

The Why and Wherefore.

There is nothing marvelous in the fact that Hood's Sarsaparilla should cure so many diseases. When you remember that a majority of the disorders "flesh is heir to" are due to impure or poisonous condition of the blood, and that Hood's Sarsaparilla is an effective and radical blood purifier, the whole thing is explained.

Besides its blood purifying qualities, Hood's Sarsaparilla also contains the best known vegetable stomach tonics, diuretics, kidney remedies and liver invigorators, and is thus an excellent specific for all disorders of these organs, as well as for low condition of the system, or That Tired Feeling.

Character.

"Many people seem to forget that character grows; that it is not something to put on ready-made with womanhood or manhood; but day by day, here a little and there a little, grows with the growth, and strengthens with the strength, until, good or bad, it becomes almost a coat of mail. Look at a man of business—prompt, reliable, conscientious, yet clear-headed and energetic. When do you suppose he developed all those admirable qualities? When he was a boy? Let us see how a boy of ten years gets up in the morning, works, plays, studies, and we will tell you just what kind of a man he will make. The boy that is late at breakfast, late at school, stands a poor chance to be a prompt man. The boy who neglects his duties, be they ever so small, and then excuses himself by saying, 'I forgot; I didn't think' will never be a reliable man, and the boy who finds pleasure in the suffering of weaker things will never be a noble, generous, kind man—a gentleman."

The Dangers of Sleeping with Closed Windows.

Everybody does not know, or knowing, does not act up to the belief, that exhalations from the body are dirt, and that dirt of all kinds (if we except dry earth) is malodorous.

The clinging humors thrown off by the pores, sleeping or waking, are the fruitful source of disease.

The body actually loses weight during sleep, the escaping effluvia hang, a viewless vapor, in the air, steep linen, and reek in blankets. If they were never so faintly colored, the day would break

dimly on your waking eyes; and, could you condense them, you would behold a pound of corrupt matter, from which you would shrink with loathing unutterable. Yet you swallow and inhale this with every word and breath, while you remain in an unventilated sleeping chamber.

Hints to Housekeepers.

Tar stains are removed by applying oil, and then removing the oil with benzine.

SAGO PUDDING.—Steam four tablespoonfuls of sago in one quart of milk; when soft add one egg, two-thirds of a cupful of sugar, a little salt, raisins or not, according to taste. Good, hot or cold.

Full bright eyes and brilliant scales indicate that a fish has not been long out of its native element.

CUP CAKE.—Two-thirds cup of butter, one cup sugar, one-half cup cream, two eggs, two cups flour, one teaspoon baking powder, one teaspoon extract lemon.

Moist hands are frequently relieved by bathing them in lukewarm water containing a teaspoonful of borax or ammonia.

Salt as a tooth-powder is as good as anything that can be bought. It keeps the teeth brilliantly white, and the gums hard and rosy.

QUEEN PUDDING.—In the bottom of a deep pudding dish place a thick layer of stale cake. Wet with wine. Over the cake put a layer of stoned raisins, chopped citron, candied cherries, blanched almonds, and a chopped fig. Now add another layer of cake. Pour over all a custard made of three eggs, a pint of milk, and a cup of sugar. Steam an hour and a half.

A good bleacher and stain remover from cotton or linen is made by pouring boiling water on chloride of lime in the proportion of one gallon to one quarter of a pound; bottle it, cork it well, and in using it be careful not to stir it. Lay the stains in this for a moment, then apply white vinegar and boil the table linen.

SALAD.—Two well boiled potatoes, passed through a sieve, a teaspoonful of mustard, two teaspoonfuls of salt, one of essence of anchovy, half a teaspoonful of very finely chopped onions well bruised into the mixture, three tablespoonfuls of oil, one of vinegar, the yolks of two hard-boiled eggs. Stir up the salad immediately before dinner, and stir it thoroughly. As this salad is the result of experience and reflection, it is hoped young salad makers will not attempt to make improvements upon it.

CUPPED POTATOES.—Boil, mash, and season. Mold by pressing into a wet teacup. Coat each one with beaten egg, and brown in the oven.

CINNAMON ROLLS.—Make a biscuit dough of one pint of flour, one and a half teaspoonfuls of baking powder, half a teaspoonful of salt, and a full tablespoonful each of butter and lard, rub the shortening into the flour, having first thoroughly mixed in the salt and baking powder, use enough new milk to make into a soft dough; roll it out very thin and sprinkle on a cup of coffee crushed sugar well mixed with a small teaspoonful of cinnamon, then roll it up tightly, and cut across in slices from three-quarters to an inch thick, lay them upon a biscuit pan and bake quickly. Try these and see if they are not good.

A CLOSE RESEMBLANCE.—Many symptoms of Canadian cholera are similar to those of the real Asiatic cholera, such as vomiting, purging, intense pain, etc. For all these symptoms Dr. Fowler's Extract of Wild Strawberry is a safe and sure specific. Price 35 cents at druggists.

GUARD AGAINST CHOLERA.—Keep the blood pure, the stomach in good working order, and the entire system free from morbid effete matter by using Burdock Blood Bitters, which cleanses, strengthens and tones the whole system. Cholera cannot attack the healthy.

TIMELY WISDOM.—Great and timely wisdom is shown by keeping Dr. Fowler's Extract of Wild Strawberry on hand. It has no equal for cholera, cholera morbus, diarrhoea, dysentery, colic, cramps and all summer complaints or looseness of the bowels.
