

THE CHARGES AGAINST POLICE
MAGISTRATE McCULLY OF
CHATHAM.REPORT THEREON OF COMMISSIONER
G. G. GILBERT.(From the Advocate.)
To His Honor John James Fraser, Lieut.-Governor of the Province of New Brunswick.

(Continued from last week.)

On this evidence the magistrate convicts defendant, and fines him \$100 and costs, it being a second offence. On record past in evidence, the magistrate gives his judgment in the following words:

"Tingley was previously convicted on 4th July. Condon says he heard nothing of Hoffbre until after Tingley was convicted, when he was told that the beer was Hoffbre. That he sold Salvador with the labels washed off between the 10th June and 10th September. That he washed off the labels at Tingley's direction. That on 13th of August when he left Tingley's employ, there were 40 or 50 cases of Salvador on hand. Criminals says he bought Salvador from Tingley, stopped buying it, while his trial was in progress, and resumed it again during time of trial and finally bought two or three cases of Salvador from him two or three days before he was convicted, or about 1st July, always paid the same price for all beer from Tingley but got none since he was convicted. Tingley, the defendant, says he got clear of all the Salvador about two weeks before he was convicted which would be about 21st of June. That he had only three cases on hand 31st May. That he had 25 or 30 cases on hand when he was served with the papers in the former trial, which had been shown were served on 4th June. Got no Hoffbre analyzed, but considered neither Hoffbre nor Salvador intoxicating, but as a matter of fact Salvador has been proved to be intoxicating. That he had 90 boxes of Salvador on hand when he was fined last, which was on 5th July. The court does not consider defendant has rebutted evidence of sale of Salvador. Evidence of defendant is very contradictory, and the court cannot give it much credence as to warrant a dismissal of the information."

I have set out all the evidence bearing on the case in full because that being the evidence, I would not have arrived at the same conclusion as the magistrate. Admitting that the evidence showed that the beer called Salvador is intoxicating liquor, there is no evidence whatever that the beer called Hoffbre is intoxicating. The first witness says he got beer at Tingley's one day. He was not asked what kind of beer he got. He said he might have got beer, but little drunk that day, but he also said he had a glass of brandy on a ship that day before he went to Tingley's that morning and after he left Tingley's he had a good deal of beer outside of Tingley's. He said he left Tingley about 12:30 and he was sober then, that he went back to Tingley's at 7 o'clock in the evening. "If I was drunk at all that day it was when I went back to Tingley's in the evening." On cross-examination he said, "I did not get intoxicated on Tingley's beer, I did not get any intoxicating liquor from Mr. Tingley that day, nor did I get any intoxicating liquor from Tingley or any one in his employ. Although admitting I was intoxicated that day, nothing I got at Tingley's caused the intoxication."

The next witness for prosecution, Mr. Connors, said that he was at Tingley's between the dates and I am in the habit of getting cream soda, ginger beer and Hoffbre there. I don't know what kind of beer he got between the dates. He said he got Salvador beer between the dates. He said he got Salvador beer the winter previous, and that between the dates he procured beer at Tingley's which may have been the same. In his opinion it was about the same, he said, "I want say it was exactly the same. I don't think it was as good beer." He also said that on some of the bottles of the beer he got between the dates there were labels and on some there were not, that the label on them was a different looking label from the one on last winter's bottles. He also said the beer he got between the dates was different from the bottles containing Salvador. He said the Salvador bottles had labels on them but these bottles had a different sort of label. It was not the same beer, I did not notice any other difference. I don't think the beer was very much like Salvador beer. He also said the beer he got had no intoxicating effect at all.

Tingley's evidence was to effect, that he had bought a car load of beer, consisting of 250 cases of Salvador and 500 cases of Hoffbre. That before the 10th of June he had disposed of all the Salvador beer he got, but he did not sell any Salvador beer between 10th June and 10th September (the dates in information) that all he sold after 10th June was Hoffbre, and under what would appear a severe cross-examination it did not appear in his testimony. This is true would be a complete answer. Then the only question would be, whether he was so contradicted by the evidence of Condon and Criminals, so to make it apparent that he had sworn falsely. It appeared to me that their evidence could largely be reconciled with that of Tingley.

