Established 1856.

If you wish an up-to-date Vegetable or Flower Garden the coming season, you must have

# SIMMERS' SEED CATALOGUE FOR THE YEAR 1910

Because it contains the most complete list of Vegetables and Flowers, together with many striking novelties. Simmers' Field, Vegetable and Flower Seeds have for over fifty years been staple with the best farmers, market gardeners and critical private planters. When you buy seeds, you naturally expect them to germinate. This is an absolute necessity, but the most important point is the quality of the vegetable or flower produced. Simmers' quality seeds cover this, because we buy from acknowledged specialists, and we spare no expense in procuring the best Seeds for germination and productiveness.

It tells you about it in our Seed Catalogue for 1910, which is mailed FREE for the asking. Write at once.

# J. A. SIMMERS
