BAUER CABINET SAID TO HAVE RESIGNED

Message From Berlin to Paris Says So
Kaiser Said to Have Withdrawn Money From Swiss Bank and It is Reported to Have Been Sent to Germany Before Revolt—The Wesel Situation.

Paris, March 26.—(Havas)—The German cabinet, headed by Premier Bauer, has resigned, according to a message received here from Berlin today.
Kaiser's Money in It.
Geneva, March 26.—Former Emperor William of Germany withdrew deposits amounting to 250,000 Swiss francs from a Zurich bank early in March. It is learned here, and the money is said to have been sent to Berlin just before the attempted revolutionary revolt led by Dr. Kapp and General Luetwitz.

The German mark is now quoted at ten centimes and the sum withdrawn from the bank would represent quite a snug fortune in Germany.
FIGHT EAST AND WEST AGAIN.
Wesel, March 26.—(By the Associated Press)—The fighting at Wesel, which ended ten o'clock Wednesday night, began again yesterday morning at ten o'clock and lasted for an hour and a half. Both forces then took a long and comfortable luncheon and hostilities were renewed at two o'clock. They were virtually finished at 4:30.

Traffic across the Rhine is still at a standstill, because the workmen on Wednesday night directed their fire toward the eastern end of the bridge at Wesel and continued yesterday morning at the exposed highway and the small city bridges leading into the town.
The city is quiet. Not more than five persons are allowed to gather in the streets in groups. Buses are going on normally and there is plenty of food, although no trains have arrived here for three days from the north because of unsettled conditions between Wesel and Munster.

Goths Occupied.
Coblenz, March 26.—(Associated Press)—Government troops officially occupied Gotha at one o'clock yesterday afternoon. They met with no resistance. It is reported that the Russian Bolshevik radek is at Hagen, in the Westphalian area, directing the Red operations.
Planned With Trotsky?
Rotterdam, March 26.—The Spartacist movement in the Rhine districts has long been organized by those who are loyal to Russian aid and the offensive against Poland with the joint object that Trotsky, Russian Bolshevik, should be made to be at the gates of Berlin at the beginning of July, according to a Munster despatch to the Courant.

Russian Red army officers, says the correspondent, are already disintegrating the German Spartacist whose army is being rapidly organized and armed on the exact model of Trotsky's.
The revolution was originally planned for May 1, but the leaders believed that the Kapp movement gave them an opportunity to hasten their plans, which included the capture of Munster and Wesel. According to the Telegram, the Dutch government is taking steps to prevent Red activity.
(Continued on page 4, fourth column.)

MONTREAL WARD FLOODED; THEY ARE USING BOATS

Montreal, March 26.—The situation in Turcot ward, this city, where floods are much in evidence, is reported serious, it being estimated that during the last twenty-four hours the water has increased in depth by seven and a half inches. Nine row boat firms are now in use in the district, and it is thought that the present rate of rise will probably only mean a matter of convenience today. Firemen are patrolling the district in boats loaded with buckets as a precaution against fire.

COAL DEARER IN TORONTO AFTER FIRST OF APRIL

Toronto, March 26.—Instead of a drop in the price of coal in April, as had been hoped for by householders in this city, the price is to be boosted still higher. The present price is \$18.50 a ton, but after April 1 it will be at least \$14.75 or possibly \$15.

MONCALM MEN SAY MAINE AGENT WRONG

Quebec, March 26.—When shown a statement issued yesterday at Halifax by C. H. Harvey, agent of the marine and fisheries department, who said that the Montcalm was out to sea again, although eleven of her firemen and others had quit, some of these men said the Montcalm was still at Shelburne on Wednesday and had been there since Monday morning waiting for a new crew of firemen.

DEATH OF HARVARD MAN OF CLASSES '43

Newtonville, Mass., March 26.—Charles French, the oldest living graduate of Harvard College, died in his home here last night. He graduated with the class of 1860, and was ninety-three years old. He was an educator, having charge of a private preparatory school in Boston, where among his early pupils was President Charles W. Eliot of Harvard. Dr. Horatio S. Storer of Newport, R. I., a graduate in the class of 1850, now because the oldest living graduate.

Liberal Convention in Moncton in June

Announcement Is Made By Committee
Fred Magee, M. P., Hon. C. H. La Billois and Dr. W. P. Broderick Making Arrangements—Organization, Policy, Organizers and Secretary to Be Dealt With.

