Rear Admiral Basil Cochrane Writes to The London Times re Grenadier Guards.

SUBALTERNS FAINT UNDER TREATMENT

Whole Subject Will Be Fully Aired in Parliament-Sensation is Promised

London, Feb. 10.-Rear Admiral Basil Cochrane, retired, in a letter published by The London Times to-day. makes astounding revelations regarding the "barbarous system" prevailing among the Guards Regiment for the punishment of subalterns who are found guilty of social or military offences. According to Admiral Cochrane the colonel of one battalion has been in the habit of handing over offending officers to the senior subaltern. The latter summons a court-martial at which the attendance of all the subalterns is exacted, and the sentence is almost invariably flogging. This is administered on the bare back, after the removal of all the clothing, and from six to forty blows with a cane are given with such severity that the number is sufficient to draw blood. All the officers present, even the most intimate friends of the vice tim, are compelled to administer their share of the blows. The admiral cites the instance of a

young officer who fainted after receiving forty strokes, and refers also to the case of his own nephew, who is not named, but who clearly is Captain Leveson-Gower. For an unintentional military fault he was tried and formed. Subsequently, according to flogged. Subsequently, according to Admiral Cochrane, his nephew was punished with great severity by Major-
