

# Sometime! Why not this time? RED ROSE TEA "is good tea"

The ORANGE PEKOE is extra good. Try it!

## NEW BOOK MAKES ROMANCE OF HISTORY

Tells Story of Canadian Pacific  
Railway and Building of  
Dominion

A facetious American once referred to the Canadian Pacific Railway as "Canada on Wheels." Great as it is, the Canadian Pacific would be the last to appropriate such an appellation. It can be truthfully said, however, that the railway has been the central factor in the recent history of the Dominion.

R. G. MacBeth, just now that of the Canadian Pacific. Now at last comes a volume, well illustrated with photographs, which presents that history in its most complete form—that is, in a form combining the human factor with the material of the railway. The author, who has written a number of historical works to his credit, is a singularly well equipped man for the task. He has been in the Canadian West all his life, and has always been in close touch with the Canadian Pacific, though he has never been connected with it and has written and published his book independently.

Mr. MacBeth here traces the amazing story of the company's development into the world's greatest transportation system; of the struggles of the telegraph and express; colonization; irrigation; the battle of the railway camps; of its war service and of all its activities, with a wealth of interesting detail which illustrates the brilliant administrative and organizing ability of its executive.

Canadians should be proud, as Mr. MacBeth reminds them, that their country approved the construction of this pioneer transcontinental when the population was only 4,000,000. It was a split vote in the United States for such a supply. Mr. Churchill's motion was not carried by a vote. After some debate, J. J. Hughes, Liberal, King's, P. E. I., moved adjournment of the debate shortly after midnight. There were objections from every part of the House, which thereupon divided and the motion to adjourn was carried 42 to 38. It was a split vote in the Liberal and Progressive ranks, all the Conservatives voting for a continuance of the debate.

The Church motion now goes down to the bottom of the list of private members' motions.

## ROUND HILL.

Miss Bessie Whitman of Tupperville, spent one day in the village last week.

Mr. and Mrs. Verner DeLong and baby returned from Painesville on Monday. They are now at the home of Mr. and Mrs. S. A. DeLong and expect to leave soon for their home in Springfield, Mass.

Bishop Hackenley, the new Co-Adjutor Bishop of this Province, paid a visit to this place last week and spoke in St. Paul's church on Wednesday 11th. A large number attended.

Miss Phyllis Stevens left Monday 15th for Halifax, after a pleasant visit with her parents, Mr. and Mrs. W. G. Stevens.

Mrs. John Bent of Tupperville, called on friends in the village on Monday 15th.

## OBITUARY.

Isaac DeLong.

Bear River.—The death occurred at Bear River last, Saturday morning, of Isaac DeLong, at the age of sixty-seven years, following an illness of several months. He is survived by his wife, formerly Miss Whitman.

Mr. DeLong came to Bear River from Queens County about forty years ago and was a most industrious worker, and had always been a hardy, well man until about a year ago.

## OBITUARY.

Wallace A. Jefferson.

Bear River.—There passed away Sunday morning at Bear River East after a short illness, Wallace Aaron Jefferson, aged seventy-six years. Mr. Jefferson was a life-long resident of Bear River East, being a son of James E. Jefferson. His wife, formerly Miss Kiley, died nearly eighteen years ago. He is survived by one son, Arthur Jefferson, of Bear River East. Interment took place Tuesday afternoon at Clementsvale.

## CANADA AMONG THE POWERS.

The National City Bank of New York has compiled a table to show the relative changes in the wealth of the principal countries of the world since 1780. The figures, derived from the best available sources official and unofficial place Canada seventh in the list. The first three countries are (in billions of dollars):

United States	\$320,803
United Kingdom	\$3,840
France	67,710
Germany	25,700
Spain	25,319
Italy	25,986
Canada	22,955
India	21,959
China	19,087
Russia	17,000
Argentina	12,178
Brazil	10,020

Australia is thirteenth with \$9,650,000,000; Holland fourteenth with \$8,250,000,000 and Cuba fifteenth with \$8,000,000,000. There are no present data for Russia, which in 1912 stood fourth, with a wealth of \$56,140,000,000. The term wealth, as used in this compilation, embraces real property and improvements, clothing, furniture and kindred property, manufactured products, railroads and their equipment, manufacturing machinery, tools and implements, live stock and agricultural products, street railways and telegraph and telephone systems.