Moncton, N. B., March 26.—A convention of the Liberals of New Brunswick will be called to be held in Moncton in June, according to an announcement made today by a committee to which arrangements for the gathering had been entrusted at the time of the visit of Hon. W. L. Mackenzie King to St. John during the winter. An informal conference was made that the convention should be held in Fredericton. A committee consisting of Fred Magee, M. P., of Dalhousie; Hon. C. H. La Billois of Dalhousie; and Dr. W. P. Broderick of St. John was appointed to make the required arrangements. This committee, after canvassing the situation, decided that the suggestion regarding the organization of the party for both the provincial and federal fields. The suggestion was made that the convention should be held in Fredericton. A committee consisting of Fred Magee, M. P., of Dalhousie; Hon. C. H. La Billois of Dalhousie; and Dr. W. P. Broderick of St. John was appointed to make the required arrangements. This committee, after canvassing the situation, decided that the suggestion regarding the organization of the party for both the provincial and federal fields. The suggestion was made that the convention should be held in Fredericton.

Moncton was selected as the place of meeting on the grounds that it was easily accessible from all parts of the province, that adequate hotel accommodations would be available, and also would give the delegates an opportunity to see what this thriving community has been accomplishing in recent years.
The convention will be some time in June, but the exact date has not yet been fixed, as the committee wishes to avoid conflict with the second annual conference of the New Brunswick Tourist, Game and Recreation Association which will meet in Dalhousie in June. It is expected that the convention will be held in the latter part of the month.
The members of the federal house will be able to attend without serious inconvenience. For the delegates from both the urban and rural parts of the province, the month of June probably presents the most convenient and a large gathering is expected.

Among the matters which will come up at the convention will be the questions of organization and policy. It is expected that Premier Squires and Hon. M. P. Gibbs offered him material inducements to take this step. No reply has yet been filed in court.
The Philadelphia stock exchange will conform to the New York daylight saving hours, opening at 9 a. m. and closing at 3 p. m.

COAL SITUATION IN GREAT BRITAIN

Newspapers Say More Information Needed—Some Say Strike Possible.
London, March 26.—Lloyd George, answering questions in the House of Commons yesterday afternoon with regard to the government's negotiations with the coal miners, said at present regarding the action contemplated by the government in the event of a strike, that the consumption of coal throughout the country if the negotiations broke down would be a serious matter. He expressed the hope that the house would not accept this as a threat. He said that the government was not a word of truth in this.
Prior to the announcement of Premier Lloyd George that he again would refer the delegates of the coal miners, if they so desired, to take up the disputed points in the wage controversy, the morning newspapers yesterday took a grave view concerning the coal situation. They declared that if the last word had been said, a strike within three weeks, with a resultant halt in the coal industry of the country, was inevitable. The situation, however, does not seem to be entirely clear, and some of the newspapers call on the government for fuller information. They assert that the administration is mishandling the whole coal situation and falling into the hands of the miners. They assert that the question is a very complicated one, largely owing to the varying aims and objectives of the different coal owners. The South Wales men, who are said to be receiving the highest wages, are accused in some quarters of "spilling" for a fight, and to be playing their own hand against the other miners. They assert that the resentment against the government's refusal to nationalize the mines also is exerting considerable influence in the controversy.

IS HOLDING NEGOTIATIONS ARMY OFFICER'S VIEW CORRECT?

Statement in England About Demand in Canada for Labor.
(Canadian Associated Press.)
London, March 26.—Commissioner of the St. John Army, who here yesterday in a recent trip to Canada, has given the Canadian Press an interview in which he says: "There is a considerable demand for workers not only by the large employers of labor but also by the government, who are anxious to secure labor of all kinds for the development of the country. This statement has caused some surprise among a certain body of opinion here where the impression exists that the Dominion government intended to limit immigration according to the particular needs of each separate industry."

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbeam, "how did anybody come to die in St. John seventy years ago? A friend in Legrenzy has sent me some fragments of a paper published in 1848. So far as I can gather, for all of the system of that period began the day with an Indian Dyspepsia Pill, following it at intervals during the day with Dr. A. P. Townsend's Sarsaparilla, American Vermifuge, Hunter's Pulmonary Balm, Dr. Sherman's Ointment of All Healing Balsam, Curtis and Perkins' Cramp and Pain Killer, with Plaster, Holden's Alternative and Tonic Mixture, Holden's Balsamic Syrup of Bloodroot and Wild Cherry, Dr. Sherman's Compound, Cough Lozenges, Cough Lozenges and Poor Man's Plaster, and other remedies guaranteed to expel from the system the very seeds of all disease. At the end of the day the citizen could tap a hoghead of pale or dark brandy, take a pack of Counting Cards, Conversation Cards, or a Fortune Teller, and so on to heights of felicity unknown to the present nerve-racking age. And yet people contracted disease and died. How curious of them!"

"Yes, sir," said Hiram, "and they deserved to die for taking all them different kinds of medicine. Ain't it funny how people get fed into buying anything that's on the market? I remember reading one of them testimonials lately how a fellow out to the Settlement was saved by Snookum's Pills and could work like a boss. He'd been dead three months afore the testimonial was printed—yes, sir."
Human nature does not change much in seventy years—does it?" said the reporter.

"Not in some ways," said Hiram. "We're just as easy fooled as folks was seventy years ago—all but that there Perfesser Leacock, and he ain't happy. He's lonesome. It must be awful to know as much as he does—poor feller."

