The Canadian Spectator of Montreal pays the following high compliment to the new ly-appointed general manager, Mr. Dwight, in which The World fully concurs: "The general manager, Mr. H. P. Dwight, alted though still a young man, has been connected with the Montreal company about a quarter of a century. He was promoted to the position of manager of the western division in Toronto many years ago, for the ability which he early developed in the service of the company here. The successful manner in which he has conducted the business in what is veritably the telegraphic centre of the Dominion has always commanded acknowledgment from the directors as well as from the public press. It is no secret that the veteran manager here, Mr. James Dakers, has always held Mr. Dwight's judgment and ability in the highest esteem, and no one will acknowlege more willingly than Mr. Dakers the pre-eminent fitness of Mr. Dwight for the responsible position to which he has been promoted to the position of the press struggle, and the fine play shown therein, the early in October.

Mr. Dakers the pre-eminent fitness of Mr. Dwight for the responsible position to which he has been promoted. With a clear head, most discriminating judgment, and vast experience connected with Canadian telegraphy, he is, in the best acceptation of the words the right man in the right place.

However, as the game started the Dominions held their own, and got in several shots for goal, but it was of no avail, for want of practice soon winded many of them, and they made no desperate stand, the Torontos to play the Buckeyes of that place for a silver cup. It would be an instructive thing to know the basis on which Mr. Boustead deals with drunks. Some of his judgments appear rather capricious.
