

JOHN MORLEY ON HOME RULE.

"NEITHER LISTEN TO IRELAND OR SUPPRESS HER."

In the Nineteenth Century for February, John Morley, M. P., concludes an able article on Ireland with these words:—  
"I do not see, therefore, where the difference in condition between Ireland and the colonies make against Home Rule. What I do see is ample material, out of which would arise a strong and predominant party of order. The bulk of the nation are sons and daughters of a Church which has been hostile to revolution in every country but Ireland, and would be hostile to it there from the day that the cause of revolution ceased to be the cause of nationality. If the peasant were made to realize that at last the land settlement, wisely and equitably made, was what it must inexorably remain, and what no politician could help them to alter, they would be as conservative as the peasant under a similar condition in every other spot on the surface of the globe. There is no reason to expect that the manufacturer, or shopkeepers of Ireland, would be less willing or less able to deal on active and useful part in the affairs of their country than the same classes in England or Scotland. It will be said that this is mere optimism providing. But why is that to be flung aside under the name of sentimentalism while pessimism prophesying is to be taken for gospel? The only danger is lest we should allot new responsibilities to Irishmen with a too grudging and restrictive hand. For true responsibility there must be real power. It is easy to say that this power would be misused, and that the condition both of Irish society and of the proposed constitution must prevent it from being used for good. It is easy to say, as Mr. Dicey does, that separation would be a better end. Life is too short to discuss that. Separation is not the alternative either to Home Rule or to the status quo. If the people of Ireland are not to be trusted with real power over their own affairs it would be a hundred times more just to England and more merciful to Ireland to take away from her that semblance of free government which torments and paralyzes one country, while it robs the other of national self-respect and of all the strongest motives and best opportunities of self-help. The status quo is drawing very near its inevitable end. The two courses then open will be: Home Rule on the one hand, and some shabby, bungling, underhand imitation of a Crown colony on the other. We shall have either to listen to the Irish representatives or to suppress them. Unless we have lost all nerve and all political faculty we shall, before many months are over, face these alternatives. Liberals are for the first; Tories, at present, incline to the second. It requires very moderate in strict of the forces at work in modern politics to foresee the path along which we shall move in the interest alike of Great Britain and of a sounder national life for Ireland. The only real question is not whether we are to grant Home Rule, but how."

GEN. BULLER STRONGLY DEFENDS THE IRISH TENANTS.

LONDON, March 10.—A sensation has been caused by the publication of Gen. Buller's evidence before the Land Commission. It appears that Gen. Buller testified that what lay there was in the counties Kerry, Clare and Cork was on the side of the rich, and he expressed the opinion that it would be a serious matter with their grievances unredressed to attempt to suppress by force the tenants' right to openly associate for the protection of their interests. A majority of the tenants, he said, struggled to pay their rents, and, where they could, did pay; but in a great many cases the rents were too high. He said there would never be peace in Ireland until there had been established a court having strong coercive powers over bad landlords and protective powers over poor tenants. The Pall Mall Gazette declares that the facts attested by General Buller come like a flash of vivid lightning, revealing the naked horrors of organized injustice in Ireland. It says:—"No crime which the Moonlighters or dynamiters can commit will be comparable to the criminality of giving another day's grace to the foul fabric of legalized wrong erected on Irish soil—a fabric which the Tories now seek to buttress by further malice."

THE IMPERIAL PARLIAMENT.

LONDON, March 10.—Sir James Ferguson stated in the House of Commons this afternoon that the railway being constructed by the Russian Government from the eastern shore of the Caspian sea had reached Chirafui, on the River Oxus. The Government had no reason to believe that Russia was massing troops here.  
Lord George Hamilton, first Lord of the Admiralty, replying in the Commons this evening to a question with reference to the dismissal of Draughtman Terry for selling naval secrets, said that in the interests of the public it was not desirable to reveal the name of the person who obtained the information or of the object for which it was bought. He was unable to state whether or not Terry could be indicted for perjury.  
Sir James Ferguson said the Government had caused evidence to be reported that political prisoners had been maltreated, and it had learned that the prisoners had no complaints to make about the matter of their treatment.

