BURNS' NIGHT PLEASANT AFFAIR

The Opera House Well Filled With
Citizens, the Guests of the
Caledonia Society.

A GOOD PROGRAMME

The annual Burns Night social, given by the Caledonian Society in the Opera House Monday evening was a most pleasant affair, and a large number was present as guests of the Society.

The Opera House was neatly decorated with Scotch plaids, draped about the walls and stage, while a large oil painting of the Scotch Bards, graced the stage directly in front of the chairman's table.

Mr. A. E. G. McKenzie, the president of the society, occupied the chair and announced the numbers of the program which was as follows:

President's Address.

Solo—Mr. R. M. Hope.

Reading—Miss M. Richards.

Bag pipes—H. M. McLennan.

Address on Burns—U. S. Consul Bodkin.

Solo—R. M. Hope.

After the programme light refreshments were served and a programme of dances was carried out, the orchestra of Chatham supplying the music.

Many of the guests left after the refreshments were served, but a large number remained and enjoyed a pleasant dance.

The committee and the society are to be congratulated on the success of their Burns' Night and this function is always looked forward to with pleasure.

CROWDED LINERS IN COLLISION NEAR NEW YORK HARBOR

Steamers Republic and Florida Crash Together on Nantasket Shoals—Six are Killed and Some Injured.

WIRELESS MESSAGES USEFUL

NEW YORK, Jan. 24.—The passenger steamer Republic, of the White Star line, which was in collision with the Italian liner Florida in a fog early Saturday morning off Nantasket, Mass., went down at last at 8.30 o'clock tonight. No one was lost. Her passengers, taken off by many boats before, are on the steamship Baltic, which was off Sandy Hook late tonight making for this port.

The Republic was in tow of the revenue cutter Greaves and the destroyer-destroyer Seneca, proceeding to New York, when she foundered. On board her was her commander, Capt. Severely, with a young crew of fifty of her crew. She had been towed by a short distance when she began to settle rapidly. Seeing no hope of saving the ship, Capt. Severely gave the order "abandon ship" and the crew was taken off by the Greaves, which coasted from the crippled liner and stood by until she sank.

The Republic was headed for the Massachusetts coast and will land Capt. Severely and his crew at Cape Cod, Mass., or Newport, R. I., as to the exact place of landing, wireless advices differ.

The Republic went down, according to brief wireless messages received here tonight, off No Man's Island, a small island south of Martha's Vineyard Island, off the Massachusetts coast.

The Italian liner Florida, which sailed from the Republic in the dense fog off Nantasket Mass., early Saturday morning, and gave her her death-blow, is slowly steaming towards New York conveyed by the American liner New York. Her passengers are on the Baltic, having been transferred in the early hours of the morning, along with those of the Republic.

That there was loss of life attending the collision was not known until Sunday morning. Then the wireless messages, which were received by the Republic, stated that the Republic was sinking and that the Florida was sinking. The Republic was sinking and the Florida was sinking. The Republic was sinking and the Florida was sinking.

Just how the Florida, which is reported to be unprovoked with wireless apparatus, happened to reach the Republic in the early hours of her distress could not be ascertained from shore, but it was considered possible that she might have been the vessel which struck the Republic, and being the less injured, took off the liner's passengers.

It is a fact, however, that the Florida must have been between thirty and forty miles off her course in being anywhere near the Republic, which was in her crippled condition. The Florida was in her crippled condition, and the Republic was in her crippled condition. The Florida was in her crippled condition, and the Republic was in her crippled condition.

BANK OF N. S. HAS HANDSOME OFFICE

Extensive Alterations to Building
About Completed and Staff
Doing Business Therein.

A SHORT DESCRIPTION

The Bank of Nova Scotia has moved into its handsome new quarters in its building.

For some months past extensive alterations and improvements have been under progress in the Bank of Nova Scotia building, and today it is one of the handsomest banking institutions in the province. Although not yet in a finished state, business is being transacted therein, and one can get a fair idea of the prospective interior.

