London's Victory Loan total went rocketing up Monday, when the team-workers turned in \$287,850, and called it a day's work. This boosted the city's total to \$4,500,150. The canvassers are not to make a grandstand finish, and are working hard to make London's share more than a bite or two.

The county workers are beginning to hum round, now that the snow is on the ground. Monday's result was \$100,450, making the county of Middlesex total \$1,127,450.

Today the Ontario Commercial Travelers' Association brought the objective still nearer by taking out brads to the extent of \$58,000. Of this amount \$25,000 was new money, the remainder being part of former loans.

John Duckworth, Grimsby East, A Conspiracy and a Farce

It is more manifest every day that Sir Robert Borden's sudden adoption of conscription was made with the deliberate purpose of putting Sir Wilfrid in a hole, and then by a false appeal to the patriotism of the people obtain an extension of power for

He and his followers had only one song as a justification for returning them to office-the need of immediate help for the boys at the front."

Now we have the minister of militia distinctly announcing at Dundas: "We don't intend to call up 100,000 men all at once and clean out the country, but in the first draft we hope to get probably 25,000." Frightened by the opposition in the farming districts he now promises exemption from military service to farmers' sons save in rare cases.

If, as he says, 100,000 men will not be called out at once and so "clean up the country," and only 25,000 are hoped for in the first draft, what a farce the whole thing becomes.

Canada has been set on edge under false pretences; the immediate relief of the men at the front is not the real issue.

The real issue is whether the Government is to get another lease of power controlled as it is by Sir Joseph Flavelle, still in office, by Sir Edward Kemp and Sir Thomas White, the representative in the Government of the Mackenzie & Mann interests. Nine-tenths of the Quebec constituencies are rural; this declaration of the minister of militia means that nine-tenths of that

Province are to be exempt from conscription. The Government's sole object is office. Frightened by the opposition found everywhere in the rural districts the minister of militia in order to secure votes, pledges himself to exempt the GREAT FLOW OF WHEAT farmer and not to "clean out the country."

The other day it was "the last man and the last dollar" now it is "don't vote against us, farmer, we don't intend to take you, the 25,000 are to be taken from the cities and towns.'

The Government are now promising exemption to farmers sons solely because they are frightened of losing the rural constituencies. What confidence can be placed in any of their professions? Does anyone think that 100,000 can be taken from the cities and towns without "cleaning out the country"?

SLIGHT INCREASE IN DRESSED HOGS MADE **ON LONDON MARKET** 

Trading on the local market continues slow, particularly in vegetables and outcher's meats. Live hogs are unhanged and in good demand. Dressed hogs advanced as high as \$22.50 in some instances, although the prevailing price was \$22. The slight jump in dressed ork prices is a result of advances regisred in live hog values last week. Adnces in live hogs are expected next leek, and will likely continue through-

London is in the grip of a coal shortage, which nearly approaches a famine, and is not likely to be alleviated until at least the end of the week, according to reports of coal dealers today. Coal supplies in the city are barely sufficient to meet the daily demands which are made on London's score of coal yards. One dealer reported that nine cars of coal head arrived today, but he was not sure which yard had obtained it. Many of the coal men are unable to take any further orders, and others have no hard coal and only a little soft and grate coal men are unable to take any for the regular customers and for this reason are not able to take or orders from citizens who have not bought from them previously.

Several citizens who have not bought from them previously.

Several citizens state that they have datempted to order coal from every dealer in town and have been refused. The Soldiers' Aid Commission has had more than a score of applications from London is in the grip of a coal short-out the winter.

Officers found this possible until Saturday when coal dealers were forced through the shortage to refuse their orders.

The Soldiers' Aid Commission has had more than a score of applications from soldiers' families alone. Few of these of chickens will not take place much before the 15th of December. During the two weeks preceding Christmas the demand for poultry will no doubt be the most brisk of the season, and it is in anticipation of this that farmers and poultry specializers are holding their stock.
