Do you want to live to the age of ninety? The following twelve rules may help you. They were drawn up by a Chicago physician, who declared that they will enable anyone to live to ninety.

1. Do not eat too much.
2. Do not drink too much, especially of intoxicants.
3. Do not work too hard, or too many hours.
4. Do not work too little; better to work for nothing than be idle.
5. Do work that is for the common good; all other is destructive.
6. Just take what sleep/experience proves right.
7. Use recreation, not for its own sake, but for new vigor.
8. Do not always be in a hurry.
9. Dress first for comfort; then for style.
10. Avoid worry; it enfeebles mind and body.
11. Shun all trespassers against the

plain physiology of your existence.

12. And thus lay the surest foundation for life of the spirit here and hereafter.

"Is this a healthy town?"

"I should say so. When I came here I hadn't the strength to utter a word. I had scarcely a hair on my head; I couldn't walk across the room, and had to be lifted

from my bed."

"You give me hope. How long have you been here?"

"I was born here."

It bothers a lot of people because they can't find out a lot of things that they know would hurt their feelings.

Minard's Liniment for Distemper.

A certain old dame had three lodgers, and was troubled by them coming in very late at night. One day, after a particularly late home-coming, she addressed them angrily: "You three are a

fine pair. Last night you didn't come in till 3 o'clock this morning. I've warned you half-a-dozen times before, and I won't warn you twice. If you are going to stay here and carry on like that, you had better leave at once."

Safe

They do not glow when blown out. Their heads do not drop. They contain no poison. Rats won't gnaw them.

Sane

Their added length prevents scorched fingers when lighting ranges and lanterns. They give longer, brighter light in the darkness.

Certain

One gentle stroke ignites them.

At nine on the line and she doesn't repine, A machine does the wash and it does its work fine. —Mr. Electro-serve.

There are two real big reasons for a woman to be happy—an electric washing machine and a loving husband. Second reason first. Because if she has the loving husband she's pretty sure to have the washer. You pay for it as you use it and it pays for itself and we can prove it.

Six Reasons Why You Should Buy a Studebaker Light-Six

1. **Sturdiness**—The sturdy construction of the Studebaker Light-Six has been positively proved by more than 500,000,000 miles of service in the hands of 100,000 owners.
2. **Economy**—The fuel economy of the Light-Six has been conclusively demonstrated by 27 world-wide tests, which established an average of 26.9 miles to the gallon of gasoline. Economy of maintenance is further emphasized by Studebaker's repair parts sales, which in 1922 averaged only \$13-per car in operation.
3. **Performance**—In its six-cylinder engine, there is an abundance of smooth, overlapping power—instantly responsive to the touch of the throttle. Vibration is practically eliminated at all speeds through machining the crankshaft and connecting rods on all surfaces.
4. **Comfort**—Light-Six springs are long and flexible. Seat cushions are 10 inches deep and upholstered in genuine leather. The Light-Six touring car is as comfortable as that favorite chair in your sitting room.
5. **Refinements**—The beautiful body is all steel, even to its framework. There is a one-piece rainproof windshield, with cowl lights set in the base; quick action cowl ventilator, thief-proof transmission lock and a number of other unusual refinements.
6. **Reputation**—For seventy-one years, the Studebaker name has signified sterling craftsmanship and honest value. The Studebaker reputation is your assurance of absolute satisfaction.
