Mr. and Mrs. H. C. Osborne, have taken a house for the summer at Fort Carling, and leave town on Friday.

J. J. Dixon has gone to England with the bowling team.

Judge and Mrs. Cassels and family will leave for Caouana in the early part of July. Miss Brough will return from Goderich in the early part of next week...

A fashionable wedding took place at the residence of Mrs. R. R. Fulton of Woodstock yesterday afternoon, when her youngest daughter, Florence H., was married to Mr. E. H. A. Watson...

The predominance of the Mackenzie and Mann interests in the Niagara, St. Catharines and Toronto Navigation Company became evident yesterday when it was announced that D. P. Hanna, vice-president of the C.N.R., had become president of the company...

The development is simply the outgrowth of a move made in Jan., 1905, when Canadians purchased the United States holdings in the company, which was formerly an international affair.

CRAZED BY DISASTER

Resident of Three Rivers Loses His Mind From Grief. MONTREAL, June 24.—(Special.)—Shocked by the fate which has befallen his native town and the losses sustained by his family, Elderice Bouille of Three Rivers has gone suddenly insane...

Premier Gouin was interviewed by the young man's mother, and has suggested that the cabinet will consider the case. MARCH THRU FIRE. Ceremony of a Sect of Brahmins in Honor of Gods of Fire and Water.

Six thousand Hindus and a select few English officials have recently witnessed in the neighborhood of Madras a remarkable religious ceremony, the priests being Solivastras, a sect of Brahmins.

The festival was called "the march thru fire," and the proceedings were enough named. The ceremony had been going on for a month, says the London Globe. A trench 23 feet long and 19 feet deep was dug, and in it a bonfire was kindled of fanatics, who were to demonstrate their asbestos nature, slowly marching around the furnace bearing the curious idols...

After walking around this artificial Gehenna three times Mr. Gouin apparently none the worse for their experience, and have established an unassailable claim for sanctity among their people. DEATHS IN THE CITY. Deaths registered at the city hall yesterday were: Ashton Worthington, 17 years, rheumatism; Jane Barlow, 75 years, apoplexy; Dorothea Flavell, 84 years, old age; Norman Davidson, 1 year, scarlet fever; Hildreth Davenport, 11 months, convulsions; George Taylor, 55 days, indigestion; Charles Beatty, 4 months, hydrocephalus; Harold La Plante, 17 years, tuberculosis meningitis; Mrs. Margaret Kirwin, 54 years, nephritis.

MUNICIPAL COUNCIL APOLGIZES FOR LIBELING MR. BURCHILL. LONDON, June 24.—(Special.)—The Manchester City Council has made a public apology for printing a letter suggesting that Winston Churchill broke his parole in escaping from a French prison. The paper pays Churchill £300, which he will divide among the various charities.

ST. JOHN'S ANNUAL PICNIC. The annual picnic in connection with St. John's Church is to be held on Saturday next, June 27th, in Whitton's Broad. The Brocton brass band will play selections during the afternoon and evening. A special car will run south from the York Mills power house at 9 p.m. The business of the "Salada" Tea Co. goes on increasing in the most wonderful way. A year never passes but at least 135,000 people are added to the consumers of that delicious tea.

FATHER-DAUGHTER BENEFIT RINGWORM AND ECZEMA CURED BY ZAM-BUK

Miss Wilhelmina McCharles of Powassan, Ont., writes: "I have procured Zam-Buk a healing balm for eczema. My father had it very bad on his hands and they were swollen very much. One night he decided to try Zam-Buk, which I could only remove until I tried Zam-Buk. This removed the Ringworm in a very short time. In the morning father's hands were very much improved. The eczema is now all gone. I hold Zam-Buk in high esteem as a healing balm."

