Change at Vatican?

Cardinal Falconio's Name Mentioned as Secretary

NEW YORK STORY FROM ROME

Report Says Some Cardinals Do Not Agree That Present Policy is Best For Church and That They Want Cardinal Merry Del Val to Retire

(Canadian Press)

New York, June 25—A cable to the Tribune from Rome says:

For some time past reports have been current that several powerful members of the College of Cardinals have determined to demand from the Pope the removal of Cardinals Merry Del Val and De Lai from their present places of practically omnipotent power. These reports, emanating from circles known to be hostile to the Vatican, were first set down as mere anti-clerical scandal and nobody paid much attention to them. Now it seems that they are far from fully covering the gravity of the break between the liberal and ultra-conservative wings of the church.

Cardinal Merry Del Val is the accepted leader of the latter party. Cardinal Rampolla is the leader of the liberals. Through a visit of Cardinal Rampolla to the Pope yesterday, the facts are made more fully available and these come from sources which can be considered almost semi-official.

Cardinal Rampolla and those who agree with him hold that the manner in which Cardinals Del Val and De Lai are prosecuting their campaign against modernism, is likely to embroil the Vatican in further disputes, such as those between the church in France and Portugal and Spain. The liberal cardinals do not suggest that Cardinals Del Val or De Lai should be superseded. De Lai have been induced by other cardinals to give up their office as the highest of offices which is the position coming from anti-Vatican quarters but they do contend that if Pope Pius is to realize his desire to "reform all things in Christ," Cardinals Del Val and De Lai must be superseded. It has been proposed to Pope Pius to appoint either Cardinal Vincenzo Vannelli or Cardinal Ferrata as papal secretary of state. The Pope is distressed by the situation and has endeavored to conciliate the two parties but without success.

Cardinal Falconio Spoken of To Canadians and Americans the most interesting fact, which has just come to light is that as a direct result of Cardinal Rampolla's conference with His Holiness yesterday, Cardinal Falconio, secretary of state in Ottawa and Washington, may be called to direct the traffic of the Vatican. Pope Pius, it is said, himself suggested Cardinal Falconio as a compromise secretary. The latter is likely to rest for a few days, as a final decision cannot be long delayed.

It is believed that another consistory will be held in October, and that nine cardinals will be elevated on this occasion to the sacred college.

A delegation of the Board of Trade urged Fredericton's claims to increased railway terminals. A member changed to let a remark that it would be necessary to prepare for the entrance of the G. T. IN FULL SWING ON TENTED FIELD OF CAMP SUSSEX

Sussex, N. B., June 25—The big military camp was in full swing today. There was a general muster of troops this morning, and the regular parade duties were begun today.

The infantry were engaged in knots about the grounds, being put through the primary intricacies of drill by their instructors. The artillery manoeuvred in Morrison's field, while the cavalry brigade, the first for such at Camp Sussex had their first drill today also. For the start the drilling was in squads in almost every case, and this will be continued until the men have become more proficient.

Fine weather prevailed today, and in fact the weather has been most pleasant since the troops first came to camp. For a time last evening rain fell, but did not interfere with the opening of the camp. The men have quickly fallen in pace with the routine of camp work and are grappling with their duties in most commendable manner.

Some of the men of the 8th Hussars this morning went to the range and shot the required number of rounds, this being the first target shooting done since the opening of the camp. So far there has been no sickness. One patient was in the hospital yesterday, but the illness was not serious.

General Expectation of World Peace—The French President's Visit—Rumer Again That John Burns Will Retire From The British Government

(Times' Special Cable)

London, Eng., June 25—The empire's metropolis is this week charged with an optimism which has been absent for some time, while the city, bedecked with flags and packed with enormous crowds, is shouting its hearty approval in honor of the French president.

Responsible politicians and financiers declare their belief that the darkest clouds which have recently threatened Europe have passed, and, although the situation in eastern Europe is still uncertain, there is now a general expectation that peace will be maintained.

The London financiers will go slow for weeks to come, but the feared general financial debacle has been escaped. President Poincaré has made an antagonistic sense and there is a genuine feeling of good impression here, but the English press today, while lavishing its praise on the president and smiling enthusiastically at the entente cordiale, makes it quite clear that we have no intention of interpreting the entente in an antagonistic sense and there is a genuine anxiety here that nothing be done during the present visit that may give reasonable excuse for checking improved Anglo-German relations.

Will Burns Leave Cabinet? Politically both are taking a breathing time after the strenuous Marconi controversy. The clubs are once more full of rumors that John Burns will leave the cabinet and that his place at the local government board will be taken by Lord George. Many Liberals, including the most influential of Liberal daily papers, declare that Burns, by his unfriendly attitude towards the prominent reforms proposed by his colleagues and by his cautious and conservative official attitude towards the entente cordiale, rather than a help to the government.

Stewart finally exchanged some hot shot with the minister and the conference came to an end with little definitely accomplished. The minister promised to put bells on the railway crossings, above and below town and prohibit drivers sending their engines through the town limits at a greater speed than six miles an hour.
