But the reason is in the latter instance is, as a rule, that he cannot afford to do so. Every man loves a perfect-fitting suit of clothes, made in the fashion of the best materials. They add to his self-confidence, and to his success in life more than many can suspect. Let the Afternoon Sports Be Held at Queen's Park.

That the committee on the reception of the Old Boys made a mistake last night up to the waist in selecting Springbank as the place of afternoon sports is now generally admitted. The proper place is Queen's Park, and most people would get there all right. There is still time to make the change, which could be announced, for that matter, not only in the newspapers, but at the welcome meeting tomorrow forenoon. There is plenty of time for the change to be made. If the change is made, there will be little or no dissatisfaction, and all will be harmonious. Should the change not be made, the Springbank, or games, part of the programme will lose that elation which is so much to be desired.

Should the committee persist in the Springbank idea, there will be nothing for it but for those who will go there, to go; and for those who conscientiously think otherwise, not to go.

This need not detract in the least, however, from the general warmth of the welcome to the Old Boys in the other parts of the programme for the two or three days of their stay. Let them be welcomed heartily on arriving tomorrow forenoon; and let the attendance and good-will at Victoria Park in the evening be a record-breaker. And let the same cordiality mark the welcome, public or private, on the other days of the Old Boys' stay. For we may say to those of the Old Boys who have already arrived, whatever differences of opinion there may be in London respecting the merits of the Street Railway strike, there are no differences of opinion whatever among our citizens as to the desire to welcome London's Old Boys at Victoria Park, Queen's Park, or any other unconquered place.

There is plenty of time to make the change to Queen's Park—which belongs to the people—and we trust that it will be done.

TWO BROTHERS' FIRST MEETING.
Kingston, Ont., Aug. 4.—The other day two men named Connors—one from Belleville, and the other from Syracuse, N. Y., came to the city to transact business. Accidentally they met in a hotel and entered into a conversation. One was a doctor, and his namesake had a bad case. They adjourned to the doctor's room, and incidentally the doctor, in showing a photograph, remarked: "That is my poor old mother." The other picked it up, exclaiming, "That is my mother, too." and he showed a picture like it. The men were brothers, but had never met. The doctor had been taken by an uncle when three years of age, and had never met any of his family again.

And Distinguished Himself by Open-Handed Liberality.

Panic Prevailed Yesterday in the Glasgow Iron Market.

Trouble in the German Money Market Predicted.

Emperor William to Visit the Queen—Preparations for the Dreyfus Trial.

Alexandria, Egypt, Aug. 4.—M. Geo. Averoff, the wealthy Greek, whose gift of a million francs for the restoration of the Stadium at Athens led to the revival of the Olympic games a few years ago, has just died here in his 70th year.

M. Averoff, who was born in Metsov, Epirus, was a man of almost innumerable charities. When a lad of 17 he became a clerk in his uncle's firm in Moscow, and upon the death of his relative inherited 500,000 francs. This fortune he increased enormously, as a contractor for the supplies needed for the Russian troops in the Crimean war, and later as a banker in Alexandria. He never married. At the outset of the Graeco-Turkish war he won the special gratitude of the Greeks by presenting 40,000 uniforms to the Hellenic troops. In the erection of public buildings in Greece and the maintenance of public charities and other philanthropic interests, he is said to have expended no less than 7,500,000. It was his generosity which made it possible for the Olympic games to be so successfully revived in Athens in 1896. The games were played in the Stadium, which he rebuilt. The lower part was constructed of marble, but owing to lack of time the upper part was finished in wood and painted white. Subsequently the wood of the superstructure was removed and replaced by marble at M. Averoff's expense. On April 5, 1894, the day before the opening of the games, the Duke of Sparta unveiled a statue of the philanthropist, erected by the grateful citizens of Athens. The restoration of the Stadium cost upwards of 3,000,000 francs. In Alexandria M. Averoff built a church, a boys' school, and a girls' school. The teachers in both schools were paid by him. In Athens he endowed and built a boys' reformatory, a military school, and a polytechnic college, which cost more than 300,000. He was unaffected and unostentatious.

ABDUCTION CASE IN BOW STREET COURT.
London, Aug. 4.—Mrs. Wm. Y. Perot, of Baltimore, Md., who was arrested at Liverpool, charged with the abduction of her daughter Gladys, appeared for examination yesterday in the Bow street police court. A deeply interested crowd was present. There was some excitement in the court room when W. H. Perot, the father-in-law of Mrs. Perot, entered, accompanied by Mr. Hodson, of the United States embassy.

Mr. Perot advanced to greet the child, but she hid her face in her hands, muttering: "I don't wish to speak to you."
"But, my child," he replied, "I have a letter from your father, and he sends his love."
The child wept, but did not answer. Mr. Crane, representing the United States embassy, said extradition papers were handed to officials of the British foreign office. Some days must necessarily elapse before copies of the documents could be placed in the magistrate's hands. Mrs. Perot was remanded.

LADY R. CHURCHILL ENGAGED.
Announcement is made of the engagement of Lady Randolph Churchill to Lieut. G. F. M. Cornwallis-West, of the famous hussars, the Earl of Cornwallis-West. It is said that the marriage will occur in October next.

PANIC IN IRON

Panic ruled in the Glasgow pig iron market yesterday, and iron was thrown over to catch any profit. The bears joined in the selling, and on the day Scotch iron lost 3s 3½d; Cleveland and iron, 1s 1½d, and hematite, 3s 7d per ton for cash. Since the top was touched at 35s 7d, Scotch iron has declined 5s per ton; Cleveland, 12s 4½d, and hematite 10s 10½d per ton for cash.

