## The Ideal Drink

for

'Flu' Time

As a preventive measure,  
drink what is known to  
be safe. And you can be  
sure of "Red Ball" the  
family drink "par excel-  
lence" which is PER-  
FECTLY STERILE,  
FREE FROM DISEASE  
GERMS, being made un-  
der highly sanitary con-  
ditions, and never touch-  
ed by human hands.

The taste-tickling flavor,  
appetizing and tonic  
properties of

Red Ball  
MADE IN CANADA

Made to Legal Re-  
quirements

make it kindly dinner  
drink—an ideal family  
beverage.

Only the finest Dublin  
and Canadian Malt, best  
selected Hops, and spark-  
ling artesian well water  
—blended to a nicety—  
go to make up "Red  
Ball."

Dark "Red Ball" is best  
for fall and winter. It  
helps prevent "flu" and,  
if you're recovering from  
"flu," Dark "Red Ball"  
gets you on your feet  
quicker.

## The Lamp For Longer Service

WHY  
**LACO LAMPS**  
MEAN  
Brighter, Better  
LONGER LIFE

THE guaranteed  
life of the ordi-  
nary lamp is 1000  
hours. Yet Laco  
users frequently  
obtain two to three  
times this service—  
indeed, we can  
quote Laco lamps  
that have burned  
continuously for over  
10,000 hours.

Why is there this  
difference in  
lamps? There are  
various reasons.  
Now let us tell  
you why LACO  
Lamps last longer.

IN the first place, LACO  
Lamps are made complete in  
one factory—under exacting  
inspection from start to finish.  
They are made to withstand  
rougher usage than they will  
ordinarily receive. Their  
filaments are made of  
the highest grade tungsten that  
will burn at extremely high  
temperature and resist exces-  
sive flow of current and will not  
snap under the strain. The  
rare inert gases with which  
they are surrounded in a per-  
fectly sealed bulb ensures the  
exclusion of oxygen, aids the  
filaments to endure greater  
heat, and eliminates "blacken-  
ing" of the glass—so that  
LACO light is clear, white and  
brilliant to the last. Is it any  
wonder that tests prove LACO  
best?

LACO TUNGSTEN LAMPS  
are the Quality Lamp for Domestic  
Lighting and Special Lighting.

Sold by Leading Electrical and Hardware Dealers

## What About a Good Blue Suit?

There's nothing quite like a  
blue suit for all-around wear;  
but unless it is good and of  
fast color—well, you'd bet-  
ter not have any.

We're offering some excep-  
tional Blue Suits, made by  
20th Century Brand.

The fabrics are all wool; the  
colors are fast; the tailoring  
is right—so is the style and  
fit. And if your suit does  
not turn out right, we will  
make it right.

In three and two-button  
models, \$28 to \$40—ready  
to finish to your measure.

Gilmour's, 68 King St.

that rotate with potatoes, and scientific  
potato farmers are producing crops that  
are prolific and profitable. Now comes  
word that the world's record pro-  
duction of marketable potatoes on one acre  
—49,381 pounds, or 859 bushels—has been  
made on an acre of land near Kanab,  
in the southeastern section of Utah, a  
few miles from the Arizona state line.  
The record yield was made in response  
to a competition fostered by the Mormon  
church, and the church authorities drew  
a check for \$1,000 payable to a repre-  
sentative of Kanab Ward of the Kanab  
Stake of the Church, which is responsi-  
ble for the production. This yield is  
certified to by more than fifty farmers,  
and is reported in the Reclamation  
Record.

Such a crop of potatoes sold even at  
the old-time standard price of \$1 a  
bushel would be immensely profitable,  
though the cost of production is large,  
but it must be remembered that all po-  
tatoes must be disposed of during a  
short season. Wheat may be stored  
from year to year, but potatoes become  
valueless about the time the new crop  
appears.

