

# SPRAGUE ELECTRIC CO.

NEW YORK

## "GREENFIELD" FLEXIBLE METALLIC CONDUIT

Approved by all leading Architects and Electrical Engineers.

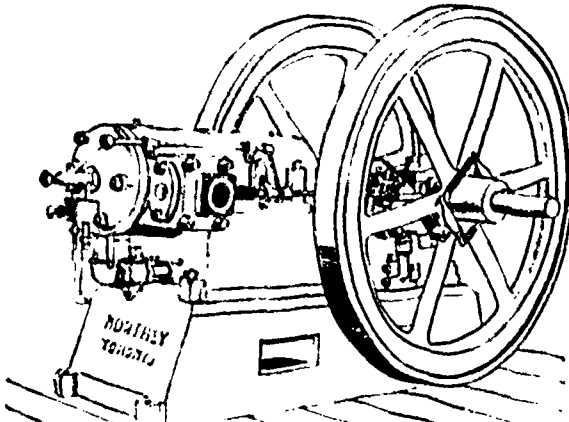

Cheaper than plain uninsulated Iron Tubes, and less labor in installation, owing to absence of Elbows and Couplings. Shipped in lengths of 100 feet.

Prices and full particulars on application.

## JACK & ROBERTSON

CANADIAN SALES AGENTS

MONTREAL

**Northey Gas or Gasoline Engine**

Supplies a smooth running, continuous, easily-controlled form of power, essential to the operating of electrical machinery. It is extremely simple in construction and so easily run that it requires no attention for hours at a time. Its handiness and convenience make it specially useful in the case of Isolated Plants, such as that in a gentleman's residence or small town.

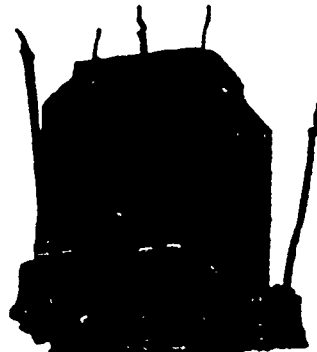

Send for Information.
