Sent Free to Prove This

Anyone ruptured, man, woman or child, should write at once to W. S. Rice, 407A Main St., Adams, N. Y., for a free trial of his wonderful stimulating application. Just put it on the rupture and the muscles begin to tighten; they begin to bind together, so that the opening closes naturally, and the need of a support or truss is then done away with. Don't neglect to send for this free trial. Even the need of a support or truss is then done away with. Don't neglect to send for this free trial. Even if your rupture doesn't bother you what is the use of wearing supports all your life? Why suffer this nuisance? Why run the risk of gangrene and such dangers from a small and nnocent little rupture, the kind that has thrown thousands on the operating table? A host of men and women are daily running such risk just because their ruptures do not hurt nor prevent them from getting around. Write at once for this free trial, as it is certainly a wonderful thing, and has aided in the cure of ruptures that were as big as a man's two fists. Try and write at once, using the coupon below.

Chairman Cunliffe of the local housing commission has had no word from the commission architect or contractors, in regard to the order that they shall proceed to relay the roofing on the Pine Lawn houses of the commission.

The chairman thought that the work would have been started immediately, but if it is not, Mr. Cunliffe claims that the commission will undertake the work itself, having, it is believed, enough money held back from the architect and the contractor on hand, to foot the bill.

The Western Fair board billed the commission with \$82, half the cost of replacing broken windows in the fair buildings. The contention was that as buildings. the park had been used part time as a playground, the children must have broken about half of them. Mr. Buchanan said that this was unfair. The windows in question were on the Campbell street side and away from the playgrounds part. He also called attention to the fact that the com-mission had wired the new entrance to the grounds free of charge and that the cost to the commission was \$100. The letter was filed.

ing this water is \$4,250.

The commission has another customer in view for river water. The Silverwoods Company is putting in a new milk plant and will use river water for cooling. Manager Buchanan suggested that the charge be 7 cents per thousand gallons, the same as the City Gas Company pays. The matter was left in his hands.

General Manager Buchanan stated that four of the wells to be sunk in making a water survey of the city, have been drilled and a start made on the fifth. He will not receive a report from the drillers until their task is complete. Three or four more are to be drilled. So far one of the wells is most promlising.

Residents in the township in the vicinity of Wortley road, Ridout street, Brick street and the Base Line road, have been paying various rates for lighting service. Mr. Buchanan proposed to set a charge that would apply to all. The floor space will be six cents, the same as is charged Broughdale and the other rates will be the same as in the city. This will make the rates about 50 per This will make the rates ab cent higher than in the city.
