

flabby. Functions of the system, regular as a whole. For several years experienced flatulence and constipation, regulated by occasional castor oil. About two years ago, the digestive system, particularly the alimentary canal, was the seat of very considerable irregularity. A degree of general debility followed, attended by marked weakness, almost approaching heart failure, and inability to move about, with accustomed activity. In May, 1898, placed her under *neurotone* treatment, continued twice each week, for a period of two months. At the expiration of that time, markedly improved, as to alimentary digestive power, and the general vigor of her system. Oct. 12, 1898. Moves about her home with the activity of twenty years ago, and now expresses herself as feeling almost youthful once more. This is an illustration of neurons, almost on the shelf, called into action again and becoming useful factors in the promotion of renewed life and activity.