MEAT AND MILK PRICES

raisers better to clear out their stock rather than to feed the cattle for the beef market. Those who bought feed and turned out a high grade quality of beef naturally had to charge a high price. "A second cause," said G. H. Waller & Son, "is the scarcity of good beef in the United States and in Great Britain. Chicago and English cattlemen are still buying up choice Canadian cattle. The Americans can get cheaper prices for their stock, and consequently they can afford to offer Canadian cattle-raisers a much higher price than the market will bear."

The Canadians are charging 20c per pound for choice cuts of sirloin and porterhouse steaks, and although this is not quite so high as the American price, there is no chance of lower cost until the grass is at its best in August. Besides, at present the price is high for steaks and other choice cuts, and all the steaming parts of the beef, for which the butchers must pay a high price, have to be thrown away or thrown away. Consequently, the price of the choice cuts must be raised in order to cover the loss on the steaming parts.

When asked why it was that lamb would soon get cheaper, G. H. Waller said, "The price of lamb will be cheaper by the first week of August, when the grass will be at its best, but before that, now, lamb has been dear, and present is the best time to buy wholesale; the best cuts retail at 80c a pound. But lamb will soon be cheaper because in July, the lambs will be mature, while in the case of cattle sufficient quantity of good grass will not be available until August. In general it may be said that the price of beef will not change before the fall, when it looks as if it would be lower. If, however, the Americans are compelled by scarcity of feed and cattle to buy Canadian stock, this will outweigh the effect of the grass. There is plenty of fodder and still keep the Canadian prices high."

The World also interviewed Thomas Price, manager of S. Price & Sons' Dairy on East Queen-street, as to the cost of milk. Mr. Price said: "Milk will go any higher. Some people thought that the price of milk ought to go down in summer, because, as they opine, cows are at pasture, which means that good feed is cheap. This," said Mr. Price, "is true only in farming districts, which produce cheese factory milk. In other parts of the city, the cows must be fed on meal if they are to produce a high grade quality of milk. The price of milk is therefore, the price of the feed. The price of feed is high, and the price of milk is high. The price of milk is high, and the price of feed is high. The price of milk is high, and the price of feed is high."

CHATHAM, June 24.—(Special.)—Blood poisoning, caused by the picking of a thistle in the finger of his left hand, a few weeks ago, has resulted in the death of Donald Johnson, one of the most respected residents of Harwich Township. A few weeks ago he accidentally ran a thistle in his finger. A day or so later he was pulling mustard and he thought that the thistle would get out. The thistle was not out, and he died. He was 66 years of age and leaves a wife, one son and one daughter.

MESSRS WANN AND MOORE CALL ON PREMIER WHITNEY. D. D. Mann, W. H. Moore and Gerard Rudd of the C.N.R., were at the Parliament Buildings yesterday. A conference with the attorney-general was held in which the proposed bill and guarantee was discussed. It is to be noted that the legislation on this matter was permissive, and that Premier Whitney recently stated that no actual guarantee had yet been made.

LONDON, Ont., June 24.—(Special.)—As a result of swallowing a Canadian Cent, little Beatrice McKay, a three-year-old girl of this city, is in a serious condition at the Victoria Hospital. An operation will probably be necessary. PHONES FOR DESPATCHERS. MONTREAL, June 24.—(Special.)—That the telephone will supersede the telegraph for the work of despatches on railroads is the prediction of the superintendents in convention here. In six months 6000 miles of wires have been installed in America and officials are enthusiastic over the results.

AN UNKNOWN PEOPLE. Strange Race Which Inhabits Country South of Tibet. In spite of the activity of explorers for many centuries past, says Leslie's Weekly, there are still portions of the globe that are very little known to the outside world. A country called Ta-Liang-Chang, just south of Tibet, had never until a little over a year ago, been penetrated by a white man. Recently Capt. D'Olone, a prominent French traveler, has returned to Paris after a visit to the hitherto almost unknown land. Its inhabitants are called "Lolo," and so far as historical records go, they have always been independent. Efforts to subdue them have often been made by the Chinese, but the troops of the latter have invariably been defeated and many of them captured and made slaves. The Lolo are good fighters, but in maintaining their independence they have been highly favored by the nature of the country. Ta-Liang-Chang is said to be the world's largest natural fortress. It is bounded on the north by a river which cannot be crossed, on the south, west and east by lofty mountains, with very few passes.