The bank occupies the entire ground floor, with the exception of an entry leading to the second story. The entrance in the centre of the bank is a fine one, with a spacious office, arranged along the left and right are the managers' offices and the cashier's office. On the floor is also a sleeping room for one of the bank staff, who by a clever contrivance, can sleep in the vaults at any time.

The upper story is much as it was before alterations commenced, only now the vault has been extended to this floor and eight lockers are thus provided for tenants where valuables can be stored to guard against destruction by fire. On this floor is also a sleeping room for one of the bank staff, who by a clever contrivance, can sleep in the vaults at any time.

The contractors for the alterations were Messrs. Rhodes, Currie & Co., of Amherst, and the work was done in the most high class manner. The interior furnishings were supplied by the Canadian Office and School Furniture Co. of Preston, Ont.

The interior decorations are being done by Wm. McE. Maitland, J. P. Bullman, architect, who was supervisor of the work.

When the entire work is completed the Bank of Nova Scotia will have a spacious and handsome quarters.

RESTIGOUCHE BOY TO THE FRONT

F. D. McKay Makes an Experiment in Wireless Telegraphy.

TO CLIMB MOUNTAIN

An attempt will be made from the top of Mount Wilson today to communicate with every wireless telegraph station within 8000 miles, including those of the Philippine Islands and Japan, by the means from the Southern Pacific school of wireless telegraphy. The expedition carrying the apparatus with which these tests will be made started for the summit on Friday, and the tests will cover a period of five days.

Reports of mysterious high-voltage flashes, which have been noted in the vicinity of the mountain, aroused the interest of F. D. McKay, principal of the school, and it was with the intention of locating the source of these tests that he planned the expedition.

The primary necessity for a successful experiment is a high point, and for this reason Mount Wilson was selected. The experimental station on Mount Wilson is much more than a mile above the sea level and the results should be correspondingly great.

The tests will be made under the direction of McKay, by J. P. Collins, wireless expert; Irving L. Hollister, former operator in the United States Navy; H. M. Fraser and J. J. Simpson, operators. Monte Tucker will assist in installing the apparatus.

Larger than any other in the world will be the five-strand aerial, which will stretch 500 feet across a gorge near the summit. This will give the receiver a chance to pick up every stray spark any distance every call, no matter how faint.

An operator will be on duty constantly, and during the five days, every station along the Pacific coast and on all the islands in the Pacific will be called. Owing to the peculiar atmospheric condition which sometimes carries a call to its destination, and then fails to return, the call will be taken to ascertain the success of experiment.

We expect to talk with every station from Magdalena Bay to Puget Sound, said McKay yesterday. We will certainly be able to pick up Hawaii, and may talk to Panama. If we do, the experiment will be a great success.

The climax of our efforts will be to communicate with the Philippines or Japan. We will call them regularly night and day, every station on the island that is listed and after each call will listen for reply. Should this test be successful, it will establish a new world's record that will be far in advance of all previous successes at long distance communication.

My belief is that the mysterious spark that has interfered with some of the local stations has been an electrical disturbance, for none of the aeriels in Los Angeles are high enough to gather calls from any station over 1400 miles away.—Cal. Paper.

F. D. McKay mentioned in the above was born here and is a son of D. S. McKay of Dalhousie. Mr. McKay's bellion people will remember him.

OHIO HAS ANOTHER MYSTERIOUS MURDER

Mary Farschner Found Dead in a Shed Near Home.

NO CLEWS YET

DAYTON, Ohio, Jan. 25.—Although two arrests were made today, the police practically admit that little progress has been made towards solving the mystery surrounding the assault upon and murder of Mary Farschner, whose body was found in a shed near her home late last night. The girl left her home on Bell Avenue about 6 o'clock last evening to take money to the bank to be deposited for her stepfather, Chas. B. Bryant. The officers believe she did not go down to the town, but was attacked in the immediate vicinity of her home. There was evidence of a struggle, which covered a distance of nearly one hundred yards and ended in a vacant lot. The body was found in a shed on this lot which is owned by Mr. Gratton Kennedy, by whom the dead girl's sister is said to be employed.

