physicians' prescriptions, and should be avoided by every one who values health and happiness. Knowing that the great majority of druggists are reliable, we supply the immense demand for our excellent remedy entirely through the druggists, of whom it may be purchased everywhere, in original packages only, at the regular price of fifty cents per bottle, but as exceptions exist it is necessary to inform the public of the facts, in order that all may decline or return any imitation which may be sold to them. If it does not bear the full name of the Company— California Fig Syrup Co.—printed on the front of every package, do not hesitate to return the article and to demand the return of your money, and in future go to one of the better class of druggists who will sell you what you wish and the best of everything in his line at reasonable prices.

HIGH CLASS DRUGGISTS

The better class of druggists, everywhere, are men of scientific attainments and high integrity, who devote their lives to the welfare of their fellow men in supplying the best of remedies and

purest medicinal agents of known value, in accordance with physicians' prescriptions and scientific formula. Druggists of the better class manufacture many excellent remedies, but

always under original or officinal names and they never sell false brands, or imitation medicines.

They are the men to deal with when in need of anything in their line, which usually includes

all standard remedies and corresponding adjuncts of a first-class pharmacy and the finest and

best of toilet articles and preparations and many useful accessories and remedial appliances.

The earning of a fair living, with the satisfaction which arises from a knowledge of the benefits

conferred upon their patrons and assistance to the medical profession, is usually their greatest

reward for long years of study and many hours of daily toil. They all know that Syrup of Figs is an excellent laxative remedy and that it gives universal satisfaction, and therefore they

are selling many millions of bottles annually to the well informed purchasers of the choicest

remedies, and they always take pleasure in handing out the genuine article bearing the full

name of the Company-California Fig Syrup Co.-printed on the front of every package. They know that in cases of colds and headaches attended by biliousness and constipation and

of weakness or torpidity of the liver and bowels, arising from irregular habits, indigestion, or

over-eating, that there is no other remedy so pleasant, prompt and beneficial in its effects as

Owing to the excellence of Syrup of Figs, the universal satisfaction which it gives and the immense demand for it, imitations have been made, tried and condemned, but there are

individual druggists to be found, here and there, who do not maintain the dignity and principles

of the profession and whose greed gets the better of their judgment, and who do not hesitate

to recommend and try to sell the imitations in order to make a larger profit. Such preparations sometimes have the name—" Syrup of Figs"—or "Fig Syrup" and of some piratical concern,

or fictitious fig syrup company, printed on the package, but they never have the full name of

the Company—California Fig Syrup Co.—printed on the front of the package. The imitations

should be rejected because they are injurious to the system. In order to sell the imitations they find it necessary to resort to misrepresentation or deception, and whenever a dealer passes

"'Say, Lodovico,' said the abbate, 'wouldn't it be a fine thing to have a bridge over that beautiful valley, leading