Capt. D'Olone regards the Lolo as the most civilized of the Tibetan races. He says that they are the only half-civilized people that he has ever met who have a scientific system of hygiene, and a system of ethics much like that set forth in the Sermon on the Mount. The Lolo live in well-ventilated houses and make a great point of bodily cleanliness. They are brave, polite, true to their promises, and take respect for foreigners whom they like. The origin of the Lolo is unexplained, but there is evidence that they are a branch of the Chinese. Their features are regular and almost Grecian in type.

THE DANGEROUS TIME OF LIFE. is between the years of 57 and 62. Nature's power slows down, vitality becomes less, and the process of decay sets in. A means of extending old age is the Brocton Tea Co. Their tea is made from the finest tea leaves, and is a most delicious beverage. It is a most efficient means of extending old age. The Brocton Tea Co. is a most efficient means of extending old age. The Brocton Tea Co. is a most efficient means of extending old age.

ENGINE SCORED NOTABLE RECORD OF LONG SERVICE

Was on Duty for 166 Hours Continuously and Pulled Train 2107 Miles. SPOKANE, June 23.—Engine No. 384, on the North Coast Limited train, operated by the Northern Pacific Railway and driven by John A. Miller and M. Clement, engineers, of Spokane, Wash., scored a notable record by being in continuous service 166 hours and 25 minutes during the recent floods in Montana, when it pulled a train of nine coaches over six lines a distance of 2107 miles between Spokane and Fargo, N.D., and thence to Billings, Mont.

The 17 marooned passengers were cared for by Conductors Harry C. Peck and H. P. Litchfield of Spokane, who were assisted by E. C. Bradley and M. O. Lee, brakemen of the coaches. The passengers presented a purse of \$100 to the crew. Part of the train left the track because of spreading of rails in more than one place, and the passengers believed they were being carried into the raging torrents, as the sides of the coaches scraped the hanging banks in cuts, but no mishaps followed. The alkali water ruined the boiler of the locomotive, which had to be abandoned, and the engine was pulled into a house for general overhauling and will be put into service in a couple of weeks.

Safe From Fire Hazard

It is with special care for protection against fire that the water tank on the new building of the Robert Simpson Co., Limited, will be placed in the sub-basement. The danger of a water tank on the roof is obvious enough. They are usually made of wood and in time decay, and unless well painted and properly repaired, a tank of this sort may fall apart and do considerable damage. The big tank in the new building of the Robert Simpson Co., Limited, will be fitted with Greenall sprinkler heads, so that in case of a fire the heat will melt the head and automatically set the engine going. This means that there will be 100 lbs. instantly turned on the pipes leading to the sprinkler head, and that a nine foot spray within a few seconds will be playing upon the blaze. This is only one of the means by which the new building of the Robert Simpson Co., Limited, will be kept safe from fire hazard.

THISTLE KILLS HIM

Farmer Gets Blood Poisoning While Weeding. CHATHAM, June 24.—(Special.)—Blood poisoning, caused by the picking of a thistle in the finger of his left hand, a few weeks ago, has resulted in the death of Donald Johnson, one of the most respected residents of Harwich Township. A few weeks ago he accidentally ran a thistle in his finger. A day or so later he was pulling mustard and he thought that the thistle would get out. The thistle was not out, and he died. He was 66 years of age and leaves a wife, one son and one daughter.

ALWAYS, EVERYWHERE IN CANADA, ASK FOR EDDY'S MATCHES. Eddy's Matches have hailed from Hull since 1851—and these 57 years of Constant Betterment have resulted in Eddy's Matches reaching a Height of Perfection attained by No Others. Sold and used everywhere in Canada.