Condon when first called swore (page 8 and 9 of record) that he was in Tingley's employ, that his duties as clerk were selling tobacco, beer and attending to the post table. He said he sold ginger ale, cream soda and Hoffbre, that was all the kinds of beer he sold between 10th June up to the time he left the employ of Tingley on 13th August, so far he corroborated Tingley, but he went on to say "There was a beer there marked Salvador. I sold this last winter." Then he went on to describe the bottles and stoppers. He said it was labelled last winter, and then went on to say, "I sold it without labels between 10th June and 10th September, and said he scraped the labels off by the direction of Tingley. This is apparently a flat contradiction, but Tingley explained it by saying that there were labels on the bottles, and that it was the Hoffbre bottles that the labels were scraped off. That on both the Hoffbre and the Salvador the labels were the same, but on the bottles themselves, of the Hoffbre there were raised letters on the glass, that the reason I got Condon to say, is the evening and also a concert. Half from Newcastle and Montreal and intermediate stations on the L.C.R., and also on Chatham Branch and Kent Northern Railway. Arrangements will be made for special accommodation north, or south, after the entertainment."

OTTAWA, Aug. 21.—The House sat for half an hour this afternoon and then adjourned until Monday. The Speaker opened the proceedings by a short speech in which he explained the usage of the House for the benefit of the new members.

In moving the adjournment of the House, Hon. Mr. Laurier informed Sir Charles Tupper that he had obtained the assent of the Governor-General to bring down the correspondence relating to the resignation of the late Ministry which had passed between the late Premier and His Excellency. It would be laid on the table as soon as the Address was passed.

Sir Charles Tupper thought that as His Excellency had consented to the correspondence being brought down, it should be laid on the table at once. He could not understand why it should be delayed until after the Address was passed. It was possible that the correspondence might raise a grave constitutional question, and it was desirable that the House have an opportunity of discussing it in connection with the passage of the Address. It was usual for Ministerial explanations to be presented to the House on the subject of the correspondence. The country ought to be placed in possession of the incidents attending the resignation of one Government and the foundation of another.

Hon. Mr. Laurier had doubts of the constitutionality of the course suggested by Sir Charles Tupper. The correspondence might probably form the subject of a debate, but he thought it would be better to deal with it separately and to restrict the debate on the Address to the issues contained in the Address. As to Ministerial explanations, he was not aware that any explanation was due from a Ministry taking office at the result of a general election. Sir Charles Tupper was of opinion that he ought to make any explanations, they could be reached later. The correspondence would be brought down as soon as the Address was passed and it was his intention to deal with the subject at once.

FAILURE OF LAURIER'S ATTEMPT AT COMPROMISE.
OTTAWA, Aug. 28.—The school question is further from settlement than ever. Laurier's attempt at compromise has failed and Greenway, it is said, will not make any further concessions. It has come to this, Laurier must influence the Local Government or give up the struggle, and to do the latter will mean his defeat. Matters are critical and the collapse of the government on this question may occur at any moment.

Archbishop Langens' organ says, "Nothing but a complete victory will satisfy us, and this Mr. Laurier must give us. We will not accept his compromise of a half hour's teaching of 'catechism.' The fight is more intense than ever, and by-elections will demonstrate that the people are losing confidence in Laurier very fast."

QUEBEC, Aug. 27.—The Courier and Canada vigorously protests against theCures
Talk

"Cures talk" in favor of Hood's Sarsaparilla, as for no other medicine.

His great cures recorded in his faithful, convincing language of grateful men and women, constitute its most effective advertising. Many of these cures are marvellous. They have won the confidence of the people; have given Hood's Sarsaparilla the largest sales in the world, and have made necessary for its manufacture the greatest laboratory on earth. Hood's Sarsaparilla is known by the cures it has made—cures of scrofula, salt rheum and eczema, cures of rheumatism, neuralgia and weak nerves, cures of dyspepsia, liver troubles, catarrh—cures which prove

are easy to take, and cure liver ills; easy to take, and cure liver ills; easy to take, and cure liver ills.

The cases containing the bottles of Hoffbre were marked with a blue pencil.

