LITTLE GIRL:—You should consult a physician; eruptions of such long duration must result from seriously disordered blood.

A SUBSCRIBER:—Ice-wool shawls are always liked because of their lightness, which does not, however, detract from their warmth.

A SUBSCRIBER:—There are several methods of preparing starch, the ingredients differing for different uses. A good starch for cottons, linens, etc. is made as follows: To one ounce of the best starch add enough cold water to make it into a thick paste. When rubbed perfectly smooth add a pint of boiling water, with bluing to suit the taste, and boil half an hour, stirring to prevent burning. Cover when removed from the fire. To give the linen a fine, smooth appearance and prevent the iron from sticking, add a piece of spermaceti as large as a nutmeg and half a tea-spoonful of the finest table salt while boiling. All starch should be strained before it is used.

MAY BELLE:—Enlarged pores may be reduced by an application of acetic acid. Touch the tiny pore alone with the acid, and not the surrounding flesh.

CIGAR:—To make a house or smoking cap of cigar ribbons, join the latter and shape the joined pieces by pattern No. 1914, which costs 7d. or 15 cents.

MISS M. M.:—You cannot satisfactorily clean your crepe dress at home. We should advise having it dry cleansed by a professional scourer.

THE NEW WOMAN:—Shirt waists with stiff bosoms for wear with blazer suits are again popular.

G. V. C.:—For one afflicted with chronic catarrh we would advise the services of a physician.