FRIENDS' CHURCH BURNS

Pickering Landmark Destroyed During Tuesday Night's Storm. Another old landmark in Pickering village has succumbed to the flames. During the electric storm early this morning the old Friends' Meeting House on the hill just at the eastern entrance to the village was struck by lightning and entirely consumed. The yearly meeting had just finished its sessions, and delegates from Canada and the States were preparing to depart. The building was of solid brick, 80 x 40 feet, and built in a most plain and substantial manner. The roof was unsupported in the centre and carried the weight a large amount of solid pine girders were used. It was built about 45 years ago by the Canada yearling of Friends. The pine lumber used was the very best and could not be duplicated in Ontario now. Besides the loss of the building, a library of about 600 volumes was destroyed. Insurance of \$1000 was held on the building, the walls being solid brick, are apparently unharmed. Benj. Wood, a minister of the society here, says that in all probability it will be rebuilt at once.

Superfluous Hair

Holez, Warts, Birth Marks and Red Veins permanently removed by Electrolysis. The FOSTER INSTITUTE, 1450 St. Charles Street, Montreal. JAPS FOR THE INTERIOR. Government Will Be Advised to Proceed with Colonizing on Coast. ST. PAUL, Minn., June 24.—The Pioneer Press today prints an interview with Baron Kagura Takahashi, who has been investigating the Japanese situation in the United States and Canada for the Mikado's government. "My report will state that the collection of Japanese immigrants in the cities of the Pacific coast is detrimental to friendly relations between these two countries and is actually in some cases an intrusion, so far as concerns the Americans who labor on the fisheries and rights of the people who already inhabit this country. My report will advise that immigrants reaching the coast of America be compelled to have in reserve sufficient money to take them across the Rocky Mountains and into the agricultural regions of the middle west."

PHILADELPHIA RECORD

The degradation of the suffrage record for the country when the vote of organized laborers, or the vote of unorganized laborers, or the vote of organized or unorganized employers, or the vote of any religious sect, or the vote of naturalized citizens of any particular nationality, can for a stipulated consideration be delivered to either one of the political parties of the country. When the individual voter ceases to act upon his personal convictions as to right and wrong in determining the policies of the government, and turns over his ballot to be made an object of dicker at the hands of persons beyond his control, he becomes himself a menace to the public welfare. He has given his pearl to the keeping of swine.

OTTAWA, June 24.—(Special.)—The heavy rains which have been experienced in this locality during the past few weeks have proven a great benefit to the crops. Hay has commenced and it is a fine crop. The strawberry crop has been very light on account of the early dry weather. The oat and barley crops are at present much in need of rain. Civil Service Outing. The first annual outing of the post-office inspector's staff here took place yesterday afternoon at the Humber. After a most pleasant paddle on the river the jolly company resorted to Mrs. Taylor's restaurant, where they heartily enjoyed one of the famous fish dinners, served on the balcony.

CHATHAM, June 24.—(Special.)—Officer Deezilay yesterday arrested George Heart on a charge of attempting to assault a six-year-old English girl. Two eyewitnesses are prepared to testify to the crime.

FAIR BUILDING DESTROYED. BRANTFORD, June 24.—(Special.)—Lightning struck the main building at the Indian Reservation fair grounds at Oshawa yesterday. A fire resulted, and despite the efforts of the Indians the structure was destroyed.

Liver Pills. It is impossible, simply impossible, for any one to enjoy the best of health if the bowels are constipated. Undigested material, waste products, poisonous substances, must be daily removed from the body or there will be trouble, and often serious trouble, too. Ayer's Pills aid nature, that is all. J. C. Ayer & Co., Lowell, Mass. Ask your doctor if he knows a better pill for a sluggish liver than Ayer's Pills. Then follow his advice.