The mysterious assault of Miss Farschner is the fifth of a similar character here in recent years which has caused the sensation of the city and country. Only in one instance has there been a conviction.

PRIMATE OF ALL CANADA DEAD

Archbishop Swetnam of Anglican Church Died Sunday

TORONTO, Jan. 24.—The death of Archbishop Swetnam took place this afternoon about 1 o'clock from bronchial pneumonia. His illness lasted over a week.

The most Rev. Arthur Swetnam, D. D., was born in England and took his doctor's degree at Cambridge University. He was ordained in 1849 and began his work as curate of Holy Trinity Church, Lexington, London and four years later was placed in charge of St. Stephen's, Canterbury, whence he came to Canada in 1855 to assume the head-mastership of Helmsley College, London, Ontario. He held this position seventeen years. In 1872 he became rector of Grace church, Bradford, and remained there four years, when he became rector of St. Paul's church, Woodstock, Ontario, a position held later by the Right Rev. J. C. Farthing, Bishop of Montreal, on May 1, 1879, he was consecrated the third bishop of Toronto. Upon the death of Archbishop Doane he became Archbishop of the Church of England in Canada. The office will now probably pass to the senior bishop of the church, the Right Rev. Chas. Exum, D. D., Bishop of Ottawa. Bishop Swetnam was a scholar, an able organizer and a man of much tact and judgment. He will be greatly missed in Toronto, where his interest in all good work was proverbial.

In the Anglican churches here yesterday morning, prayers for the recovery of Archbishop Swetnam were offered up.

BLACK CAPE

BLACK CAPE, Jan. 23.—About fifteen inches of snow fell on Sunday night and towards morning, the wind changed to a fresh breeze from the west, blowing the snow in all directions and the roads are in a bad condition.

The annual games meeting at the Presbyterian Church will be held in the church at New Richmond on Saturday, the 30th inst.

Mr. E. H. Harkins representing Whitehead and Turner, Quebec, passed through our midst on Saturday on his way to Gaspe.

Mr. E. H. Harkins, Keen of Caplin, passed through here on Thursday evening on his return from up the coast where he has been driving commercial travellers.

Duncan Campbell left on Monday for down the Gaspe coast.

Dr. B. Sproule of Campbellton, was at the home of Mrs. Wm. Johnston on Wednesday and Thursday and had quite a number of callers.

J. H. Starratt of Little Caspella, has his mill running in full blast on the fourth range under the careful superintendence of Jordan McLean. Commercial travellers are quite numerous these days passing through here on their way down the coast.

MOUNTAIN BROOK

MOUNTAIN BROOK, Jan. 23.—The weather has been very stormy and cold here for three or four days, which left the roads in a very bad condition. We hope that the road surveyor will see to his duty this time.

Miss Maggie Jane McMillan of Murphy's Hotel, visiting her mother, Mrs. John J. McIntyre, who was sick, and whose condition, to all her friends' delight, is slightly improved.

A number of friends from Charlottetown recently assembled at Mrs. George McIntyre's last Sunday evening where they reported having spent a very enjoyable evening. The chief amusements were games, music and singing. A dainty luncheon was served at eleven o'clock, after which the party withdrew, well pleased and extending their thanks to their hostess.

All went home singing 'Till after we go home in the dark.'

The party consisted of the Misses Anna, Flora, Maggie Jane, Agnes and Malvina McIntyre, Annie Poirer, Odeline LeBlanc, Edith Levesque, Mrs. Joseph Levesque, Mrs. James Drapau, and the Messrs. Donat and Denis LeBlanc, Wm. Martin, L. Groulx, Wm. Laviolette and Arthur Dugas.

Your correspondent regrets not being able to make our column more interesting as news are getting scarce; and fails to register everything that is going on in our district on account of bad weather. Besides some people seem rather shy and unwilling to have their names put on paper.

No Appetite

Your Food Disagrees.
You're Tired—Lifeless.
Skin is Rellow.

You'll Feel Worse Every Day
Unless You Brice Up Quick.
The Best Treatment is
Perronze.