PROPRIETARY MEDICINES.

A visit to Dr. Green's laboratory, at Woodbury, N.J., has considerably changed our views, and especially our prejudices in regard to what are generally known as "Standard Patent Medicines." Of course we are getting to that age in life when we are forced to conclude life's itself is a humbug, and naturally distrust anything that has not withstood long and tried experiences. Being a physician I had the curiosity to know how such a sale of two medical preparations could be sustained for so many years. The perfect system upon which the business is conducted, and the pharmaceutical arrangements for the manufacture of the two receipts with which we were made acquainted, are sufficiently convicting us that the AUGUST FLOWER, for Dyspepsia and Liver Complaints, and BOSCH'S GERMAN SYRUP, for Throat and Lung Troubles, were for the complaints they recommended, most excellent remedies, and only regret that in much of our practice, medical ethics prevent us from prescribing them without making the formulas public. When we were shown the great quantity of voluntary letters having been forwarded Dr. Green, from all parts of the country, and from all classes of people, lawyers, ministers and doctors, giving a description of their ailments, testimonials of their cures, etc., I feel like endorsing Dr. Green's suggestion that the Government accept such valuable formulas, and license them for general use by giving generally to the inventor same as patents generally.—Copied from N.Y. Druggists' Circular of October, 1886.

HORSFORD'S ACID PHOSPHATE

A GOOD TONIC.  
Dr. R. Williams, Le Roy, N.Y., says: "It is a good general tonic and worthy of trial."

LORD LANSDOWNE'S TENANTS

SAID TO HAVE BEEN PUNISHED FOR DARING TO DEMAND A REDUCTION.

New York, March 8.—The Times' London correspondent writes: "The Irish in London, who pay one-third of Lord Lansdowne's handsome salary, will be interested to learn that this millionaire nobleman figures in one of the poetical and meanest agrarian scandals of the whole wretched estate in Ireland. On his Queen's county estate he had a difference of 25 per cent. with his tenants on a question of abatement, both sides holding out. Recently a statement was called in Dublin to the infamous condition of some of the tenant's hovels on this estate, and the authorities sent an inspector to examine them. He reported that the hovels were in a shocking state and not fit for swine, and a direct cause of typhoid. Accordingly the erection of seven cottages was ordered, which would cost some £500. To punish the tenants for refusing to come to his 25 per cent., his Lordship sent an agent to the Privy Council whereby pressure was secured rescinding the order for the erection of the cottages."

FREE TRADE.

The reduction of internal revenue and the taking off of revenue duties from Proprietary Medicines, no doubt has largely benefited the consumer, as well as relieving the burden of home manufacturers. Especially is this the case with Green's August Flower and Bosch's German Syrup, as the reduction of thirty six cents per dozen has been added to increase the size of the bottles containing these remedies, thereby giving one-fifth more medicine habitually to each sufferer. The August Flower for Dyspepsia and Liver Complaint, and the German Syrup for Cough and Lung troubles have, perhaps, the largest sales of any medicine in the world. The advantage of increased size of the bottles will be greatly appreciated by the sick and afflicted in every town and village in the civilized countries. Sample bottles for 10 cents remain the same size.

OPPOSED TO SOULLESS PLUTOCRACY.

CARDINAL GIBBONS ON THE ATTITUDE OF THE CHURCH TO THE LATER MOVEMENT—CARDINAL TACHÉREAU AND CANADIAN LABORERS' SOCIATIONS.

