**THE DANGER OF ANAEMIA**

Consumption May Follow Unless Its Ravages are Checked

There is danger to every girl and every woman who falls a victim to anaemia—that is, bloodlessness. They become listless, feel too weak, too wretched and too hopeless to take prompt steps to stop the trouble. Too often, through neglect, they drift into a worse condition, forgetting that anaemia frequently leads on to consumption. If you are anaemic in the least degree you should lose no time in beginning treatment, to increase and enrich the blood supply. To do this there is no other medicine so good as Dr. Williams' Pink Pills. Every dose helps make rich, red blood, which drives out disease and brings again the bloom of health to pale and sallow cheeks. There are thousands of women and growing girls in Canada who owe their present good health to the timely use of Dr. Williams' Pink Pills. Among those who have been restored to health by this great medicine is Miss Rose Neville, Mount Forest, Ont., who says: "Dr. Williams' Pink Pills performed almost a miracle in my case. I was a victim of anaemia, in what my friends considered a dangerous form. I was very pale, always felt tired out, suffered from severe headaches, and had no appetite. I was taking doctor's medicine for a long time—in fact I tried two doctors—but instead of improving I seemed to be growing worse. My parents were at a loss to know what to do for me and thought I would not recover. Then a friend advised Dr. Williams' Pink Pills and I had only taken them a few weeks when I began to feel better. This greatly encouraged me and I continued taking the Pills for some time longer, and found my health again as good as ever it had been. In fact I am stronger than ever I was before. I have advised the use of Dr. Williams' Pink Pills to other girls who have found the results equally beneficial."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.