Every day comes the good news of wonderful cures with Perronze.

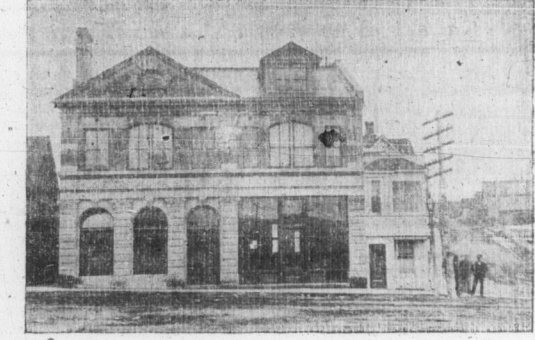

In Peterboro it worked marvels for Louis Meenan—put him right on his feet—made him entirely well.

"About three years ago," says Mr. Meenan, "I had the Grippe which left me in a very run-down condition that finally developed into Dyspepsia. I was unable to eat but a few things, not only cured me of Dyspepsia and Biliousness, but has built up my strength to what it was before I had the Grippe. I can recommend Perronze as an ideal purgative."

Perronze gives you force, energy, vim.

It strengthens the stomach cures indigestion, prevents headaches—guarantees good health.

Thousands use Perronze—they all

BANK OF NOVA SCOTIA BUILDING, CAMPBELLTON

FRENCH TREATY IS AGREED TO

Ministers Meet and Sign Same in Presence of Mr. Fielding.

FEW CONCESSIONS

PARIS, Jan. 24.—A supplementary convention to the Franco-Canadian treaty of 1907 has been signed by Sir Francis Birtle, the British ambassador to France; Hon. Mr. Fielding, the Canadian Minister of Finance; M. Piebon, the French Foreign Minister; and M. Caillaux Group and Ruana the Ministers of Finance, Commerce and Agriculture. While the agreement will not be published until it has been regularly placed before the senate, it is understood that Canada has made further concessions designed to remove the opposition of the French protectionists, who are fighting the ratification of the treaty in the French senate.

Say, Mike, queried Plodding Pete, who was looking at the piece of Sunday school paper that had come with a handout, what does 'mean' 'bout being between de devil an' de deep sea'?

It's de same as bein' 'told 't take yer choice between goin' 't work an' takin' a bath,' explained Meandering Mike.

SUCCESSFUL CARNIVAL AT DALHOUSIE

Ice Crowded and Many Handsome Costumes Were Worn.

SOCIAL AND PERSONAL

DALHOUSIE, Monday.—The fancy dress carnival which was held in the curling rink here on Friday evening last was a great success in every way. Over one hundred persons came from Campbellton, some of them wearing very pretty costumes. The prizes were given as follows: Mrs. W. K. McKean, who represented the Merry Widow and had the most original costume; Miss Maggie Stewart, who successfully represented a Xmas tree and some gentleman's prize went to Leon Samson, who represented an officer of one of the regiments that played such an important part at the Quebec Tercentenary.

The bon supper given by the ladies of the Auxiliary of St. Mary's Episcopal Church the same evening was a great success. The visitors patronized the affair well and the ladies are grateful to all who attended.

At a special meeting of the Dalhousie Social Club held on Saturday evening to sell the literature from last year and consider other business, it was decided that the 'At Home' to be given shortly in the club rooms shall be held in the name of the club and a new committee was appointed to complete all the arrangements. The committee named are: H. A. Hilyard, Chas. O. Doyle, W. H. Comeau, Claude Brown, Frank Barberie.

Before the social takes place many improvements will be made to the club rooms by the proprietors of the building and by the club. The room formerly used as a lawyer's office will be connected with the club rooms and used during the 'At Home' as a ladies dressing-room.

Messrs. Isidore Allain and Louis Allain of Dalhousie, were down to Charlottetown last week attending the funeral of their late mother, who died, aged 83.

WE NEED THE MONEY

I judge number of our subscribers are in arrears and we ask them to remit the amounts due us promptly.
