**ALDERMEN MAKE CITY RESPONSIBLE FOR COSTS**

Add Corporation as Parties to Suit to Compel Mayor to Sign Power Agreement.

HAMILTON, July 31.—(Special.)—The city council had a special session this morning and, on the motion of the Catearact clique, the city was added as a party to the suit of H. C. Beckett to compel the mayor to sign the Catearact power by-law. This action will render this city liable for part of the costs. Aid. Sweeney made the motion. Aid. Farmer, McLaren, A. Z. Wright and Jutten argued that Mr. Beckett should indemnify the city against the costs, but they were voted down by the Catearact aldermen. Aid. McLaren remarked that he was worthy of notice that a short time ago the Catearact Company was seeking to get a contract from the city, and now the city, by its action to-day, was seeking to force the agreement on the company.

Mayor Stewart said he would give \$500 to clear up if the Catearact organ could prove by the case they were citing that he exceeded his powers when he declined to put a motion deposing him from the throne when the by-law was passed, and he offered to let Hon. S. H. Blake be the judge.

On motion of Aid. McLaren it was decided to present an illuminated address to Bobby Kerr, and the finance committee will meet Saturday afternoon to draft it.

Apology Settled. The charges against Thos. Fisher, a West Flamboro farmer, for writing indecent letters about his former sweetheart, Edith Riley, were dismissed in police court this morning after he had signed a letter retracting and making a humble apology.

Wills covering estates valued at \$99,000 were filed for probate this morning. Among them was the will of the late Hugh Gillespie, who left \$27,222. The revenue goes to his widow during her life and will then be divided amongst his three children.

William Denman, one of the veterans who made the famous march to Kandahar under Lord Roberts, fell in a fainting fit this morning while at work on the Terminal freight sheds.

Several of the benevolent societies are talking of buying the old Central Church property and turning it into a hall.

The Trades and Labor Council will enter a protest against the suggestion that prisoners be employed in the western wheat fields, and will ask other organizations through the Dominion to join in the protest.

**TORONTO TO BE NO HAVEN FOR MEN WHO WON'T TOIL**  
Aldermen Decide to Adopt Well-Organized Plan for Dealing With the Needy.

Controller Spence's special committee to deal with the question of the unemployed in preparation for the problem to be faced next winter, got down to work yesterday afternoon.

In the discussion, there was unanimity of belief that a much more systematic method was required, and concurrence with Controller Spence's opinion, that it should be made clear to all and sundry that Toronto was no Mecca for the undeserving poor, and that able-bodied men would have to work.

Another view expressed was that there should be a headquarters where reports or the number of needy persons should be made weekly.

As a first step in co-operation with the various charitable organizations, it was decided to submit to each a number of questions, the answers to which will form a basis for future work. The organizations are to be asked whether they expect an unusual extent of indigence during next winter, and, if so, what plans they have to suggest. Another query is as to the best method of dealing with overlapping and providing for the necessities of persons in much need of help.

The suggestions are also invited along these lines: (a) To discourage employment by citizens to persons willing to work; (b) what should be done to check emigration of people without means and not informed as to the poor prospect of obtaining employment and the severity of the Canadian winter.

Hunt for Co-Coons. The small boy is not slow to avail himself of the chance to make a little ice cream money by gathering in tussocks on the erection of Welch's new street bridge and the construction of sidewalks was defeated by a majority of 17.

Arrangements have been made for the boys to bring their spoils to the following places: To Superintendent Good, at Riverdale Park; Superintendent Collins, at Allan Gardens; Superintendent McPherson, at Alexandra Park; Superintendent Potter, at Exhibition Park. The name and address of each boy will be taken and the amount he collected, and the money will be forwarded to him later on.

Blocked Crossings. James Osborne, general superintendent of the C.P.R., has replied to the mayor's letter concerning the blocking of the Yonge and Bay-street crossings. Mr. Osborne says that the arrangement under contemplation is that the Grand Trunk and its passenger car switching at the west end and the C.P.R. at the

**Ontario Ladies' College, "TRAFALGAR CASTLE," and Ontario Conservatory of Music and Art, WHITBY, ONT.**

One of the most popular and successful Ladies' Colleges in Canada to-day. The secret of this continued and growing success is the special advantages that it offers to students of a social, moral and educational character that are being generally recognized and appreciated.

The Musical Department is in affiliation with the Toronto Conservatory of Music and follows precisely the same course of study in piano, pipe organ (Mr. Harrison) vocal (Mr. Elight); violin and theory, (Miss Archer, Miss Bac). Last month four piano students who received their training and graduated at the college, graduated also at the Toronto Conservatory, winning second and third places in their graduating class.

The Art Dept. has at its head the well-known artist and teacher, Mr. F. McGillivray Knowles, R.C.A., who gives one day a week to the work of the Dept. and who is assisted by a clever resident teacher. Special attention is given to outdoor sketching and painting, to which the beautiful surroundings of the college so well contribute.

The Dept. of Oratory is under the direction of Miss Teskey, honor graduate of the Emerson College of Oratory in Boston, and one of the most gifted and successful teachers of oratory.

The Commercial Dept. is sustained by two Commercial specialists, graduates of business colleges, whilst the Dept. of Domestic Science, one of the most important, receives inspiration and instruction from two specialists, both graduates from the Pratt Institute, Brooklyn, N.Y., thereby offering students the choice of the housekeeper's course, or the full Normal Course accepted by the Education Dept. of Ontario for the training of teachers.

In Study Enquiries Study the college catalogue, no superior in this country, whilst the buildings and grounds are unequalled. The Home Life is exceptionally pleasant as well as intellectually bracing. One hundred and one acres of land in connection with the college, provide extensive lawns, play grounds, toboggan slide, etc., a large orchard of choice fruit to which students are freely admitted, plenty of fresh vegetables from college garden, and a well equipped and abundant supply of good milk and cream.

The College stands in a class by itself, nothing like it, nothing equal to it in this country. The advantages of other schools may be higher, but the advantages are not as great. Look over Sept. 7. Send for calendar or apply at once for prospectus to Rev. J. J. Hare, Ph.D., Principal.

**The School for Your Son or Daughter**

In our discussion of the factors that make a good school, we noticed last Saturday the fundamental importance of good teachers. To-day we call your attention to the matter of the spirit and aims and ideals of a school.

WOODSTOCK COLLEGE and HOULTON COLLEGE were founded as essentially Christian schools. Their aim is to minister to the best in the student's life, to set forth the highest ideals, to inspire an ambition to strive for these ideals. The careful, thorough work in the classroom, the placing of the student on his or her honor, the personal attention to each student, the daily chapel service, the study of the Bible as part of the regular classwork, the interest in missions and in philanthropic work, the regular talks on matters of conduct—all these are essential features of our schools.

Here is one place a residential school has a great advantage over other schools. Would it not be a good thing for your son or daughter to share in the advantage?

**STORMS IN THE TYROL.**  
Serious Loss of Life and Property by Rain.  
VIENNA, July 31.—A series of terrific thunder and rainstorms have caused destruction and heavy loss in the Austrian Tyrol. The Bukowina district and the Ziller Valley suffered especially. The loss of life has been heavy.

Corpses are floating down the swollen streams and houses and structures have been washed away. The death toll in the Bukowina is said to be 50, while in the Ziller Valley 20 persons have lost their lives.

The Village of Mehr, near Braxlegg, has been overwhelmed by a landslide and 16 persons are reported killed.