Condon being called on to re-examine, described how the beer was stored when it first came in, in three or four tiers, and in taking off cases he took no notice of the label. He said he did not "mind" getting any instructions from Tingley about them. He was not guided by any marks. That when he left Tingley's there were 40 or 50 cases marked with a blue pencil. That there were raised letters on the bottles he washed the labels off, could not say what the letters were, could not say what the bottles were, that I know of, I did not take that much notice. I never saw the blue pencil mark on boxes, may have been there. He also said Tingley told me that there was no more Salvador beer, that was after he was fined, as far as I am concerned."

It appears to me that this evidence can be reconciled with that of Tingley. Condon by his own evidence does not appear to have taken much notice of anything, he knows that there were 40 or 50 boxes marked Salvador when he left Tingley's. I never saw the blue pencil mark on boxes, may have been there. He also said Tingley told me that there was no more Salvador beer, that was after he was fined, as far as I am concerned."

There was a heavy fog on Wednesday morning last. The fog was so thick that the steamer Miramichi ran on the point at Canadian Mills and lay there all day, almost being out of water at low tide. She got off at high water same night. Many excursionists were disappointed. The day was a beautiful one after the fog cleared off.

The yacht race off Newcastle on Thursday afternoon made a very pretty sight as the yachts ran over their triangular course, all of which was in full view from the wharves here. There was a fine breeze. Lehigh was first over the winning line with a good lead, and Grimsby several minutes behind her, but the latter won on time allowance.

The Toronto Weekly Globe, the leading Liberal paper in the Dominion, is making a generous campaign after the Liberal cause. As to Ministerial explanations, he was not aware that any explanation was due from a Ministry taking office at the result of a general election. The correspondence would be brought down as soon as the Address was passed and it was his intention to deal with the subject at once.Think It Over.

THE STORY OF AN OLD SETTLER IN DEFFERN COUNTY.

Suffered Terribly with Rheumatism, and Had to use Mechanical Appliances to Turn in Bed—Friends Thought he Could Not Recover.

From the Economist, Shelburne, Ont.
August, Mr. August, now in his 77th year, came to Canada from England forty years ago, and for thirty-eight years has been a resident of Melancthon. During some thirty years of that time he has been a planter, and for eleven or twelve years was a member of the township council, for some years holding the position of deputy reeve. He has also been a justice of the peace since the formation of the county. It will thus be seen that Mr. August stands high in the estimation of his neighbors.

In the winter of 1880-81 Mr. August was laid up with an unusually severe attack of rheumatism, being confined to the house and to his bed for about three months. To a reporter of the Economist, Mr. August said: "I was in fact a regular cripple. Suspended from the ceiling over my bed was a rope which I would seize

with my hands, and thus change my position in bed. I was in a sitting posture. I suffered as only those racked with rheumatic pains could suffer, and owing to my advanced age, my neighbors did not think it possible for me to recover. I had read much concerning Dr. Williams' Pink Pills, and at last determined to give them a trial. I commenced taking the pills about the 1st of Feb., 1881, taking at the current one after each meal, and I have not since taken a single pill. In a couple of weeks I could notice an improvement, and by the first of April I was able to be about as usual. The blood, the pains, and with very little of the stiffness left. I continued the treatment a short time longer, and found myself fully restored. It is now nearly a year since I discontinued taking the Pink Pills, and in all cases arising in the way of the trouble in that time, I have no hesitation in saying that I owe my recovery to Dr. Williams' Pink Pills."

These pills are a perfect blood-builder and nerve restorer, curing such diseases as rheumatism, neuralgia, partial paralysis, sciatica, St. Vitus' Dance, nervous headache, all nervous troubles, palpitation of the heart, "rheumatic" effects of a grippé, diseases depending on humors of the blood, such as scrofula, chronic erysipelas, etc. Pink Pills give a healthy glow to pale and sallow complexions, and are a specific for troubles peculiar to the female system, and in the case of men they effect a radical cure in all cases arising in the way of the trouble in that time, I have no hesitation in saying that I owe my recovery to Dr. Williams' Pink Pills."

Sir Charles Tupper thought that as His Excellency had consented to the correspondence being brought down, it should be laid on the table at once. He could not understand why it should be delayed until after the Address was passed. It was possible that the correspondence might raise a grave constitutional question, and it was desirable that the House have an opportunity of discussing it in connection with the passage of the Address.
