THE ADDRESS. Chairman Neill after a few remarks read the following address: To the Honorable Sir Charles Tupper, Baronet, G. C. M. G., C. B., etc.,

Honored Sir-The liberal conservatives of the county of York desire to assure you that your visit to Fredericton is hailed with very great pleasure and satisfaction.

Long before the federation of the provinces of British North America into one great dominion, under the central authority of the British crown, you had attained a high and honorable position as a public man in the reighboring province of Nova Scotia. Your public career has been a long and consistent one, and we are not unmindful that in bringing about the consolidation of the separate provinces of Canada you took a conspicuous part, and you can proudly clam to be one of the preminent fathers of confederation.

As a representative in parliament as a minister of the crown, and in the important position of Canadian high commissioner at London, the country has ever recognized in you a man of broad views and wise foresight, and Canada has reason to be grateful for your distinguished public services.

It was largely your statesmanship, energy and indomitable courage that initiated and pushed to a speedy completion the Canadian Pacific railway, a public work not only of great advantage to Canada, but of the utmost importance from an imperial

point of view. The political wishom of Sir John A Macdonald, Sir Leonard Tilley and yourself, with the other distinguished men acting with you in the government of that day, grasped the importance of that great public work, and we venture to think that a grateful country will not forget the services rendered by you in connection there-

But our gratitude and appreciation go out to you at this time particularly, because of your statesmanlike and patriotic conduct in voicing the Blair, when called upon to give reloyal sentiments of the Canadian people and by your action, backed up by every true and loyal son of Canada forcing Sir Wilfrid Laurier and his government to send the Canadian contingents to South Africa to fight beside the British troops to repel the the sort. ## STORM IN NEW ENGLAND.

The Gale More Distructive on Land Than on Sea.

BOSTON, Sept. 12.—The West India nurricane which started ten days ago far to the eastward of Porto Rico, entered New England this morning and tonight the inhabitants of this corner of the country have nearly a million dollars to add to the lengthening list of losses which this remarkable storm destroyed in its 10,000 mile career.

Strangely enough the gale in this section was more destructive on land than at sea. It found a greater part of New England dried and parched from three months' drought, so that within an hour after the storm began a score of forest fires which by great effort had been almost subdued, were burning fiercely and again sweeping over vast expanses of country. Nearly all these fires are still burning, and this is especially true of the districts to the south and west of this city, so

that the air is permeated with smoke The storm entered New England early this morning, the wind shifting to the south and west, and increasing so rapidly that by 10 o'clock the velo city was nearly fifty miles an hour. In the northern portion of New England some rain fell during the night which almost subdued a number of the forest fires which have been raging for nearly a week. Farther to the south, however, the earth was very dry and the woods are like so much excelsior. Today the high gale swept the flames over ten times as much territory and by noon today a dozen of these forest fires were burning flercely among the pines of Plymouth county and Cape Cod.

In Plymouth county a score of summer residents had their property destroyed. The losses are placed at over

At 8 o'clock tonight the fire had reached the lower end of Long Pond in Sandwich, but as the wind went down, the fire wardens believe that the progress of the flames may be checked. Up to a late hour tonight no fatalties had been reported.

Fires have also been doing much damage in Weymouth, Rockland, South Framingham and in Westminster, Mass.

Reports were also received from various parts of New England tonight of damage to telegraph and telephone wires, houses unroofed, orchards denuded of their fruit and great damage to standing corn and other crops.

Up to a late hour tonight nothing in the way of an ocean disaster had come to hand. The gale, to be sure, has been severe off the coast, but it blew off shore, so that most of the shipping found little difficulty in getting a lee.

chronicle the wedding of Herbert T. Irvine, brother of Joseph Irvine of the north end, and Miss Catherine McLeod. The ceremony was performed by Rev. S. Akehurst in Saint Savior's church. The bride wore a handsome gown of duchesse satin, trimmed with real lace and chiffon, the bodice being hand embroidered. Her veil was of white tulle, and was fastened with a broach of diamonds and pearls, the gift of the groom. She was preceded up the aisle by two flower girls, Miss Bessie Forir and Miss Edith Williamson, of Sandon, both dressed in white; and her bridesmaid, Miss Jennie Mc-Leod, who was gowned in white liberty silk, and wore a picture hat, trimmed with white ostrich tips. The groom was attended by Harry Wright, of Nelson. After the wedding a reception was held at the home of the bride. Mr. and Mrs. Irvine left for Portland, Oregon, on an extended tour. The happy couple received many beautiful presents. The groom's to the bridesmaids was gold bracelets, to the ushers, gold nugget pins.
