SITUATION IN FRANCE

PARIS, May 7.—The attorney-general began proceedings in the tribunal de Seine this afternoon for the dissolution of the postmen's syndicate.

As soon as this is done, the organizers of the movement will be subject to heavy fine and imprisonment if they persist in meeting.

The newspaper of this morning, with the exception of the extreme socialist organs, are unopposed in their denunciation of the step taken by the association of state employes.

Despatches received here from Havre, Lyons and other cities say that the strike of the telegraph and telephone employees' association has voted in principle for a general strike.

POWER LINE REPAIRED SERVICE DISLOCATED

Beamsville Farmer Electrocuted by Coming in Contact With Fallen Wire.

As a result of the electrical storm early Friday morning the transmission system of the Toronto and Niagara Power Company was considerably disrupted, and repairs were not completed until late yesterday afternoon.

The power was again interrupted last night, the damage done to the power line in Toronto was repaired, and the service was restored.

Superintendent W. B. Boyd of the Toronto and Niagara Power Company stated last night that the main source of trouble was at Beamsville, where one of the large cables was struck by lightning and grounded, the damage to the transformer in Toronto was slight.

The system is now in first-class shape, said Mr. Boyd, but no transference of power is ever impervious to lightning shock. The Toronto and Niagara Power Company has the best lightning arrestors at the different stations have reduced the trouble to a minimum. Compared with other large companies have experienced, the Toronto and Niagara Power Company is considered fortunate, and consumers of power in the city are said to be inconvenienced than those in other places.

HUMBER BAY. Officer Makes Grosses Discovery While Patrolling Lake Shore.

HUMBER BAY, May 7.—(Special.)—While County Constable George Simpson was walking along the lake shore to-night, about 100 yards west of the Humber bridge, he noticed two little children playing with what they regarded as a big doll. On examining the body of a baby apparently about four months old. The body had evidently been washed up by the waves and was slightly decomposed. It was taken in charge by the officer, and Dr. Godfrey was notified. An inquest will probably be held.

Why I Recommend Dr. Williams' Pink Pills

The Particulars of a Remarkable Cure Told by a Presbyterian Clergyman—The Sufferer Brought Back From Death's Door.

St. Andrew's Manse, Cardigan, E.E.I., Jan. 1908.

Though I have never been sick myself, and have not had occasion to use Dr. Williams' Pink Pills, I thought you ought to know of the result of my own experience. I have brought in Mr. Olding's case.

During a visit to my home in Merioneth, N.S., some years ago, I was grieved to see my next door neighbor and friend, Michael Olding, very feeble. "He is not expected to live," my informant told me, "but you must go and see him as he is liable to pass away at any moment."

Mr. Olding had for years been afflicted with asthma and bronchitis, but now a complication of diseases was added to his system. He had been confined to his bed for months and was reduced to a skeleton.

Now, the burden of his conversation with the greatest difficulty, and seemed to realize that it was the beginning of the end. His feet were swollen to twice their natural size, and the cold hand of death was upon his brow. "It's no use," he said, "but I have tried every medicine I can get, and I am going down rapidly."

Three years later while on another visit to my mother's, Michael Olding was seemingly in better health than I had ever seen him. In sheer desperation he had asked his wife to get him Dr. Williams' Pink Pills. His appetite and strength began to improve, and to the astonishment of his family and friends he rapidly regained his health.

Now, the burden of his conversation with the greatest difficulty, and seemed to realize that it was the beginning of the end. His feet were swollen to twice their natural size, and the cold hand of death was upon his brow.

Mr. Olding himself, as well as his neighbors and the writer of this letter, very truly believe that his rescue from the very jaws of death—seemingly so near—was due to the timely and continuous use of Dr. Williams' Pink Pills.

EDMUND OPPORTUNITY DEMAND OF UNIONISM

President Gompers and Secretary Morrison Address Meeting of Toronto Workingmen.

"Absolute equality of opportunity" was the demand of President Gompers of the American Federation of Labor at Association Hall last night, when he addressed a gathering of union men and women.

President Gompers presented a striking appearance, but his black skull cap, white vest, and Federation badge were immediately lost sight of when he impressively challenged the judgment of the public on the acts of the American Federation of Labor.

Mr. Gompers was accompanied by Secretary Morrison of the Federation, a native of Walkerton, Ont., who outlined the progress of trade unionism in America. One of the corner stones of the trades union movement, he said, was to refuse to take the place of others at less pay.

Organized labor would not rest until each child had equal opportunity to secure a happy and contented life, employment, education and recreation.

Defending himself against the attacks of his enemies, President Gompers said some moral derelict was held up as the model of a baby apparently about four months old. The body had evidently been washed up by the waves and was slightly decomposed.

There was inscribed on the banner of labor, the humane, the scientific, the divine motto, "Eight hours' work, eight hours' rest and eight hours' recreation." Canada was supposed to be a land without a statute book surrender the right to strike.

The minister does not go on strike," said Mr. Gompers, "and I presume he belongs to a union; but he belongs to his medical council. The lawyer belongs to his law society, and the walking delegate in the law shop. There is not a more rigid example of the closed shop than the profession of the walking delegate in the law shop."

The local legislature was represented by Hon. Dr. Fyne and T. R. Whitehead, M.L.A., while shortly after 9 p.m. cheering loud and long announced the arrival of the national strength. He advocated the development, than which nothing he thought could be more useful to Canada, of a collection fund for the establishment of five more preparatory schools in prairie centres.

B.C.C. OLD BOYS HOLD RE-UNION

Eightieth Anniversary of the School Celebrated by Dinners in Toronto and Ten Other Cities.

Mirth and jollity supreme marked the banquet with which the Old Boys' Association of Upper Canada College celebrated the 80th anniversary of the old school. It was an old boys' gathering, and it was carried through with all the "camaraderie" that only the old boys can give.

The speeches were largely historical and reminiscent. Lieut.-Col. Bruce, in response to the same toast, spoke of the great debt that Canada owes to that fine old soldier, Sir John Colborne (afterwards Lord Seaton), who founded U. C. C. in 1829.

George Tate Blackstock, the not on the program, responded to an overwhelming appeal with a brief speech, bristling with witty anecdotes.

Controller Gery, in proposing the toast of the principal and masters, past and present, paid well deserved tribute to the "Arch" Young, old boy, head boy, old master, "one who has helped us in the making," and to "Old Gen." John Marland, "a model for all Upper Canada boys, the type of English gentleman, probably the greatest of the progress of the college and the achievements of the past few years."

When the name of U. C. C. boys was called, 285 boys were in attendance. In the last year, there were 30. The quality, he felt sure, was up to that of former years. In these years, he had had two Rhodes scholars. He referred to the athletic prowess of the old school and touched on the flourishing condition of the company.

Kidney Comfort in Old Age. When old age creeps on it is usually derangements of the kidneys that cause discomfort and suffering. The kidneys seem to play out over the other organs. You know of this by the backache, pains in the limbs, deposits in the urine, frequent urination, and pain and smarting when passing water.