Some Canadians need to be reminded that their country already surpasses in wealth and development many which are much older, and that economically it stands among the great powers. Its showing would be still more impressive if the definition of wealth were broadened to include such potential assets as the forests, mines, fisheries, water power, and the latest resources of the soil. According to the National City Bank's compilation, Canadian wealth doubled in ten years, and increased more than seven-fold between 1870 and 1922, a record equaled only by the United States.

## PLANS TO PROMOTE THE COAL INDUSTRY.

Minister of Interior Announces Scheme.

To Continue Transportation Aid And Assist Coal Manufacture.

Ottawa.—Hon. Charles Stewart, Minister of the Interior, indicated in the House late Monday night, government plans for the development of the Canadian coal industry. Two lines of activity were proposed.

1.—Continuance of the financial assistance provided last year for the transportation of Canadian coal.

2.—Legislation to assist the manufacture of coal.

Mr. Stewart said that as a result of the \$300,000 voted last year to assist in transporting coal, the market for Nova Scotia coal had been extended 100 miles further westward.

Owing to the strike in the Alberta coal fields, it had not been possible to lend financial assistance in transporting Alberta coal east. But there was to be a trial shipment in the spring; and if a rate of \$6 per ton transportation charges could be obtained, plus \$2 per ton for mining and loading on the cars, it would be possible to bring Alberta coal into Ontario to meet competition with American anthracite. Further if Nova Scotia coal could be turned into high grade coke in Quebec, Mr. Stewart thought that a million and a half tons could be used to take the place of the anthracite now brought in from the United States.

## OLDEST WOMAN IN NOVA SCOTIA DEAD.

Sydney Mines.—Mrs. Christina Tutty, without a doubt the oldest woman in Nova Scotia, born on St. Patrick's day in North Duff, Scotland, in 1819, died this morning at the home of her granddaughter after a short illness. Coming to Cape Breton when nineteen years of age she lived in Grand Mira, until removing to Sydney Mines where she has spent four score years. Her name in girlhood was Christina McLean. She was married eighty-three years ago to the late Donald Ross, and later to the late Donald Tutty. She is survived by many relatives. Among the number being Foreman Way, M. P. P., who is a grandson, Leuchlin McLean, Glace Bay, and Malcolm Ross, North Sydney, are nephews.

## MAITLAND BRIDGE.

We are pleased to report Miss Etta Roster much improved in health.

Rev. J. H. Padellaro of Caledonia, occupied the pulpit of the Baptist church here on Sunday last.

Mr. L. N. Hanley of Boston, who has been visiting his mother, Mrs. Martha Hebb, returns to the States in a few days.

Mr. S. P. Ringer is spending a few weeks at Liverpool, where he is receiving medical treatment from Dr. Hennigar.

Mrs. Francis Atkins and little son Richard, of Kemps, are visiting Mrs. Melissa Roster.

The many friends of Mrs. Enos Germain of Caledonia, formerly of Maitland Bridge, will be pleased to learn that she is satisfactorily recovering from her recent operation at the V. G. Hospital, Halifax.

The ladies met at the home of Mrs. A. D. Minard Tuesday afternoon.

The latest message from Boston to Mrs. E. A. Ringer states that her grandmother, Mrs. Peckholy, is somewhat improved in health, although still in a very weak condition.

Mr. Yettou Munro is on a business trip to Mexico.

Mr. Jackson Lewis is very busy these days doing carpenter work. At present he is doing repair work at the home of Mr. A. J. Nixon.

Mrs. Walter Dukeshire, who has been visiting her mother, Mrs. Isabel Munro, at Lake Munro, for the past week has returned home.

The present crop is very encouraging to the Maitland Lumber Co., who have a large drive of logs, which are to be brought here to be sawn into lumber this summer.

