TWENTY-SEVENTH YEAR

CABINET PENSIONERS NAMED BY HON. MR. FIELDING TWELVE ARE CASHING IN

Discussion of Maclean Bill to Repeal Last Session's Error Fixed for Wednesday Next—Meanwhile, Liberal Caucus Will Make Some Amendments of Its Own.

Ottawa, April 25.—(Special.)—The most interesting incident in the house today, from a public standpoint, was the list of privy councillors who are drawing pensions or annuities as they are called, under the act of last year. The list was read to the house by Mr. Fielding, in answer to Mr. Maclean (South York).

On the orders of the day being called Mr. Maclean asked the prime minister to fix a day for the discussion of his bill abolishing these pensions and repealing the increased indemnities. Sir Wilfrid Laurier named next Wednesday evening.

In the meantime, it is more and more evident that the government is being compelled by the force of public opinion to look for a way to reconsider the pension and indemnity laws of last session, and there is likely to be a big discussion over them in the Liberal caucus to-morrow. Indeed, there are those who think an arrangement of some kind is now under way.

There are even rumors going that a proposal will be made in caucus to cut the indemnity to \$2000 a year, and to legislate that anyone on receipt of an indemnity be ineligible to draw a pension as a privy councillor. It was also proposed to reduce the pensions. Whatever it is, it will eventually be what Sir Wilfrid Laurier wants.

Listening to With Interest.—The reading of the list of those drawing the pensions suddenly sobered the house from its usual humdrum at question time, and there were significant protests recorded as some of the names were read.

The most painful part of it was the prominence of Conservatives' names on the list—eight out of the twelve—and if John Costigan is counted, and he earned his claims to a pension as a Conservative member there are nine. Of the three Liberals left, Mr. Blair is out of his party. Mr. Blair was out, but after firing with the Conservatives is seeking to get in again. The Liberal fold, and as for Mr. Sifton, he is a fugitive from justice from a pressing situation in regard to the North Atlantic Trading Company. Of the twelve drawing pensions, the following also draw the full indemnity of \$2500: Sir Mackenzie Bowell, Sir John Carling, and Messrs. Haggart, Price, Costigan, and Sifton.

But the indemnity vote to the people just as repellant as is the pension one.

EATEN BY BEARS IN N.B.

Fate of Emigrants as Predicted by British Members of Parliament.

St. John, N. B., April 25.—(Special.)—It is a shame to send out helpless little children to New Brunswick, that wilderness, where they won't be able to go out without being eaten by bears.

This is a statement made by four members in the British house and published in different London newspapers in opposition to plans advocated by Mrs. Elinor C. Close to bring to Canada several thousand homeless children. Mrs. Close is now here. The first party of 12 girls, all under 11 years of age, will sail for Canada this week.

HERE'S A RECORD FOR YOU.

117 Applications for Board of Trade Received Yesterday.

When the board of trade council meets to-day there will be 450 applications for membership, the highest which it accepted will give the board a membership of over 1200. Yesterday 117 applications were received. When this is compared with the 117 applications for the entire year, the highest annual record in the past, it excites the attention of the board and the members of the board. Secretary Morley. It is understood the board will recognize the latter's independence in carrying on his duties with the presentation of a testimonial.

ELGIN SEEKS COOPERATION WITH COLONIAL OFFICIALS

Desires Also to "Back Up" the Men on the Spot—Military Suggestions.

(Canadian Associated Press Cable) London, April 25.—Presiding at the annual dinner of the Colonial Institute to-night, Lord Elgin referred to the great difficulties in the administration of the colonial office. His object was to secure a heretofore co-operation between the authorities at home and abroad. Relations must vary according to varying circumstances, but his desire was to give sympathy and support to the men on the spot. He deprecated the use of the word "interference" with regard to Natal and asked for confidence for himself and Winston Churchill. Some years ago he mentioned the name of the under secretary.

WITH PRINCE'S BEST WISHES HORSE SHOW IS OPENED TO SOCIETY'S GAZE

With Large Attendance, Afternoon and Evening, the Annual Event is "Off" to a Most Auspicious Start.

