TO CONTRACTORS.

TENDERS WILL BE RECEIVED AT the office of the undersigned until SATURDAY, APRIL 11th, For alteration and additions to Street Railway car sheds. Lowest or any tender not necessarily accepted. McBride & Farncome, Architects, Duffield Block.

THE NAMING OF NAILS.

Two accounts are given of the origin of the terms, "six-penny," "eight-pen-ny," "ten-penny," and so on, as ap-plied to the various sizes of nails. According to one statement, when the nails were made by hand, the penny was taken as a standard of weight, and six were made to equal the weight of a copper penny. This explanation is open to criticism, on account of the very small size of the nails, of which six were needed to balance even the large-sized, old-fashioned copper penny. The other is much more probable. It affirms that six were sold for a penny, and the names grew into use, even when the price changed, and the larger kinds were, from a popular mistake, called ten-penny, and so on, without regard to size or weight. Of the ordinary six-penny nails there are eighty to the pound; of the eight-penny, there are fifty; ten-penny, thirtyfour; twelve-penny, thirty-nine.-St.