## OBITUARY.

## APPLE SHIPMENTS CONTINUE HEAVY.

Sixteen thousand one hundred and sixty barrels of apples were shipped from Halifax to ports in the United Kingdom last week, bringing the total number of barrels shipped since the opening of the season to 1,068,831, according to the weekly statement issued by Furness Witby and Company yesterday. Four steamers loaded apple cargoes here last week, the Cunard liner Ausonia, the Furness liners Sachem and Manchester Exchange and the Canadian Government Merchant Marine steamship Canadian Victor.

Of the four liners, the Ausonia took the heaviest shipment, numbering 6,013 barrels for London. The Canadian Victor bound to Cardiff loaded 5,084 barrels, the Sachem for Liverpool took 3,259 barrels and the Manchester Exchange, bound to Manchester took 1,801 barrels.—(Herald.)

## WHAT A BEGINNER IN BEE-KEEPING SHOULD READ.

(Experimental Farms Note.)

The winter months afford the beekeeper an excellent opportunity of increasing his knowledge of bees and bee management through reading. There are, at the present time, so many good books and journals devoted entirely to beekeeping, the beginner is often at a loss to know which to choose. Mr. C. B. Gooderham, Dominion Apiarist recommends one of the following for general reading:—

"The Honey Bee" by Langstroth and Deane; "Beekeeping" by Dr. Phillips; or "Practical Beekeeping" by Frank C. Pellett. In addition to one of these, every beekeeper should have a copy of the "A. B. C. & X. Y. Z. of Beekeeping" which is the best reference book obtainable as it deals with practically every phase of beekeeping and has in addition, special articles for beginners. These books can be purchased from any dealer in bee supplies.

It is also advisable that the beginner subscribe to at least one good bee journal, any one of the following can be recommended:—"The Beekeeper," published at Peterboro, Ontario, price \$1 per year; "The Western Gardener and Beekeeper," Winnipeg, Manitoba, price \$1 per year; "The American Bee Journal," Hamilton, Ill., U. S. A., price \$1.50; "Gleanings in Bee Culture," Medina, Ohio, U. S. A., price \$1.15; and for the French reader "L'Abellé," Caumont 176, Quebec, P. Q., price \$1.

The beginner is also advised to obtain the following Dominion Experimental Farms bulletins and circulars:—

Bulletin No. 32—"Bees and How to Keep Them."

Bulletin No. 22—"Wintering Bees in Canada."

Circular No. 105—"Bee Diseases."

Circular No. 52—"Facts About Honey."

Circular No. 18—"Beekeeping in Canada."

Those may be had free upon application to either the Publications Branch, Department of Agriculture, or the Bee Division, Central Experimental Farm, Ottawa.

## 1,200,000 STICKS OF WRIGLEY'S SOLD PER DAY.

That's what ADVERTISING is doing for Wrigley's in Canada. Newspapers, magazines, bill boards and street cars all carry Wrigley ads.

Wrigley's advertising has put Chewing Gum on the map; it has become a necessity, recommended by physicians and dentists. Doctors say that the chewing gum releases juices which aid in digestion and promote better health. Dentists urge the use of Wrigley's to remove food particles from between the teeth and to massage the gums.

Wrigley's success is another exemplification of the old saying, "To him that bath." Wrigley has faith in advertising and he is reaping his reward.

## DIGBY BOY RECOGNIZED AS A MUSICAL STAR.

Digby.—The musical entertainments on the radio have been doubly interesting of late to the citizens of Digby, because they have had the opportunity of hearing one of the boys who left here to seek his fortune in the big cities. Jamie Dillon left Digby a few years ago in search of an opportunity to show his musical ability. He got his start as a trombone player in the Digby Amateur Concert Band and by hard work and perseverance he became quite accomplished as a player of that instrument. Today he is a member of a musical organization known as the Lombardo Royal Band, at present in Cleveland, Ohio, where much of their time is devoted to radio broadcasting of music. Young Dillon is recognized as a star among the musical fraternity and is drawing a big salary as a result of years of faithful endeavor.

