Mike Foley, Manager

the deaf, will be in London during the fair. Mr. Way himself was deaf for twenty-five years, having contracted a cold after an attack of typhold fever

when a boy in Devonshire, England, the place of his birth. His deafness grew worse, and when he came to young man-hood, he had to carry an ear trumpet as large as a small teapot in order to hear public speaking. But now, by the use of his artificial ear-drums, which he wears in his ears, and which cannot be seen, he can hear a whisper, and one talking to him would never know that he had been deaf. Mr. Way resides in Detroit, Mich., having gone there from Lambton County, Ontario, twenty years ago. He is well known in Detroit, having been employed at the Young Men's Christian Association for thirteen years as engineer and electrician. It was while in the employ of the Y. M. C. A. that he invented his eardrums, which brought back his hearing. Mr. Way wants all deaf people to call on him while he is in London, and see the new improved eardrum, patented July 15, 1908. You are under no obligations when you go to see him, and he will be frank with you and tell you whether artificial ear-drums will help you or not. Mr. Way has had

a large experience in dealing with the deaf, and invites you to write to him if you cannot see him in London, his home office address being 18 Adelaide Street, Detroit, Mich. Mr. Way will be in London at the Tecumseh House from Monday, Sept. 14 to Sept. 19. All who are deaf should be sure to call on him.
