## Trade Review and Insurance Chronicle of Canada

VOLUME 55  
No. 11

TORONTO, SEPTEMBER 10, 1915

ESTABLISHED  
1867

### Canada's Salt Production

The province of Ontario supplies most of the Canadian production of salt, which is small. There are opportunities for Canadian manufacturers of soda products. **Page 32**

### August Fire Losses

Since outbreak of war waste has shown considerable decrease though small fires are numerous. Many factors are responsible for this. Detailed record for August. **Page 26**

### Wording of Canadian Charters

Mr. F. W. Wegenast, Toronto barrister, draws attention to the monotonous regularity of wording of Canadian corporation charters, despite recent legal decision. **Page 30**

### Municipal Bond Sales

Canadian and United States markets absorbed normal amount of these securities. The offerings were less numerous and for smaller amounts, bringing close prices. **Page 22**

### Insurance in British Columbia

Results of the companies transacting miscellaneous insurance in British Columbia last year, Page 24. Fire premiums and losses in the Pacific Coast province during 1914. **Page 20**

### Paying Municipal Debts

Mr. Thomas Bradshaw, a prominent Canadian actuary, discusses the different methods of repaying funds borrowed by municipalities for a long term of years. **Page 9**

### Algoma Company's Bondholders

An official circular just issued tells of the steps taken to protect the bondholders of the Algoma Central and Hudson Bay Railway. Relations with other companies. **Page 18**

### Life Companies' Securities

Should the securities of life insurance companies be valued as at the date of investigation by the insurance authorities or should amortization plan be followed? **Page 5**
