HIS WORKS LIVE AFTER HIM
MEMORIAL SERVICES HELD

At Grace Episcopal Church, Rev. F. Vipond Paid Tribute to Sterling Worth.

Memorial services for the late Dr. T. J. Barnardo, widely known for his philanthropic work in the cause of the orphan, were held in Grace Church, Elm-street, yesterday afternoon, and were appropriately solemn and impressive. The memorial was conducted by the Barnardo Girls' League and Barnardo Old Boys' Benefit Society, and in the well-filled church there were many men and women who traced their start in life to the kindly beneficence of a great man gone. The service was full of cheer, and the spirit of mourning appeared throughout the rending.

The sermon preached by Rev. Frank Vipond, honorary chaplain of the Barnardo Old Boys' Benefit Society, traced the career of the great philanthropist as one of the most powerful evidences of the spiritualizing power of Christianity. He spoke of Barnardo as a young man 40 years ago, with mind bent upon entering the Chinese mission field, of the training as a medical missionary, through which he passed, and of the Christian teaching that he gave to ragged children in a squalid London street. The speaker told how Barnardo had been led by his insight into terrible conditions of London slums, to an understanding that his work should begin at home. At a public meeting he earnestly pleaded for destitute children, and later attracted the attention of Lord Shaftesbury and others who were incredulous as to the extent of wretchedness depicted by the young man until he had driven them around the slums that they might see for themselves.

The great work of Barnardo had its monetary start in the gift of sixpence and four farthings from a poor girl, whose heart had been touched. Since then \$15,000,000 had been given in answer to prayer, and 60,000 young lads had grown to manhood under his fostering care, and many were filling responsible positions throughout the world.

Dr. Barnardo had taught the nations of the world how to handle young people, declared Rev. Vipond, who added that acts of parliament lacked love and were ineffective. One aim of the work had been to create home-like conditions, but while the physical nourishment of the children was sought for, chiefly was the effort made to bring about a change of heart.

NAVAL BASE AT SINGAPORE
PART OF NEW DEFENCE PLAN

Great Britain to Redistribute Sea Force—Scheme Has Japan's Approval.

London, Sept. 24.—The Sunday Observer says that the British government has decided to establish a naval base at Singapore as part of a vast new scheme of imperial defence, which includes the compulsory purchase of the Tanjongpagar docks.

The scheme is being carried out in the form of a new plan of imperial defence, which includes the redistribution and reorganization of the naval forces throughout the world. The establishment of this new naval base is the gateway of ocean traffic westward to the Pacific. The displacement of the fleet in consequence of the achievement of the Japanese navy, and the incursion in regard to Japan, Great Britain incurred in regard to Japan, the Observer says, made it imperative that his majesty's government should possess a great naval base in the far east.

PARTY OF PALMANS
QUIET ELECTION IN CUBA

Liberals Claim Policemen Stationed at Polls Prevented Them From Voting.

Havana, Sept. 23.—The election for members of boards of registration passed off quietly, and telegrams from the interior say there were no disorders except at Pinar del Rio, Santa Clara Province, where many shots were fired, but no one was killed. The Liberals admit the complete victory of the Moderates, the party of President Palma. They claim that the Moderates did not vote, because Moderate policemen stationed at the polls prevented them doing so. Presses visited a majority of the polls here, but at none of them noted any indication of restraint upon voters.

Good order is being maintained throughout the city, and with the exception of one man being shot and probably fatally injured in a row, and another being seriously injured by a stone, there has been no trouble.

Crowds which gathered in the Liberator's clubrooms were dismissed by officers, who informed them that the Moderates were victorious, and that the Liberals should return to their homes. The Liberal Club was closed and barricaded. A number of Liberals were reported to have been arrested. They had received word that the government intended to search the place for arms.

General Gomez, governor of Santa Clara Province, and Liberal candidate for the presidency of Cuba, says that the killing of Senor Villuendas was premeditated murder.

SIX MILLIONS FOR RELIEF.

Russia Will Distribute Food to Famine-Stricken People.

St. Petersburg, Sept. 23.—Special commissions from the department of agriculture and ministry of the interior left here to-day to take charge of the relief work in the famine districts of Russia. The cost of this work is estimated by the government at \$6,000,000. No acute distress has been reported, and the government hopes, by a prompt distribution of food, seed, grain and fodder, to prevent the famine-stricken population on public works, to tide over the people until the new harvest is ready for the market. The rolling stock is the chief obstacle to the relief. Plenty of grain is available, but the transportation facilities of the government are affected and for export. An observer of the situation, who has been in the famine-stricken districts, reports that the famine-stricken population is being fed by the government, and that the famine-stricken population is being fed by the government, and that the famine-stricken population is being fed by the government.

AUSTRALIAN VOTS TAUGHT
MANY DIFFICULT OPERAS

A Band of Famous Children Who Have Traveled Extensively in the Orient and Antipodes.

Many remarkable plans of practical utility have been conceived and put into effect in the case of the Australian, the Australian barrier for starting races and other ideas long since eagerly adopted in America. But the latest of unique things to reach this country is a company of child actors, graduated from an old established school, maintained specially for the development of dramatic and musical talent among juveniles in and about the City of Melbourne, which is a community half again as large as San Francisco.

For 26 years the organization has been in existence, and has annually produced fresh additions to fill the places of the individuals who have attained the mystical "teen" and have passed into the ranks of the dramatic and operatic profession. For years the child actors and singers have been a feature of theatrical entertainment throughout Australia, and they have also established surprising reputations in New Zealand, Tasmania, British India, the Straits Settlements, British Burma, China, Japan, South Africa, the Philippines and Honolulu.

The company was the idea of J. J. Burrows, Chinese opera singer, who, in addition, and altogether there have been no less than eighteen Pollards in the past, and there are still five in the business. To the organization it was a practical business, and the Pollards, who were introduced into the company, were the first to give the organization a new lease of life. The organization was enlarged, and other children were introduced into the company. The organization was enlarged, and other children were introduced into the company.

EQUITABLE RUNS A SALOON
MORTON MAKES DISCOVERY

Thru "Controlling Syndicate" Insurance Company Takes Profits From Adjoining Buffet.

New York, Sept. 24.—Chairman Morton of the Equitable Life Assurance Society, who quietly has been investigating all the different phases of the company's business, was much annoyed to-day when he reached the Equitable in the course of his inquiry. He discovered that, without knowing it, the Equitable has been running the saloon.

There was a time when such news would have shocked the trustees and members of the society, because, when it was started by the late Henry B. Hyde, his greatest assistance came from a Presbyterian minister. For many years the Equitable has been running the saloon of a person known to be a "drinking man."

But today, under the wing of a "holding company," composed of Equitable men, the society actually is running a saloon.

Mr. Morton was asked to-day: "What are the profits of the Equitable?" He answered: "The profits of the Equitable are \$65,000, which is the amount of the salary of the chairman, who is the chairman of the Equitable, and as such was responsible for all the profits of that concern."
