J. W. ELLIOT'S PATENT SAVER Singer HALL STOVE.

The advantanges gained over all other stoves The advartanges gained over all other stoves are it produces the greatest amount of heat from a given amount of fuel; this is accomplished by the flue pipe, which is bent down, around and underneath the base. Another object is to secure the greatest possible benefit of the fire which consists in placing around the body of the stove a series of internally projecting pockets overlapping the fire pot, and so formed that the air of the room is admitted into the lower end of the pockets, and, after passing through them, re-enters the room, having become intensely heated through contact with the inner sides of the said pockets, which are immediately over the hottest part of the fire, thereby producing far greater results from a

GIVEN AMOUNT OF FUEL THAN ANY OTHER STOVE.

An Evaporator which is part of the Stove.

The cover is a water tank, and becomes an effective evaporator, which produces a greater or less amount of vapor in proportion to the in-

There is a double heater, by means of which heat can be conveved to an apartment above, and supplied with sufficient vapor from the tank. Also a combined hot air and steam bath is thereby produced if desired.

In is Simple and Easy to Control.

The base plate is of cast iron in the place of zinc or other perishable material and is raised sufficient for the cold air on the floor to pass up through its raised and hollow cone-shape to the stove, and the circulation produced thereby equalizes the temperature of the room.

There are two grates similar to the base of a

circular basket. They can be rotated together

The fire can always be re-lighted without removing the coal. No screening or sieving, and no waste whatever.

Notice to Contractors.

SEALED TENDERS addressed to the Secretary of Public Works, and addressed "Tender for Canal and Lock at St. Anne," will be received at this office until the arrival of the Eastern and Western mails on FRIDAY, THE 10TH DAY OF OCTOBER next, for the construction of a Lock and the formation of approaches to it on the landward side of the present lock at St. Anne.

A map of the locality, together with plans and specifications of the works to be done, can be seen at this office and at the resident Engineer's office, at St. Anne, on and after Saturday, the 27th day of September next, at either of which places printed forms of Tender can be obtained. be obtained.

Contractors are requested to bear in mind that tenders will not be considered unless made strictly in accordance with the printed forms, and, in the case of firms, except there are attached the actual signatures, the nature of the occupation and residence of each mem-Bank cheque for \$2,000 must accompany the Tender, which sum shall be forfeited if the party tendering declines entering into contract for the works, at the rates and on the terms stated in the offer submitted.

The cheque thus sent in will be returned to

the respective parties whose tenders are not

accepted. For the due fulfilment of the contract, satisfactory security will be required by the deposit of money to the amount of five per cent. on the bulk sum of the contract; of which the sum sent in with the Tender will be considered

a part.

Ninety per cent. only of the progress estimates will be paid until the completion of the work.

To each tender must be attached the actual signature of two responsible and solvent persons, residents of the Dominion, willing to become sureties for the carrying out of these conditions, as well as the due performance of the works embraced in the Contract.

This Department does not, however, bind itself to accept the lowest or any tender. By order, F. BRAUN,
