Notices of Inquiries and Motions.

For Wednesday, May 4, 1910.

No. 1.

By the Honourable Mr. Choquette:—

April 7—That he wishes to call the attention of the Government to the fact that the answers which were, on the 17th March last, given to the different questions asked by him to the Government, and reported in *Hansard* on pages 509 and following, are not sufficient answers to certain questions, and that the answers so given to a certain number of these questions are incorrect and such as to mislead this Honourable House and the country.

No. 2.

By the Honourable Mr. Landry:—

April 14—1. How much have the works of construction of the Military Forts situated at Beaumont, near Quebec, cost up to this date?

2. Are the work in question finished?

3. If not, at how much is their completion valued?

4. What is the number of men actually employed on these works?

5. How much did the armament of these forts cost?

6. Are there any guardians appointed for the care of these forts?

7. Who are they and their annual salary?

No. 3.

By the Honourable Mr. Landry:—

May 2—That he will inquire of the Government—

Has the Government actually in its employment or does it permit Jacques Déry, the restaurant keeper, to have in his employment, as a superintendent in the dining room, a woman by the name of Pirtras?

Does the Government know that this woman, according to the report of its officer, Mr. Blair, has been accused, among other things, of insulting immigrants and of conducting herself towards them in an uncivil manner?