Rome, March 10.—In an interview to-day Cardinal Gibbons said to Mr. Stanger's reporter although published through a wonderful stroke of newspaper enterprise were in the first instance confidential. The Cardinal said "I am and ever shall be the enemy of a plutocracy of soulless corporations and men. The Catholic Church will take the side of the weaker against the stronger in this instance. There is no question of a strike of the French Canadian society is not that of the United States, and perhaps the French ecclesiastical or administrative mind is more inclined to take sides than we are, and more inclined to take sides behind every hedge. America is quite able to take care of itself and the interests of American citizens. It will be time enough to consider all sorts of side issues when they are raised."

HUMOROUS.

The most humorous man is not always the happiest; the man who has scrofulous humor or any other obstinate humor of the blood, does not feel very lively, at least not until he is cured, which, by the way, Harlock Blood Bitters will do in the most troublesome of blood humors.

"A DANGEROUS MOVEMENT."

EARL SPENCER ON THE IRISH SITUATION—SUD- DEN CLOSURE OF THE LIMERICK ASSIZES.

LONDON, March 10.—Earl Spencer, speaking at a banquet last night, said he regretted the plan of campaign had been adopted. It was a dangerous movement, but he thought it only fair to say the Government was in a great measure responsible for the adoption of the plan, because it had refused to consider Parnell's bill. He denied that the Irish leaders in Parliament had ever sanctioned the commission of crimes, and said the Government would never secure law and order by repressive measures.  
DUBLIN, March 10.—The session of the Limerick assizes suddenly closed owing to the fact that the jury constantly returned verdicts of acquittal. Counsel for the Crown applied for an adjournment of the remaining cases.

DON'T DO IT.

Don't rack and ruin your lungs with a tight, harrowing, distressing cough, when a few doses of Haygarth's Pectoral Balm will loosen the phlegm, soothe the irritation and heal the sore throat and bronchial pipes, and may avert that destructive disease, consumption.

THE FIGHT AGAINST COERCION.

LONDON, March 10.—Mr. Gladstone has informed his party that he himself will lead the opposition to the coercion bill in Parliament. The Liberals will continue their efforts against the bill until Easter, maintaining in the meantime an active agitation throughout the country.

SELF-DENIAL DURING LENT.

The Church suggests to us in the Divine office the following matters, in which we should deny ourselves during Lent:—  
1. Food.—Observe strictly the law of the Church as modified by the Lenten Indulgence; and never permit yourself any further relaxation, not compelled by necessity, without permission.  
2. Sleep.—Rise punctually at a fixed time, both as an act of penance, and that you may make your morning prayer with less hindrance. Retire to rest early and at a fixed time, according to the advice of St. Francis of Sales, who said it was an act of virtue to retire early, that we might rise early to praise God.  
3. Words.—Practice the virtue of silence as you may have opportunity, as a penance for your sins of the tongue, and as a help to recollection and prayer.  
4. Recreation.—Avoid as much as possible all the amusements and gaieties of the world and all that is unbecoming a time of sorrow. Do not seek pleasure, but draw in your thoughts, and consider what it cost our Divine Lord to redeem you; that by timely penance you may attain to eternal glory.  
5. The Senses.—Maintain, during this time of penance, a stricter guard than usual over the senses. Sight, hearing, smelling, taste and touch—all should be mortified and brought under command, that death may not enter in by them.

WORTH REMEMBERING.

Every inspiration of the lungs, every pulse-throb of the heart, every drop of the arterial blood, every thought that is breathed through the brain, all create waste matter that must be constantly removed if there is to be that beautiful harmony of functional effort which constitutes health. Nature's remedy is the sure and eminently wise one, of expelling, by proper purgation, the humors which cause disease, and Dr. Pierce's "Pleasant Pills" are the most powerful and gentle in the cure of digestive disturbances, and an unfailing remedy for constipation and its pernicious effects.

WORTHY OF CONFIDENCE.

The preparation sold by druggists known as Haygarth's Yellow Oil is worthy of all confidence as a household remedy for pain. It has been over a quarter of a century in the market, and never fails to cure or relieve rheumatism, neuralgia, sore throat, quinsy, deafness, burns, scalds, bruises, frost bites and internal or external pains and injuries.