The Horse Show has always been an event in celebration of which fashion has delighted to display itself. Whatever else may be said of Dame Fashion's fickleness, she has remained true thru all ages to the horse. The assemblage in the armories yesterday was a brilliant spectacle such as only Toronto society might hope to out rival on the occasion of the King's Plate. In the afternoon beauty was everywhere, but chivalry lacked in numbers. Later on however, in the evening chivalry asserted itself, coming forth in its hundreds, in full Prince Albert uniform, to promenade before the stand. The attendance was probably a trifle larger than last year.

FALLING CHIMNEY KILLS WOMAN AT WORK

Number of Walls of Ruined Buildings Collapse—Immense Population Receiving Free Rations.

San Francisco, April 25.—At 3:15 o'clock this afternoon a shock of earthquake was felt. It lasted nearly a minute and caused considerable alarm and one death. A number of walls of ruined buildings which were standing yesterday were thrown down and frail buildings were considerably shaken, an up, but the damage done was slight.

The shock was felt in Oakland and Berkeley, but in those places it was very slight and of brief duration.

Mrs. Annie Whitaker, aged 25 years, was at work in the kitchen of her home on Shotwell-street, in the Mission district, when the shock came. The chimney, which had been left in a tottering condition by the last quake, was shaken, crashed thru the roof and fractured her skull. Her body was taken to the morgue at Portsmouth and buried at four later at Laurel Hill Cemetery.

Distribution of Food.

An idea of the task which confronts the food committee may be gained from the fact that through the city rations for 249,540 persons were distributed yesterday. At one point provisions were given out to 672 persons an hour for ten hours.

All flour that was received in sacks is exchanged at bakeries, pound for pound, for bread. Almost all the bakeries in the ruined regions have opened and are selling bread at five cents a loaf. There is no danger of a meat famine.

From the reports of officers filed this morning, said Chief of Police, Dumas, there is every indication that San Francisco has settled down to almost a normal condition. The one perplexing problem that we now have to contend with is the prevention of an unequal distribution of food.

Instances have come to light where different members of families have each secured an allowance of provisions intended for a whole family.

Many tons of fresh fruit were distributed yesterday. Bunches of oranges, lemons and boxes of cranberries were given out unparagon. The oranges had been shipped before the earthquake, and had not been unloaded. Orders were received from the growers and packers in the southern part of the state that the homeless were welcome to them.

Members of the Jesuit order announced that they intend to at once rebuild both St. Ignatius College and the cathedral. Several of the founders and factories near the waterfront are at once rebuilding. Street are today preparing to resume operations.

The losses of San Francisco's fire department during the earthquake and fire were considerable. So far as known, three firehouses were killed and the apparatus of the department, while damaged, is still intact. Nineteen companies have been ordered to leave the city and their equipment will be disbanded.

General Greely says: "It should be clearly understood that beyond the cases already reported, there are no deaths or serious injuries of guests of any well-known hotel in San Francisco."

Shelburne Victims.

The bodies of Mrs. Manning, daughter of W. A. Lawson, Shelburne, and her five-year-old girl, who were killed in the San Francisco disaster, passed thru Toronto yesterday for interment at Shelburne.

Chicago reports that there are 7000 telegrams from San Francisco and California tied up, and that there are 1000 messages for California dated the 23rd, and 4400 dated the 24th, on the lines.

The business centres and half of the residential section of Santa Rosa were damaged or destroyed. The loss will aggregate \$5,000,000. At least 200 persons were killed, and 200 injured, and 5000 are homeless.

The Canadian Bank of Commerce has received a wire stating that temporary offices will be opened in a day or two by all the banks, who are working together to rebuild the city.

Before the earthquake and fire, arrangements were perfected for the visit of the evangelists, Dr. Torrey and Mr. Alexander, to San Francisco, in October.

Guelph city council has passed a resolution favoring a \$100 contribution to the Frisco sufferers.

Miss Margaret Coleman received word yesterday that Mrs. W. Compton Reed is safe at the St. Francis Hotel in San Francisco.

In a special message to congress, President Roosevelt urges the immediate appropriation of \$500,000 for the relief of the island Navy Yard at San Francisco, in order that employment be given for many in the stricken city; also the necessity for the appropriation of money for the re-employment of an army supply station in San Francisco.
