**CATERING EXCLUSIVELY TO STUDENT TRADE**

“It is surprising the number of College men who pay their way through school by their own efforts. The profits on the sale of Kilburn Views and Saturn Scopes probably keep a larger number in the various schools than any and all other similar lines put together. The superiority of the goods, the straight, legitimate manner in which they are sold, and the exceptionally strong support which the management gives its men, account for its great popularity among the student body.”
