Henry A. King & Co.'s special wire from Ladenburg, Thalmann & Co., New York: The feature of to-day's market has been Sugar, which advanced steadily, though the buying of the stock was not particularly noticeable in character. The Vanderbilts, led once more by Michigan Central and Canada Southern, were also strong, and the roal stocks seem inclined/to pick up support. In other directions General Electric and Northern Pacific preferred were the objects of bullish movements, and the Grangers, though depressed in the morning, showed a tendency to advance later in the day. Toward the close of the day the stock market was less active. Traders, however, showed further inclination to cover, and the concessions from preceding advances were only fractional.
