

MOODY'S LABOR SAVING FARM MACHINERY

A Buckeye
true to name

FOR 1897

Chain Gear Mower 6 ft. cut

We are headquarters for mowers and rakes. We have this year put a new foot lift on our Buckeye Mower. The foot lever is directly in front of driver. He does not need to get off his seat to work it as in all the other mowers. Our foot lift is away ahead. Our chain gear 6 foot cut mower is also a first class machine. Has heavy malleable drive chain is easy running—with very large driving wheels—An extremely simple and powerful machine. Only made for 6 foot Cutter Bar. Our mowers are models of simplicity and have the fewest possible parts consistent with durability, thus lessening the liability to break down. Our Tiger Rake is made in two sizes of 26 or 24 teeth as desired. Our Ithaca Rake is made in two sizes of 27 or 21 teeth as desired. There are no better rakes made than these machines.

Wilkinson Ploughs, Scrapers and Repairs.—These celebrated Goods are to be had from us or from our local agents throughout the Province.

MATTHEW MOODY & SONS,

MONTREAL OFFICE: 10, 12 and 14 Le Royer St.

TERREBONNE, QUE.

FARMERS, GARDENERS & FLORISTS

SHOULD USE THE

Nichols Chemical Co's. Fertilizers.

It increases crops from 25 to 40 per 100 and in many instances doubles them. POTATOES are much less liable to rot. CORN yield more. TURNIPS, BEETS, VEGETABLES mature earlier, give greater returns when these Fertilizers are used. HAY and GRAIN of all kind are greatly improved.

NO BAD WEEDS, or FOUL SEEDS, go with them like farm yards manure.

Every one who cultivates Flowers, Garden or Field, should use them.

2000 Farmers will tell you it pays 100 per 100 to buy those Fertilizers.

Selling Agents:

EXTRA FINE stock ready for shipment with registered pedigree. James H. Lloyd, St. Lx, Que.

LAND PLASTER

The only material used with Bedding that keeps Cattle healthy besides collecting liquid which adds to value of manure instead of requiring Phosphates to enrich land. Land Plaster in Spring spread over meadows increases growth greatly.