NO LONGER TO FOLLOW FALSE GODS.

There is no use trying to dodge the question, gentlemen; it has got to come sooner or later, and it is bound to come sooner than most people think. We mean the question of a fair day's pay for a fair day's work. The days of cut-throat and big dividends, got by the toil of others, is nearly passed.

The world owes no man a living that does not work for it. The colossal fortunes that have been stolen from the many by the few must go back to their rightful owners. That sentiment is in the air and every son and daughter in America is breathing it day after day and the effect is being felt more and more. The presence of a privileged class in this country has already become a stench in the nostrils of every liberty-loving citizen. Our forefathers fought for seven long years to rid themselves and their children from such a class in old England, and their children's children have at last woken to the fact that they are fast raising up a privileged class in free America that, unless suppressed, would in a short time put to shame the gang that flourished under George III. The blood-sucker and money changers are not fools. They see the handwriting on the wall and are straining every nerve to stem the tide that is certainly set against them. But their struggle is in vain. The people have become aroused, and victory is as sure to perch upon their banner as the sun is to rise.

THE NOVA SCOTIA LEGISLATURE.

LEUT.-GOV. RITCHIE'S ADDRESS FROM THE THRONE.  
HALIFAX, March 10.—The Nova Scotia Legislature opened this afternoon with the following speech by Leut.-Gov. Ritchie:—  
Mr. President and Hon. Gentlemen of the Legislative Council:  
Mr. Speaker and Gentlemen of the House of Assembly:  
I have much pleasure in meeting you on your assembling for the discharge of your legislative duties.

This year will be memorable as the jubilee of our beloved sovereign, Queen Victoria. Her devoted subjects, the people of Nova Scotia, in common with those of other parts of the Empire, will rejoice that Her Majesty has been spared to celebrate the fiftieth year of her reign, and they will earnestly pray that she may yet be permitted to occupy for many years the exalted position which she has so long adorned by her virtues as a woman as well as by her wisdom as a Queen.

The varied industries of our province were prosecuted during the past year, with considerable vigor, and the results in some departments were highly satisfactory. The agriculturists, who form the largest class of our population, were favored with a good season and an abundant harvest. Our fishermen were less successful, although in some branches of their important industry their perils were not so severely rewarded. Mining operations have been extensively carried on, and the outlook for the present year is encouraging. A serious difficulty between the workmen and the companies operating some of the coal mines in Pictou county is at present causing an embarrassment in the coal trade, but it is hoped that this will soon be terminated by an amicable adjustment.

A TORONTO PRIVATE DETECTIVE CHARGED WITH PROCURING GIRLS FOR IMMORAL PURPOSES.

TORONTO, March 10.—Daniel N. Stewart, a private detective, was charged at the Police Court this morning with enticing Klity Whitehead, under 21 years of age, into a house of ill-fame for purposes of prostitution. Stewart elected to be tried summarily and pleaded not guilty. The acting Crown attorney applied for a remand till Monday which was granted. The girl Whitehead is respectively connected. There will likely be several other similar cases against Stewart. He ran an employment bureau and the police state it was run as a means of trafficking in young girls who were sent to American cities for immoral purposes. A young girl who gave the name of Florence Andrews, from Port Huron, Mich., was in Stewart's company when arrested. She is held on a charge of vagrancy, but really as a material witness.

CARDINAL GIBBONS' CHOICE.

ROME, March 8.—Cardinal Gibbons shows a marked tendency toward choosing Santa Maria in Trastevere as his titular church. The church is the oldest and most interesting of the Roman Basilicas. The Cardinal will take possession probably on the 20th inst.

A SERIOUS CHARGE.

Wherever higher wages are granted they still remain "the wages of him that is hired."