The federal bureau of crop estimates  
has ascertained that the month when  
the smallest fraction of the year's crop  
is marketed by farmers is June, and this  
is 4 per cent. In July the percentage  
rises to 4.8, and the gain continues to  
6.8 per cent in August, to 18.7 per cent  
in September, and to 23.5 per cent in  
October, when the maximum is reached.  
Thereafter the percentage declines to  
11.8 in November, 5.9 in December, and  
to 4.4 each in January and February.  
In the spring potatoes move more freely  
from farms, and the fraction of the crop  
that is marketed in March and April is  
6.7 per cent, followed by decline to 4.9  
per cent in May and 4 per cent in June.  
Nearly one-fourth of the potato crop is  
sold by farmers in October and over one-  
tenth in each of the months of Septem-  
ber and November, or nearly one-half in  
three months in the main harvest season,  
so that every potato grower is com-  
peting with every other grower, and  
must sell his crop or lose it.

—BUT-VICTORY-BONDS.

## REFUGES FROM ITALY ENTHUSE OVER SUCCESS

British and Italian Drive Against  
Austrians Goes on Well—The  
Pave Crossed

Italian Headquarters, Monday, Oct.  
28.—(By the Associated Press)—People  
living in the war zone at tonight sur-  
rounding the bulletin boards upon which  
is placed the official statement that the  
Pave River has been crossed and that  
the battle is still going on. There were  
many impromptu addresses which were  
enthusiastically cheered by the civilians.  
It is evident that the offensive is popu-  
lar, as it has been warmly desired for  
many months, especially by the thou-  
sands of refugees who were driven from  
their homes last fall by the advancing  
Austrians.

London, Oct. 28.—Progress toward  
Odero, on the east side of the Pave  
River, is indicated in the official state-  
ment on operations by British troops in  
the Italian offensive, issued at the war  
office tonight. The statement follows:  
"The attack of the tenth army con-  
tinued today and is progressing most  
satisfactorily. On the right the eleventh  
Italian corps has reached the line of  
Roncadelle, Ormele, Tronico, Borgo  
Bianca and Rai. In the center the four-  
teenth British corps is in touch with the  
Italians in the neighborhood of Rai and  
has reached the line of Chonoto and  
Chamian and is one kilometre south of  
Borgo Milanotti. On the left the eight-  
eenth Italian corps, which deployed last  
night in the rear of the fourteenth Brit-  
ish corps, has attached in a northerly  
direction and is making good progress.  
"Reports of further captures of guns  
and men come from all corps."  
Rome, Oct. 28.—The Italian official  
statement reads:  
"The battle continued fiercely during

Canadian women are right behind the  
Canadian troops in the trenches. Women  
nurses are now installed in hospitals 5 miles  
in the rear of the actual fighting line.  
Many of our Canadian women are un-  
able to take up the duties of nursing at  
the front, but they should know how to  
take care of their own at home and for  
this purpose no better book was ever  
printed than the Medical Advice—a book  
containing 1,008 pages, and bound in cloth,  
with chapters on First Aid, Bandaging  
and care of Fractures, Taking care of the  
Sick, Physiology, Hygiene, Mother and  
Baby, which can be had at most drug  
stores, or sent 50 cents to Dr. Pierce,  
Courtwright St., Bridgeburg, Ont.

The women at home, who are worn  
out, should take this reliable Temperance,  
herbal tonic, Dr. Pierce's Favorite Pre-  
scription.

Woodstock, Ont.—  
"I have found Dr.  
Pierce's Favorite Pre-  
scription to be ex-  
actly what I needed  
and built me up several  
times as much as I was  
suffering with a chronic  
toxic dyspepsia. I am  
now a healthy woman  
and take great  
pleasure in recom-  
mending Dr. Pierce's  
Favorite Prescription to all  
sufferers from woman's  
weakness."

—Mrs. Anna Stock, 21 Arthur St.

### NEW POTATO WORLD RECORD

Utah Farm Produces 825 Bushels On  
An Acre

(N. Y. Times.)

It has long been a reproach to Ameri-  
can farmers that few of them ever pro-  
duced record crops of potatoes, but that  
is rapidly changing. In some of the  
black soils of Hungary, and under in-  
tensive cultivation in parts of Germany,  
crops of 800 and 900 bushels an acre  
used to be produced, and reports of  
them stirred the envy of Americans.  
More recently, since parts of Maine and  
New Jersey became great potato re-  
gions, these European crops have been  
matched occasionally in good years.  
Now a new potato country is developing  
in the west, Colorado, Utah, Nevada,  
and Washington have thousands of  
acres devoted to potatoes and the crops