COLLEGIANS GET LITTLE ENOUGH

Pelt Police With Missiles and Even Fire Shots at Them in Celebration of Victory.
Philadelphia, March 26.—Policemen of the University of Pennsylvania yesterday after outbreak of about 1,000 students in celebration of a Pennsylvania basketball victory over Chicago University. Shots were fired at the police by the students. Two students were arrested. They were given the option of spending ten days in jail or paying \$12.50 fine.

SENTENCED TO DEATH CHAIR

New York, March 26.—Jesse Walker, twenty-five, of Evansville, Ind., yesterday was sentenced to die in the electric chair on the week of April 23 for the murder of Samuel Wolchock on March 11 last. A diary found on Walker when he was arrested in Mattoon, Ill., ten months after the murder, contained a note about the crime.
When asked by the court if he had anything to say before sentence was pronounced, Walker blandly replied: "Well, I didn't fire the shot that killed Samuel Wolchock, but at that I didn't come up here to be tortured or to hear a lecture; I came to be sentenced."

LOST LIFE AT FIRE IN QUEBEC

Danville, Que., March 26.—A fire last night in a barn belonging to Pierre Roy resulted in the loss of the building and contents and was the cause of the death of Mr. Desjardins, a telegraph operator at the C. P. R. station. When the alarm was given Desjardins, with others, went to the assistance of the proprietor.
An electric light wire, which had become detached from the barn, was lying on the ground. Desjardins stepped on it and it hit him on the head, stopping his circulation of blood. He received an electric shock which caused his death. A horse and cow and a quantity of sugar were burned.

KIDNAPPED BOY IS FOUND IN HOTEL

Don't Kiss in the Morning, Says M. D. of Saranac Lake
New York, March 26.—Kissing should be done only in the afternoon and evening when sunshine and fresh air have sterilized the lips, said Dr. Lawson Brown of Saranac Lake, to the New York State Medical Society yesterday. He gave instances from his observation at a tuberculosis sanatorium to show that morning kissing was deadly.

DOES NOT SOUND LIKE DIVISION

Britain's Generous Promise of Coal Supply for France Is Announced.
Paris, March 26.—In the chamber of deputies yesterday, Yves Le Troquer, deputy minister of public works, announced that Great Britain had promised to France 15,000,000 tons of coal yearly, or sixty per cent. of her stock for disposal, instead of twenty per cent. given previously. A special price of seventy-five shillings a ton, instead of the market price of 115 or 125 shillings.

M. Millerand, the premier, said as the deputy minister concluded: "This unanimous applause will be heard at dusk on the other side of the channel. If tomorrow the adversaries of Great Britain and France exploit pretexts for divisions between us, we can reply that they are deceiving themselves and that our alliance shall not be broken."
There was cheering everywhere throughout the chamber when M. Millerand ended his address.

WANT HIGHER PAY ON ESTATES OF KING GEORGE

Employers Demand Eight Hour Day and Three Pounds a Week—Commissioner's Reply.
London, March 26.—The employees on the King's estates in Scotland, including Balmoral Castle, are demanding an eight-hour day and a raise in wages to three pounds weekly. James D. Ramsay, king's commissioner on the Balmoral estates, has given the men the option of working ten hours a day or quitting their jobs. So far as is known he has said nothing to them concerning wages.

PROHIBITION

Manchester Guardian Editor's Views After Part Tour of Canada.
Toronto, March 26.—Arthur H. Wallace, associate editor of the Manchester Guardian, who is making a five weeks' tour of Canada preparatory to the publication of a Canada number of the Guardian, in an interview here, said with reference to prohibition:

"So far as I can see, east of Toronto prohibition is farcical, west across to Hull when I was in Ottawa and, believe me, I found in the shops of even the smallest liquor vendors there, samples of more varieties of Scotch liquor than could be found in the big shops in England or Scotland."

"NOT GUILTY" IN DOCTOR'S CASE; PEOPLE CHEER

Montreal, March 26.—Dr. Zenon Malo was yesterday found "not guilty" of the charge of murder against him, and the jury's verdict was the signal for such an outburst of applause and cheers that the court criers could not quell the uproar for some minutes. The charge was in connection with the death of Beatrice Chisoline following an alleged illegal operation. Dr. Malo still has to face trial on this count, and so was liberated on bail for which his counsel's word was taken, as the doctor had no bondsmen to offer.

THE DEMANDS OF ANTHRACITE MEN

New York, March 26.—While pressing their original demands for a sixty per cent. wage increase, anthracite miners declared last night they will not accept less than 43.75 per cent. Because of greater skill required in hard coal mining, these diggers received more pay than soft coal workers, according to officials of their union.

SUICIDE OF ONTARIO WOMAN

Welland, Ont., March 26.—Mrs. Thomas Humphries of this city committed suicide yesterday by taking an ounce of carbolic acid.