Holloway's Pills.—Sudden transitions from heat to cold, or from raw inclement weather to oppressive climate, favor the development of bilious diseases, which may in most instances be checked and rendered abortive by an early resort to these purifying, regulating and strengthening Pills. This well-known and highly esteemed medicine affords a safe and easy remedy for almost every constitutional ailment which unfavorably climate, rapid changes, or dietetic errors, can engender, and effectually removes any weakness self-indulgent habits may have induced. In all conditions of the system bordering on disease such as are indicated by apathy, listlessness, and restlessness, Holloway's Pills will prove especially serviceable in beguiling the vivacity of mind and body appreciated by both soul and sick.

DEATH IN THE WATER.

IS THE ELEMENT WE DRINK DROICIZING THE PEOPLE?—HOW A UNIVERSAL MENACE TO HEALTH MAY BE DINARMED.

A few years ago the people in a certain section in one of the leading cities of the state were prostrated with a malignant disease, and upon investigation it was found that only those who used water from a famous old well were the victims.  
Professor S. A. Lattimore, analyst of the New York State Board of Health, upon analyzing water from this well, found it more deadly than the city sewage.  
The filling up of the old well stopped the ravages of the disease.  
Not long since the writer noticed, while some men were making an excavation for a large building, a stratum of dark colored earth running from near the surface to hard pan. There it took another course toward a well near at hand. The water from this well had for years been tainted with the drainings from a receiving vault, the percolations of which had discolored the earth.  
Terrible!

THE BODY AND ITS HEALTH.

How TO VISIT THE SICK.—The Ohio Odd Fellow gives the following hints for the benefit of those who call upon the sick:—  
1.—Enter and leave the house and move about the room quietly.  
2.—Carry a cheerful face and speak cheerful words, but you need tell no lies to be cheerful.  
3.—If your friend is very sick do not fall into gay and careless talk in the attempt to cheer him.  
4.—Don't ask questions and thus oblige your friend to talk.  
5.—Talk about something outside, and not about the disease and circumstances of the patient.  
6.—Tell the news, but not the list of the sick and dying.  
7.—Never whisper in the sick room.  
8.—If possible, carry with you something to please the eye and to relieve the monotony of the sick room—a flower, or even a picture, which you can leave for a few days.  
9.—If desirable, some little delicacy to tempt the appetite will be well bestowed; but it is the most unkind unkindness to tempt the sick to eat too much of rich cakes, preserves, sweetmeats, etc.  
Man is too apt to measure others' worth by his own selfish standard of value.

HEALTH BY YOURSELF!

Do not expend hundreds of dollars for advanced patent medicines at a dollar a bottle, and French quack system with nauseous slops that poison the blood, but purchase the Great and Standard Medical Work, entitled  
SELF-PRESERVATION.  
Three hundred pages, substantial binding. Contains more than one hundred invaluable prescriptions, embracing all the vegetable remedies in the Pharmacopoeia, for all forms of chronic and acute diseases, besides being a Standard Scientific and Popular Medical Treatise, a Household Physician in fact. Price only \$1 by mail, postpaid, sealed in plain wrapper.  
ILLUSTRATIVE SAMPLE FREE TO ALL, young and middle aged men, for the next ninety days. Send now or cut this out, for you may never see it again. Address Dr. W. H. PARKER, 6 Bulfinch St., Boston, Mass.

Three hundred pages, substantial binding. Contains more than one hundred invaluable prescriptions, embracing all the vegetable remedies in the Pharmacopoeia, for all forms of chronic and acute diseases, besides being a Standard Scientific and Popular Medical Treatise, a Household Physician in fact. Price only \$1 by mail, postpaid, sealed in plain wrapper.  
ILLUSTRATIVE SAMPLE FREE TO ALL, young and middle aged men, for the next ninety days. Send now or cut this out, for you may never see it again. Address Dr. W. H. PARKER, 6 Bulfinch St., Boston, Mass.  
49-G

HEALTH BY YOURSELF!

Do not expend hundreds of dollars for advanced patent medicines at a dollar a bottle, and French quack system with nauseous slops that poison the blood, but purchase the Great and Standard Medical Work, entitled  
SELF-PRESERVATION.
