hearty eater will suffer no inconvenience and will derive all the benefits of his food.

The Arabic vernacular furnishes a singular illustration of the popularity of war in the East. It has over fifty names for the sword.

Milburn's Heart and Nerve Pills cure Anæmia, Nervousness, Sleeplessness, Weakness, Palpitation, Throbbing, Faint Spells, Dizziness, or any condition arising from Impoverished Blood, Disordered Nerves or Weak Heart.

Most civilized nations begin the day at midnight; astronomers and navigators since the time of Ptolemy begin it at noon.

A RECOGNIZED REGULATOR.—To bring the digestive organs into symmetrical working is the aim of physicians when they find a patient suffering from stomachic irregularities, and for this purpose they can prescribe nothing better than Parmelee's Vegetable Pills, which will be found a pleasant medicine of surprising virtue in bringing the rectory organs in subjection and restoring them to normal action, in which condition only can they perform their duties properly.

Bananas with purple leaves and seedless fruit have been introduced into British conservatories.
