

ANNOUNCEMENT!

On Oct. 22 our Mr. O. K. Nelson started on a round trip to New York via S. S. "Cascapadia". On the return trip the vessel was shipwrecked south of St. Pierre on Nov. 17. The passengers and crew were rescued by an English vessel and landed in England.

Being an American citizen, Mr. Nelson could only get permission to go to New York, where he arrived on January 18. A few days later he was taken ill with the "flu" and forced to remain for two months, finally reaching St. John's on the S. S. "Digby".

During Mr. Nelson's absence a number of shipments arrived which had to be held at the station till his return, as there was no one at our office here with authority to receive shipments. The above will explain why our goods were held here so long, also why many letters addressed to this office have not been answered. We are pleased to announce that we have made arrangements with THE COLUMBIA TRADING CO. of New York to act as their agents in Newfoundland and in future they will attend to the purchase and shipment of all goods ordered from New York through this office.

THE COLUMBIA TRADING CO. are general exporters and give careful attention to the purchase and shipment of all American goods. They also handle all kinds of fishery products and raw furs. We can arrange for any of our customers to deal directly with their New York office if desired.

THE UNIELECTRIC MACHINE is becoming more generally recognized as the best electric lighting system on the market. These machines can now be equipped with a self-starter so that machine can be started or stopped at any time of the day or night by pressing a button in any room in the house. This equipment gives the UNIELECTRIC every advantage claimed for the so-called "battery systems" without the annoyance and expense of caring for batteries. Many battery systems which have been in use for only a short time have been replaced by the "UNIELECTRIC".

THE HOWE SCALE CO. is one of the oldest and most reliable concerns in the business. They have recently perfected a "springless" computing scale which is the finest scale of its kind ever made. Let us show you this new Scale.

KNOCK DOWN ENGINES—the only engine of its kind in the world. Price of engine alone: 4 H.P. \$110.00; 8 H.P. \$175.00. Price complete with propeller, shafting and tank: 4 H.P. \$140.00; 8 H.P. \$210.00. We will set up this engine and ship it to you ready to run for \$5.00 extra. Last year shipments were greatly delayed owing to war conditions. Now we have some of these engines here in St. John's and others coming. These engines are not an experiment. They are one of the oldest engines made. The only thing new is the idea of measuring every part by the finest gauge, then shipping the parts (unpainted) to be assembled and painted by the purchaser. In this way the engine can be sold much cheaper. If you need a reliable engine at the cheapest possible price, write or telegraph us at once.

GILVENSEN GREI ENGINES—These engines are built in Norway where the finest iron in the world is found. They are of the modified "hot head" type with electric equipment which starts engine and operates all engine in thoroughly heated. These engines have proved so reliable that the Norwegian fishermen do not put masts in their fishing boats, but make long trips at sea, depending on engine alone. They are built in sizes from 4 H.P. to 250 H.P. We will make special prices on the first 2 or 3 engines sold, as the first few engines will show our people what a "real oil engine" can do. We would appreciate the favor if all customers owing us balances for goods purchased would kindly remit the amount promptly. We will also ask those to whom money is due to kindly send itemized statement.

The Rhodes Scholarships.

The Rhodes Trustees announce that the election of scholars will be resumed this year, when there will be an election for two candidates to fill up the scholarships for 1918 and 1919.

Next year the Trust again proposes to choose two candidates for 1920 and 1921, after which the annual elections will resume their normal course.

Candidates must be British subjects and unmarried. They must have passed their nineteenth birthday but must not have passed their 25th birthday, on the first of October of the year for which they are elected.

Candidates must have had two years of training at some degree-granting University or College, or a course of study accepted by the Trustees as an equivalent.

The Trust is very anxious, other things being equal, to give first consideration to men who have showed their patriotism by going on active service.

Amongst those applying there may be some who have not been able, on account of service, to get the two years of university life required by the regulations. Oxford has arranged to excuse such men from Responsions, and the Trust thinks that they should be allowed to compete.

On the other hand the local committee has been strongly urged not to select anyone who by the want of preparatory training is not fairly prepared to get good results from a course at Oxford.

Men who have not been on service will be expected to meet the University requirements.

The Scholar elected for 1918 will be expected to go into residence not later than January 1920. The one elected for 1919 will take up work in Oxford in October 1920.

Applications for the 1918 scholarship to be accompanied by ten copies of certificates and testimonials should be made to the undersigned not later than July 1st of this year.

The candidate for 1918 will be eligible if he were not more than 25 years of age on October 1st, 1917.

The date for receiving applications for the 1919 scholarship will be announced later.