## PESTIFEROUS JACK RABBITS YIELD PROFITS AFTER DEATH.

Cordova, Alaska.—Washington and other States of the Union might profit from the Jack rabbit pest if they killed the animals, powdered the meat and sold it to Alaska fox farmers for summer feed, in the opinion of J. Williamson, owner of the largest fur farm along the Russian River in the Kani Peninsula.

More than 5,000 rabbits were slaughtered by Williamson last winter. The meat was ground, placed on racks over a stove where it was dried, and then pulverized and stored in sacks.

The rabbit powder was mixed with water and vegetables, boiled and served to foxes during the summer, making an agreeable change of diet from fish and porcupine.

Another form of preserving the meat is to pack it when fresh into five gallon oil cans. About thirty-five rabbits are put in one can. Water is poured over the meat and the can set on doors until its contents freeze. The can is then thawed loose and removed from the block containing the meat. The block is stored in ice houses that prevent it thawing until feeding time in the summer.

## FEELING TIRED IN SPRINGTIME

Not Sick, But Not Quite Well—You  
Need The Help of Dr. Williams' Pink Pills.

With the passing of winter many people feel weak, depressed and easily tired. No particular disease, but the system lacks tone. You find yourself tired, low-spirited, and often unable to get sound sleep at night. All this is the result of in-door confinement of the winter months, and shows that the blood has become thin and watery. New, rich, red blood is what you need to put you right, and there is no other medicine can give you this new blood as surely and as speedily as Dr. Williams' Pink Pills. This new blood goes to every part of the body and quickly improves the general health. Digestion is toned up, you have a better appetite, nerves are strengthened and sleep is sound and refreshing.

The value of Dr. Williams' Pink Pills when the system is run down is shown by the experience of Mr. William Mitchell, R. R. No. 1, Bedford, P. E. I., who says:—"A few months ago I found myself in a badly run down condition. My appetite was poor, I was easily tired and did not sleep well. I tried several so-called tonics, but did not get any relief. Then I decided to give Dr. Williams' Pink Pills a trial and soon found that I had got the right medicine. Gradually my strength came back, the dull, tired feeling disappeared, and after using the pills for about a month, I could eat heartily and was as strong and active as ever I have been. I can most cheerfully recommend Dr. Williams' Pink Pills as an unsurpassed tonic."

You can get Dr. Williams' Pink Pills from any dealer in Medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## NO 99

W99—500 acres total, 40 acres cultivated, 24 acres marsh, 3 acres orchard, 100 acres pasture, over 2000 cords hard and soft wood, considerable timber, cuts 50 to 60 tons hay, situation good, buildings extra good. This is the best dairy proposition in this part of the country. Offered at a low figure including the Stock, Equipment and household furniture. This is a good investment, if interested get particulars from

Lloyd's Real Estate Agency  
Bridgetown, Annapolis Valley, N. S.

## That Fellow Feeling

YOU are all wrapped up in the merchandise that fills your store. You enthuse over the quality of this article and that line. You probably display the goods attractively, too.

All you need now is to transmit your enthusiasm to the buying public of your community—and your goods move out and the profits roll in.

ADVERTISE. For advertising makes the customer feel as you feel about the goods you have to sell. Every time you talk to prospective buyers through an advertisement in "THE WEEKLY MONITOR", you are increasing the fellow feeling that brings business to your store.

## MAY CHANGE HANDS

Control of Oyster Areas May Be Given to Federal Government

Ottawa.—That negotiations are under way for the transfer of the oyster areas in Prince Edward Island, Nova Scotia and New Brunswick, from the provincial to the Dominion government, was stated in the House of Commons this afternoon by Hon. T. J. Cardin, Minister of Marine. In answer to a question by A. E. McLean (Liberal, Prince) Mr. Cardin said that he had informed the Premier of Prince Edward Island that it the div-

ided jurisdiction were removed by placing the administrative control of the oyster areas of that province, in the hands of his department, measures for clearing up public beds and building up an industry in private oyster culture would be taken.

Mr. Cardin stated that the premiers of Nova Scotia and New Brunswick had indicated their willingness to place the administration of suitable areas in the hands of the Department of Marine and Fisheries, provided satisfactory arrangements for the development of the industry were concluded.
