### Mercantile Summary.

THE United States Life Insurance Company has appointed Mr. Jno. Wm. Molson the general manager of its Canadian branch.

THE Lindsay Woollen Mills, of Mr. J. W. Wallace, are adding a new brick building 82x90 feet, to be heated by steam and fitted with the most improved machinery.

LA BANQUE D'HOCHELAGA has taken action against a number of individual shareholders of the Pioneer Beet Root Co., having in 1882 obtained judgment against the company.

MESSERS. SMITH & KEIGHLEY, owners of the propeller City of Owen Sound, which went ashore at Michipicoten river, have abandoned her to the insurance companies. She was valued at \$45,000, and is insured for \$30,000 in the Phoenix and Western Insurance companies.

THE English solicitors give notice of their intention to apply to Parliament for confirmation of the reduction of the capital of the Land Corporation of Canada from £250,000 to £125,000. They also give notice that the list of creditors will be made up on the 12th of January.

ACCORDING to the London correspondent of the Montreal Gazette: A petition for the winding up of the Dominion of Canada Land and Colonization Company (limited) has been presented by Mr. Henry Charles Baker, solicitor, of Union court, Old Broad Street, a shareholder in the company. The petition is to be heard on the 22nd instant, before Vice-Chancellor Bacon.

THE Northwestern Lumberman prints a letter received from Mrs. Harriet Smith, who conducts a lumber establishment in Florida, and has done so for years. Among much that is business-like in the communication we find the following: "My first advice to men who contemplate going into the saw mill business is—don't do it, for not one in 20 of you has the ability to succeed. If, however, you are determined to try it, be careful that you get the best machinery, strong and heavy enough to stand the bad treatment of awkward hands. Buy the most durable belts, no matter what they cost, for half the failures in our backwoods mills are caused by constant breaking of belts. And when a complete outfit is secured, locate where you can get timber and sell lumber. Keep your machines in good order, taking special care of all parts out of sight. Pay your hands in cash, and not in promises, for they work for the money, and not for any love they have for you or your business. When you can't pay, shut down, stack your lumber and discharge all hands. Your mill will neither eat, drink nor wear anything while standing still. But when you do run, work everything to its full capacity."