ONE HUNDRED MILES AN HOUR.
Recently interesting experiments were conducted with the Lancashire and Yorkshire Railway Company's latest engine of the new design. On the return journey from Liverpool to Southampton the engine, puffing five of the heaviest smokestacks, left Exchange station at 2:51 p.m., and passed the seventeenth mile-post at three and three-quarter minutes past three (12¾ minutes). But when taking into consideration the time occupied in getting up speed, and the slow round the Ban hall and Waterloo curves, approximately the highest average speed attained would be close on a hundred miles an hour. Such a velocity is both startling and admirable.

KAISER TO VISIT THE QUEEN.
The Daily Telegraph, which announces that Emperor William will soon pay a visit to the Queen, comments editorially upon the fact as "disposing of the rumors that the emperor is trying to form an European coalition against England," and "showing the continued good relations between the two countries." The paper thinks the visit will be "productive in clearing up small misunderstandings." Lieut. Freiherr Von Strembeck delivered a letter to the Queen at Osborne House today from Emperor William.

DOSSIER STILL A SECRET.

The Paris correspondent of the London Daily News says that neither the

prosecution nor defense in the Dreyfus case has as yet seen the secret dossier on which the prisoner was originally convicted. It will be shown to them on the opening day of the trial, and, as it will have to be examined, it may result in an adjournment of the trial for some days.

Major Esterhazy, who is still in London, is making a last desperate effort to raise money by means of alleged disclosures. Several of his agents are trying to get the newspaper correspondents to pay £300 for what is described as the original bordereau and letters from army officers, showing that they directed the Dreyfus conspiracy. Nobody has yet offered even 800 pence for the documents.

VENEZUELA'S CLAIM

At the Anglo-Venezuelan boundary commission's session, M. Malet-Prevost, the secretary of the commission, resuming his presentation of the Venezuela case, further urged the claim of Venezuela on the Barila River, disposed of the Dutch and English maps, which had been produced on behalf of Great Britain, and which, he declared, were erroneous in many particulars.

PANIC PREDICTED

Berlin, Aug. 4.—The Deutsche Tages Zeitung publishes a sensational article, predicting a great panic in the German money market. The paper said that during the last six months 1,585,000,000 marks of new shares were issued, of which 518,000,000 marks were industrial securities, which, it is added, exceeds the whole issue of 1898. A mass of evidence is quoted to prove the existence of unusual speculation.

"LORD" PAUNCEFOTE

London, August 4.—The British ambassador to the United States assumes the title of Lord Pauncefote, as a result of his elevation to the peerage. He is still considering what territorial style he will take. The ambassador returns to The Hague shortly, to complete some peace details there, and will start for Washington in October. He will finally retire from the diplomatic service in March or April next. Lord Pauncefote expects to renew the Alaskan negotiations, which have been suspended during the hot weather, on his arrival in Washington.

40,000 MEN

Philippine Army To Be Substantially Reinforced.

Washington, Aug. 4.—It appears probable from developments during the past two days in the war department that Secretary Root has in contemplation an army of quite 40,000 men for the Philippines.

While Mr. Root has been at the head of the department only a brief time he has been making diligent inquiries among the bureau chiefs regarding supplies and equipments, and the trend of his questioning has been in the direction of an increase in the available force in the eastern archipelago.

SHEEP AND CATTLE MEN AT WAR

Cheyenne, Wyo., Aug. 3.—Northeastern Colorado is the scene of a war between sheep and cattle men. On Monday last four horsemen, carefully disguised, rode into some large flocks of sheep which were being grazed along Two-Mile Creek, about 24 miles from Sterling. The men were well armed, and killed 150 sheep and crippled 25 more. It is reported also that two sheep herders were badly beaten, but this cannot be verified.

ANOTHER STRIKE IN CLEVELAND

Giving the Street Car Situation Another Tangle.

Fifty Non-Union Men Go Out—Were Promised \$2 a Day and Free Board, and They Want It—The Chicago Building Trade Trouble.

Cleveland, O., Aug. 3.—The Big Consolidated Street Car Company has another strike on its hands today. Fifty of the non-union men went out and are busy perfecting an organization, and trying to induce others to go out. The men say that when they were imported they were promised \$2 a day and free board, to be continued "while the strike lasts."

On Tuesday at the Wilson barn a notice was posted to the effect that "since the strike is practically over, the employees will hereafter be charged \$3 for a 21-meal ticket." That meant a cut of \$3 per week in wages. The non-union men were mad. They hurriedly appointed a committee to wait on the barn bosses. After some dickering the meal tickets were offered at \$2 instead of \$3. The men insisted that the strike is a long way from being over, and that the company was therefore breaking its agreement in charging for board.

The feeling grew until today, when 50 of the men refused to take out their cars. The three lines were tied up until men could be sent from other barns, where the notice had not been posted. The non-union men were busy engaged today in trying to induce the other men on the three lines affected by the order to strike with them.

An explosion occurred tonight under a Jennings avenue car, on which there were six passengers. It smashed the frame of one of the wheels and splintered the running-board at the side. The passengers were badly frightened, but none were injured, and the car finished its run.

Cleveland, Ohio, Aug. 4.—In addition to the attempt to blow up the Jennings avenue car on the south side, last night, reports received at police headquarters show that cars were stoned in various parts of the city, although so far as learned, no person was injured. On Pearl street, near Myers avenue, a number of heavy stones fell on a
