Get Your Model From This Shipment New Stock "Nemo" Corsets

"Nemo" Corsets have scored a decided success in this city. A few weeks ago we announced the first showing in London of this popular American Ccrset, with the result that in a few days we found the sale of same had far surpassed our expectations, and popular sizes were soon depleted. Many women are waiting for these corsets, knowing the importance of securing the model desired for your figure before having your new dresses fitted. "Nemo" Corsets are made with broad bands of semi-elastic webbing across hips, giving the figure a regular in-slope and prevents the corset from showing through a thin skirt (as shown in illustration). "Newo" Corsets support the abdomen, give the long straight lines and the graceful in-slope at the bottom, yet afford perfect ease and comfort when you are seated. The mere announcement that the "Nemo" Corsets have arrived is sufficient, and you can safely order by the following numbers in your regular size, as described, they are such perfect fitters, or have your corsets perfectly adjusted when making your purchase at department.

In ordering by phone or mail, use these numbers-No. 319 for short, stout figures; No. 321 for tall, stout figures. Price,

Second Floor.

If two pairs are ordered, we will pay express or postage within 200 miles
