The necessary vanchers are produced examined and found correct and are herewith submitted.

Your Committee have here to remark that they are fully satisfied that the above account contains all fees received by His Worship the Mayor, but as the Law requires that all fees receivable by His Worship the Mayor, but as the Law requires that all fees receivable by His Worship the Mayor, but as the Law requires that all fees receivable by His Worship the Mayor in the form of the Accounts is not strictly according to Law, as the Fees of Marrante of Appointment, Fees on Leases, and Fees receivable from the Mayor's Court, are not necluded in his return. Your Committee also observe that many Fees receivable by the Common Clerk are by this account stated to be received by His Worship the Mayor and by him paid over to the City Chamberlain, which in the opinion of your committee, under the Law, should not be done—the Law requiring the Common Clerk also to make his return quarterly, and sides allows him to retain any Fees to seceived to the extent of his Salary quarterly, but by this course the funds are paid in to the account of the Trustees, and consequently the Common Clerk would be deprived of his Salary chould the remaining Fees in hand be not adequate to meet the amount.

Your Committee further Report, that the Accounts furnished by his Worship are accompanied by a most clear and systematic list of every fee and amount received by him, which has enabled your Committee with the least possible trouble to arrive at their conclusions.
