
AN EVENING CLASS AT THE ART CLUB.

IF sufficient interest is taken, an evening class in Drawing and Design, conducted by our teachers, will be opened early in the winter. Young men and women will find a knowledge of these arts of great value in almost every modern occupation, greatly assisting in understanding many questions that arise in business, apart from purely art value.

To enable the directors to decide whether it is desirable to open the class, young people interested are invited to fill out the form below, detach it and hand to any attendant at the art room.

Please send Card of Terms, Dates and any particulars of the proposed Evening Art Class at the Saint John Art Club Studio.
