SINN FEINERS IN CORK STE LAW AT DEFIANCE

CORK, Ireland, June 24.—The Sinn Feiners were active here early this morning, when they smashed the windows in a number of recruiting offices, and by means of a fire escape hoisted the republican flag on the court house flagstaff and smashed the scales held by the figure of justice over the court house. They committed many other acts of violence.

The Sinn Feiners, at a big meeting this afternoon, passed resolutions denouncing the national convention as a diplomatic attempt on the part of the government to place Ireland in a false position and prevent the fulfilment of Ireland's claim to sovign independence. The resolutions demanded that the executive convene the council to express the opinions of the people and elect representatives to a peace conference.
